SATURDAY, AUGUST 14, 1920

For President
JAMES M. COX.
For Vice-President
FRANKLIN D. ROOSEVELT.
For United States Senate
JOHN WALTER SMITH.
For Congressmen
CARVILLE D. BENSON.

Baltimore county needs that Factory
Site Commission.

The cheapest thing one can get now
is a "coat of tan."

Every time Harding speaks he
makes more votes for Cox.

Don't forget it. Harding is the
candidate of the big interests.

What the North of Ireland is seeking
is a bullet-proof Ulster.

The chief trouble with labor seems
to be the work connected with it.

If there is no coal this winter, we
can at least burn with resentment.

They rarely have election returns
in Mexico. They're mostly rumors.

The worst of it is, they quit raising
food and go to the city to raise prices.

There are plenty of coal hearings.
What the people want is some coal
seeing.

The Cox speech would have suited a
good many folks better if it had been
damper.

The number of former American soldiers
figuring in criminal cases is
alarming.

Some people's idea of liberty and
freedom go no farther than a bottle of
real beer.

Now that all the candidates know
that they have been nominated, let the
game go on.

It's always the chap with an expensive
motor car who can tell you how
to economize.

The Third party, which went up like
a sky rocket, is coming down now
like the stick.

The assassin who shot wild at Von
Hindenberg and retreated had nothing
on Hindenberg.

Hello! Hello! Hello-o-o-o! Is that
exchange girl using a powder puff or
reading a novel?

Many Republicans realize that all of
Harding's speeches have too much of
that "Boss" character.

The glory of the steam roller in politics
will depart when we get the rolling
pin into National politics.

Some states are born with equal suffrage,
other achieve it, and the balance
will have it thrust upon them.

The telephone company has entered
a broad field of opportunity. It announces
it will improve the service.

It is charged that the excess profits
tax only serves to increase prices. So
does the fine imposed upon profiteers.

A noted Englishman says the British
Empire is dead. This, no doubt,
explains the reason for its Irish woe.

We used to suspect that we were
being robbed on every hand. Now the
terrible period of uncertainty is over.

In cornering the presidential timber
supply Ohio may justly be charged
with the violation of the anti-trust law.

Villa probably regards his position
as revolutionary leader as more permanent
than that of Mexican President.

In all his front porch speeches the
voice is the voice of Harding. In the
words are the words of "Boss" Penrose.

Shoes are going down. If they went
up much higher the public would be
in wrath of desperation, but its foot
down.

Baltimore county needs more industries,
at they can't be had by sitting
idly by and "letting well enough
alone."

We see the Germans have been ordered
to destroy their guns again. If this
keeps up those guns will be a
total loss.

If Editor Harding cannot edit and
make up his newspaper better than he
can his speeches, he's no match for
Editor Cox.

If you don't want two administrative
bodies functioning in different
directions, vote against the new charter
this fall.

If the authorities would be determined
to lessen the number of funerals
by jailing speeders it would be a
good thing.

Harding, the Republican candidate
for President has spoken on several
occasions, but the earth did not cease
revolving on its axis.

Both presidential candidates, it appears,
can qualify as cooks in an emergency.
The real test is, which can
cook the other's goose.

The people of the Second Congressional
District are becoming convinced
that they again want Carville D. Benson
to represent them in Congress.

Four New York men were arrested
for stealing \$10,000 worth of shoes, but
probably they only wanted to equip
their families for the coming winter.

The fact that over 400 members of
the Taxpayers' League are in arrears
with their membership dues does not
lead one to believe it is an enthusiastic
crowd.

The boys' and girls' agricultural
clubs should be encouraged in the
county. Such movements as these
keep the youngsters in "the straight
and narrow path."

What did Blakeney do, the one term
he served in Congress many years ago?
Compare it with Benson's record and
we feel confident how your X will
be marked on the ballot in November.

Cox, Benson and Smith have all
served the people before and deserve
recognition at the November election.
The old quotation "That a laborer is
worthy of his hire" should hold good.

Price, Watson, Dietz Co., (limited),
are still doing business at the same
old stand under the name of the Tax-
payers' League. Over 400 of the
"stockholders" have failed to "cough
up."

SENATOR SMITH.

The people of Maryland in the approaching campaign should not lose sight of the candidacy of John Walter Smith for the United States Senate.

Senator Smith, who was one time Governor of the State, has represented Maryland in the Upper House of Congress for two consecutive terms with faithfulness and distinguished ability, and richly deserves reelection. He is a man of action, rather than of words, and during his terms in the Senate he has secured the passage of legislation of incalculable benefit to his State. He is looked upon in the Senate as a statesman of the first rank and his influence there for the next six years will be an influence for the people of Maryland not well afforded to dispense with.

We often see the name of Senator France in the headlines. He has done a great many spectacular things since he has been in the Senate. He has even attempted to capture the Republican nomination for the presidency. But the man who has done things in the United States Senate for the welfare of the people of Maryland is the senior Senator, John Walter Smith.

Opposed to Senator Smith in the approaching campaign is O. B. Weller, one time resident of Baltimore county, but who worked against the county in the annexation fight, a practical politician representing the Old Guard element in the Republican party, and regarded as the "boss" of the Republican machine in the State.

