The Joseph Pearce farm, owned by Mrs. Ferguson, was sold at public auction on Monday at the Court House door. Mr. Woodrum, of Corbett, was the purchaser at \$7,500.

Many acres of unhusked corn is standing in shocks in the fields, and a few fields of uncut corn. This condition is due to scarcity and high prices for labor, and with corn selling around four dollars per barrel the prospects are not encouraging to the farmers.

The cold weather of the past few days caused the people to realize most impressively that their coal bins are either very low or empty. The condition is serious, as the dealers have practically no stock on hand and can give no assurance to shippers.

Mr. D. Day was fortunate in having a fine hunting dog come to his home. He would like to locate the owner, as he has no need for the animal and desires that the owner come and claim it.

**Here's the Little Machine That Is Revolutionizing Wood Cutting**

**WADE'S Gasoline DRAG SAW**

Cuts 25 Cords A Day

Has a capacity of 25 cords a day and will pay for itself in a season's work and leave you a handsome profit besides.

When loaded with gasoline and water it weighs only 285 pounds. One man can move it on a log and it only takes two to shift it from one log to another. Don't be fooled with rigs mounted on wheels. They could not be hauled otherwise on account of their weight. They have 4-cycle engines of only 3 horse power with valves and springs. Our 2-cycle engine is compact light weight (being 1/2 or only 285 pounds complete) 4 horse power and eliminates valve and spring trouble. We furnish 6 foot blade regular, 5 or 7 foot if desired. There is only ONE WADE and it has half a century reputation behind it.

Cuts a 40-inch log in five minutes, about ten times as fast as two men with a cross-cut saw can do it in the old-fashioned way.

It's just as far ahead of hand power as the automobile is ahead of walking—in fact, it's the application of the auto principle to the saw.

The WADE SAW is equipped with a 4 horse power, 2-cycle gasoline engine, driving the saw with abundant power, while a safety clutch prevents the saw pinching in the cut. Saw has 20-inch stroke and one gallon of gasoline will cut about ten cords of wood.

"Mose's" Great Sale of Suits and Overcoats That Will Revolutionize The Clothing Business of Baltimore

SUITS AND OVERCOATS ALMOST GIVEN AWAY

THE MAN WHO KNOCKS THE BOTTOM OUT OF HIGH PRICES

THIS BIGGEST BARGAIN SALE OF THE SEASON

READ this list below, boys, and see how "Mose" has "walloped" prices.

News comes that clothing prices will be lower next spring, but "Mose" isn't waiting till next spring.

The "boy" starts NOW and he's not going to let up until every suit and overcoat in his big stock is sold.

And "Mose" is going to sell them in his regular way, just as he's always been doing.

If you are an honest man, and will "come clean" with "Mose," you can come here and "tog" yourself out in one of these good suits, for less than you can buy anywhere else.

MOSES KAHN OF OLD TOWN

AND you must keep in mind that the suits and overcoats that "Mose" gives you in this Great Sale are his own good make.

Every garment was cut from the cloth in the bolt and tailored and made up right here on his own premises in "Old Town"—the home of "Kahn's Good Klothes."

They are so good that "Mose" says if you buy a suit or overcoat from him, and if it doesn't hold out to be as good as represented, or if you in any way become dissatisfied with it, you may return it and get your good money back.

That's the kind of a square business that "Mose" does, and that's the kind of business that's made him the big clothing man in "Old Town" he is, and that's made him so many good friends and customers.
