ORDER OF PUBLICATION.

ANANI SHEPTITZKI, ET AL
vs.
THE RUSSIAN RESURRECTION SOCIETY, ET AL.

IN THE CIRCUIT COURT FOR BALTIMORE COUNTY, IN EQUITY.

The object of this suit is for the appointment of a Trustee to make sale of two and one-half acres of land in Baltimore County now standing in the name of John Kouchutko and mortgaged by him to Rev. Constantine C. Seletzky and to distribute the proceeds to the parties equitably entitled thereto, and meantime to restrain the said John Kouchutko and Rev. Constantine V. Seletzky from disposing or encumbering the same.

The bill recites that the said land was originally purchased by the Russian Resurrection Society of Baltimore City for purposes of a cemetery or burial ground; that in pursuance of an agreement with the said Society the Plaintiffs advanced various sums of money toward the purchase of the said land and were to receive lots therein in proportion to their advances; that the said land was never used for cemetery purposes, that the said Society as well as the Russian Church of which it constitutes a part are about to disband, and that to defraud the Plaintiff's of their interest in the land, the said land was conveyed to John Kouchutko who subsequently mortgaged it to Rev. Constantine V. Seletzky.

In a petition subsequently filed the Plaintiffs allege that the said John Kouchutko, one of the defendants, is a non-resident of the State of Maryland.

It is therefore ordered by the Circuit Court for Baltimore County, In Equity, this 29th day of June, 1920, that the Plaintiffs, by causing a copy of this order to be inserted in some weekly newspaper published in Baltimore County once in each of four successive weeks, before the 2nd day of August, 1920, give notice to John Kouchutko, the said absent defendant, of the object and substance of this Bill, warnin him to be and appear in this Court, in person or by solicitor,

On or before the 18th day of August, 1920,

to show cause, if any he has, why the decree prayed for should not be granted.

YIELDED TO TATTOOER'S ART

Many Royal Personages Have Been "Decorated"—Amusing Experience of Swedish Monarch.

It was no secret to his intimates that King Edward VII of England subjected his arms to the art of a tattooer when he was prince of Wales, nor is it a secret that his son, the present king, was tattooed by a skillful Japanese, when as a midshipman on board the "Bacchant" he visited Japan many years ago.

The late czar of Russia wore an indelible India-ink dragon on his left forearm, and quite a number of other European royalties past and present, have received these indestructible "decorations."

But the experience of Charles XIV of Sweden and Norway, makes an interesting little story by itself. It was always a puzzle to those most intimately associated with him, that he would never show himself anywhere with bared arms. It was not until his death in 1844 that the mystery was explained. On his right arm were tattooed neither a dragon, an eagle nor an insignia of high authority, but instead the red cap of Liberty, and the motto, "Death to Kings." As Jean Baptiste Jules Bernadotte, in his young republican days in France, he had been thus tattooed, never dreaming that later he would be called to the throne.

SHEEP KILLED THEIR ENEMY

Ordinarily Timid Animals Worked in Concert to Stamp Life Out of Big Rattlesnake.

One summer morning a farmer in Virginia started out to salt a small flock of sheep that he had recently put into a hilly, overgrown field some distance from his home. At the pasture he called for some time, but seeing or hearing nothing of the sheep he walked down toward the middle of the enclosure and mounted a tall stump at the edge of the brier patch. From this point of vantage he could see the flock on a piece of level ground scarcely 50 yards below him.

The sheep were crowded into a swaying excited circle some 20 feet in diameter.

Presently, while the sheep were standing still, a big wether made a spring, landed with his feet in the very center of the ring and bounced away like a rubber ball. In a flash another followed his lead, and another, until all had leaped on the same spot. Then away they swept down the hill.

Stepping down from his perch, the farmer made his way to the scene of this strange performance. By the side of the trampled brier clump lay the mangled remains of a big rattlesnake.

Barbless Hooks for Anglers.

A very commendable movement is under way among members of the Megantic club, and probably other sporting clubs, for the use of the barbless hook. The idea is that true sportsmanship consists in giving the members of the "finny tribe" a fair chance for life and escape, and that to catch a fish with a barbless hook is more creditable than to use the old-fashioned barb. When trout or salmon are caught with a barbed hook, they are apt to be seriously injured, and even if thrown back into the water do not recover, in many cases; whereas, if the barbless hook is used, as now advocated, they are, if returned to the water, in almost all instances revived and may be caught over and over again. This is true sportsmanship, and it is to be hoped that the barbless hook movement will succeed.—Boston Post.

Army Has New "Eyes."

Army engineers are said to have developed a new type of searchlight, mounted on a rubber-tired trailer that can be pulled great distances by a motortruck which promises to be a great aid in anti-aircraft operations. It is a 60-inch light of the "dishpan" type, yet weighs but 700 pounds as against the old light of this size, which weighed 6,000 pounds.

The cost of the new light also has been reduced, being about a quarter of the cost of the first light, which had a glass mirror that was not only very heavy but also difficult to manufacture. The new light has a mirror of thin metal with a backing of reenforced concrete. This construction is said to promise excellent results.

Biggest Freezer in World.

The biggest freezer in the world, with a capacity of 50,000,000 pounds, has just been completed and is now in operation at the Chicago plant of a large meat-packing concern. It has been erected for the dual purpose of freezing meat products, particularly for export, and of storing products during the period of heavy production, to insure a supply at all times. The building is ten stories high and was erected at a cost of $2,000,000.

Location at Uranus.

The latest calculations, based on the perturbations of Uranus, are stated by Dr. Eric Doolittle to show that the hypothetical planet beyond Neptune is nearly four billion miles from the sun, and requires 283 years to complete a revolution in its orbit. It is much smaller than other distant planets, with a mass only six times that of the earth. This is a secret of its elusiveness, and its discovery is expected to reveal a minute body of only the twelfth or thirteenth magnitude. Search is now being made for this mystery of the skies near Gemini's western border.

Can't Make Knife Handles.

The scarcity of camphor, the output of which is controlled by Japan, is having a serious effect on the cutlery trade in Sheffield, England. For camphor is an essential ingredient of celluloid, and the cutlers find it impossible to get enough of this for knife handles.