Mr. Weller, a man who has had no legislative experience except as a member of the "Third House" at Annapolis, and who is practically unknown outside the State, "the" man who is responsible for Senator France and Mayor Broening, and who played Harry Rice for Governor of Maryland.

From the standpoint of ability and general fitness for the high office of United States Senator, the comparison between the Democratic and Republican nominees.

The voters of Baltimore county, regardless of party, would do well to best for the State, they will go to the polls on November and cast their ballots for the re-election of Maryland's distinguished senior Senator, the Honorable John Walter Smith.

not less than \$100, and multiples thereof. Second, in addition to the cash subscription, we will allow time to pay for a further subscription. The amount of time allowed will depend on the length of service of each employee. It will be worked out on a basis of allowing one year's time for every year of service with the Company up to a total of two years. After which six months will be allowed for each additional year of service. However, everyone will be given a minimum of one year, even if they have been with us only one week, and no one will be allowed more than five years as a maximum time. For example: If a man has been with us three years, he would be allowed two and one-half years to pay for his stock and he can subscribe for as much as he thinks he can pay for that length of time. Fractional parts of a year will be worked out on a monthly basis, the employee being given the benefit of a fractional part of a month. For instance, if an employee has been with us three years, seven months and ten days, his allotted time to pay would be two years, plus six months, plus four months, or a total of two years and ten months. If he worked there for two years and ten months, he would be given no limit placed on the amount of stock which may be subscribed, but only on the length of time allowed to pay. The length of time of employment will be figured to August 20, 1920.

The next block of preferred stock to be issued by the Company will carry as large a percentage of common stock as a bonus as the first block, probably only 20 per cent, or one share of common stock for every five shares of preferred and the third block a still lower percentage, perhaps 16 2-3 per cent.

For this reason the Company wants all of its employees to get in on the first block, or most favorable basis, and get in as heavily as they can afford. Consequently, they are allowing the time for payment.

In case of over-subscription, the Company reserves the right to award the stock pro rata, or in proportion to the amount you subscribe for as compared to the total. It also reserves the right to reject any or all subscriptions for any reason that may seem sufficient to the officers of the Company.

Stock can be paid for in blocks of four shares at \$100 at a time. And we prefer or to have these payments spread as equally as possible over the allotted time. If payments can be made sooner than anticipated so much the better for subscriber and company. No payments of less than \$100, and multiples thereof will be accepted.

In case an employee leaves for any reason, the obligation to hold open his or her unpaid subscription, or the unpaid portion of a subscription ceases automatically.

The Black & Decker Mfg. Company incorporated in 1910, under the laws of Maryland by S. Duncan Black and Alonzo G. Decker, for the purpose of designing, building and selling all kinds of machinery. After several years of successful operation, it was realized that in order to build a larger business it was necessary to create a national and international market, and to protect its patents in this and foreign countries.

The result was the designing and patenting in almost every civilized country the tools now being manufactured at Towson Heights. In order to take care of the housing of the production and sales organization, there is under way now the erection of a community of homes on a tract totaling about 125 acres, adjacent to the big plant. A number of the houses are already occupied.

The sales policy of the Black & Decker Mfg. Co. is selling exclusively through the large jobbers in the automobile, electrical, machinery, hardware and mill supply lines, the foreign business is handled in the same manner. This, together with the company's aggressive advertising policy, makes for safety in credits and steadiness of demands.

At the present time this company is the largest in the world manufacturing portable electric drills. A financial statement follows:

DOES INCREASED RECEIPTS MEAN INCREASED SAVINGS FOR YOU?

It matters not how much one receives, but what one lays away as a savings. Increased salary or increased prices for farm products often means increased living allowances, without increased savings.

ONE DOLLAR

Saved now will be worth TWO DOLLARS in purchasing power later on. Savings now are imperative towards getting ahead later on.

FREELAND.

The drouth which had prevailed for several weeks has at last been broken in this section much to the delight of the farmer, who had not, as yet, plowed his fallow ground. The rain was much needed for the growing corn crop also.

This community is blessed with a good apple crop, and a few of our folks shipped the earlier variety to market, not realizing enough to pay them for the trouble of picking and the cost of shipping.

Mr. H. N. Spicer, blacksmith of Pleasant Hill, is one of our most successful dealers in real estate. He has sold his property, which he purchased a few years ago, at a considerable advance. He also purchased what was formerly known as the Absalom Baker farm last spring, and now he has disposed of the farm, doubling his money. His latest venture is the purchase from his parents of the property upon which they formerly lived for \$2,800. He has some of the intuition in real estate of Ponzi.

The old Sixth district is looking forward to today, when she expects to break all former records in the character of picnics. The program is of such a nature that those who attend will not only have the pleasure of meeting old friends, but of being enlightened upon several topics that are engrossing our attention at present. We would say to our busy farmers, lay aside the duties of that day and take in this occasion.

STILTZ.

Maurice Clinton Fischer, son of the late Mr. and Mrs. Daniel Fischer, of New Freedom, who died Sunday at his home, was buried here Tuesday after brief services at the house. He was about fourteen years of age and was the ninth child that died. All died of tuberculosis except two infants.
