BUTLER GIRL WINS FIRST PRIZE IN "JEFF'S" COMMUNITY CHRISTMAS TREE CONTEST.

(Continued from Page 1)

boys entirely ignoring it, due, perhaps, to the fact that they were too busy romping and playing after school hours to give the subject much thought.

After having read each description sent to The Jeffersonian by girls from every nook and corner of the County, on Thursday evening the Judges discarded all but six, which were adjudged the best and from these the composition of little Miss Pearson and little Miss Grason, were picked for the awards.

Next Yuletide The Jeffersonian plans a more elaborate display and will run a similar contest.

The composition of the successful ones follow:

THE COMMUNITY CHRISTMAS TREE AND REALISTIC GARDEN.

It was Christmas Eve, the snow had fallen and covered the little world like a blanket, adding good cheer to those good folks of the village, who were merry and preparing for Christmas. Each house with the welcoming light, and those folks on the street in apparent haste to get home, lent a feeling of gratitude to the dear Santa that gave we children of Baltimore County the beautiful garden and tree which I am going to try and describe to those unfortunate children who did not get to Towson.

The little houses in the foreground, which make up the village, were modern; there were no two alike, being patterned from Mexico, Spain and France, in stucco, wood and stone; there were Colonial cottages, too. Beautiful stone Churches, marble banks, statues, concrete garages, engine house, filling station and stores of all kinds. Trees and shrubbery which beautify the pretty home places of today were properly in abundance.

The village, like the buildings, was modern, with its telephone poles, street lights and wagons; its electric line, which runs through the village and taxi service to the city, which was very striking in silhouette beyond the beautiful hills where many lights shone dimly from the tall buildings.

In the foreground is seen a detachment of soldiers on leave, that they might attend the home welcome that awaits them.

A most beautiful and wonderful Christmas Garden. I should like to walk through the village and back beyond the hills, and take a jolly ride on the trolley. Om, boy, I'll say Old Santa sure lent his best efforts to please we kiddies of Baltimore County.

The Community Tree, ablaze in color, blinked forth good cheer to all; with dear Old Santa on the roof about to descend the chimney to fulfill the wishes of all in the village below.

I feel that I am expressing the sentiments of all those that have been to Towson, that dear Old Santa will not forget us next year.

A. DORIS PEARSON,
Aged 12, 7th Grade.

THE JEFFERSONIAN CHRISTMAS TREE AND GARDEN.

Having read for weeks of the preparations of The Jeffersonian Christmas surprise, I walked over one evening after dinner to see it. I was delighted and thought it prettiest Christmas village scene and tree I ever saw, perfect in every detail.

The houses twinkling with their bright lights in every direction and the snow-fall covering the town, looked like real fairy-land.

As you gaze on the village and the tree nearby you feel as if Santa Claus' sleigh bells can be heard in the distance, already to spread joy and cheer to those who live in our town.

The County boys and girls are so thrilled with the Toonerville Trolley Line which runs through the village, they would gladly pitch their tents on The Jeffersonian grounds until after New Year if their parents would allow them.

The brightly lit tree which stands as a noble guard to one side of the village, is a wonder to see, being most perfectly formed pine tree, which makes it worth while to look at it in the day a swell as in the night.

The Jeffersonian and its force deserve the highest praise for their man on the car wasetaoihrdlt(tshe public spirited undertaking. One man on the car was overheard saying to another: "Don't you wish you lived in a town which has an attractive a Christmas treat for the public as our town has in The Jeffersonian tree and snow scene. Success to our up-to-date County paper for 1924!

LELIA GRASON,
Seventh Grade,
Towson High School.

CATONSVILLE COUPLE WED.

EXTRA POWER
In the Driving Range!
That's Why the 1924 Cleveland Excels In Traffic Get-away and Hill Performance

Between 10 and 35 miles an hour, the new "extra power" motor of the 1924 Cleveland Six develops up to 30 per cent. more horsepower than the average light six motor at exactly the same speeds.

That's why the 1924 Cleveland rushes past bigger and costlier cars on hills—why the Cleveland owner simply steps on the accelerator and shoots swiftly ahead in traffic while the drivers of other sixes are still shifting gears.

ECONOMY AND SILENCE.—When you drive the 1924 Cleveland and see how easily it out-performs the average light six, please remember this important fact:

Its faster traffic pick-up and greater speed on hills is achieved not by putting a big noisy, inefficient motor under the hood—but by the use of a smaller motor scientifically developed to combine superior performance powers with greater economy and silence.

RUGGED AND LIGHT.—Built only of the fines talloy steels, the Cleveland chassis combines great strength with lightness. With less dead weight to carry, tires last as high as 20,000 miles. For the same reason, oil and gas bills are smaller.

FISHER BODIES.—All closed models have handsome Fisher bodies, beautifully proportioned and brilliantly finished. The sedan seats five omfortably. There is ample leg room for every passenger. Seats are deep, low, and upholstered in the finest taupe plush.

DRIVE IT.—Drive the 1924 Cleveland with its new power plant and sixteen other big improvements! Even if it were not powered by the finest motor of its size ever placed in an automobile, it would still be the soundest investment in the light six field!

TOURING CAR $1,045 5 PASS. SEDAN $1365.
