## FORK.

There is still a number of cases of sickness in this neighborhood, but we hope as the time for better weather conditions approaches, all will be on the convalescing list.

Mr. George C. Clayton fell on last Friday and sustained a badly sprained knee and is only able to be about with the aid of crutches.

Fork M. E. Mite Society will hold its regular meeting March 3, at the home of Mrs. H. F. Clayton.

On account of the severe weather and dritted condition of the roads there was no meeting last Monday. If Wednesday evening should be stormy, the meeting will be held Thursday evening.

The sympathy of the neighborhood is extended to Mr. J. W. Whiteford and family in their bereavement. Mrs. Whiteford had been a great sufferer for years and finally succumbed on Tuesday morning.

Rev. Edgar H. Showacre, our energetic pastor, has his furnace all ready to install and has had some other much needed improvements to the parsonage made.

It costs more to feed a team than it does a Traffic, and you must feed your team whether it works or not.

The Traffic hauls a 4,000-lb. load 14 miles in one hour for 30 cents' worth of gasoline. It saves hundreds of dollars in first cost—hundreds of dollars in maintenance cost and cuts the cost of hauling with teams in half and is the lowest priced 4,000-lb. capacity truck in the world. See it today.

**RAISE MORE HOGS AT LESS COST**

BY USING

**HOG FEED**

The most valuable pig for a breeder to raise is the one that will give him the most money for the feed consumed.

Spring Garden Hog Feed is all food, no waste. The protein content is practically all digestible as compared with 70% digestibility in corn.

It is made from corn germ or hearts, corn oil meal, corn bran and part of the crown portion of the kernel. Thoroughly kiln-dried and sterilized; packed clean by machinery; free from dust and adulterants. Guaranteed to keep pure and sweet and do all we claim for it or money back.

Spring Garden Hog Feed is the most economical pork producer on the market. Superior feeding value proven by Agricultural Station tests.

Farmers who raise both cereal crops and stock can profitably sell their corn and use Spring Garden Hog Feed. This can be readily dem-

onstrated.
