The following poem is an old one, and the young lady is pretty level headed, don't you think so?:

He Won't Do For Me. I've told him quite plainly he won't do for me.

The wife of an old man I've no wish to be:

He thinks that his riches may tempt me, but no,

The most important war news of the week was the fall of Fort Fisher. The account of it is as follows:

"The capture of Fort Fisher, North Carolina, by the Union forces has been officially announced by both the War and Navy Departments. An assault by the land forces aided by a battalion of marines and sailors was commenced on Sunday afternoon at three o'clock, and by eleven o'clock that night the Union army had obtained full possession of Fort Fisher, and according to the latest official accounts captured seventytwo guns and 2500 prisoners, including General Whiting and Col. Lamb, the commandant of the fort, both wounded. Many of the guns are injured. The fighting is represented to have been of the most desperate character, and it was foot by foot that the works were carried by the Union infantry. No estimate of the Union casualties is given, but the loss is said to be severe. General Curtis and Colonels Peenebaker and Bell, the commanders of the three leading brigades in the attack, were wounded.

Majestic Duplex Register System

A view showing the Majestic Duplex Register in relation to the furnace.

1. Note the warm air going from the Majestic Duplex Boot and being distributed from the front of the Register, this insures an even heat throughout the room.

2. Note the cold air being drawn in the sides of the Register passing into the Majestic Boot, thence to the furnace where its reheated and redistributed causing perfect circulation.

LET US DEMONSTRATE THE MAGESTIC TO YOU.
