HAMPTON'S VEGETABLE TINCTURE,

AND CURE FOR Rheumatism, Dyspepsia, Scrofula, &c. HIS medicine is altogether from the Vegetable Kingdom, and may be used by any one without injurious consequences, by a wise choice and combination of some of the best of each class of co-operative simple remedies. It fully reaches all the essential organs of the human system, and thus it has proved itself so effectually curative of the whole round of curo-

NIC AFFECTIONS. This article was discovered by Dr. Jesse HAMPTON, now in fine health in the 79th year of his age. He was born in Virginia in 1775, emigrated to Kentucky—then a wilderness with his father in 1779. In early manhood he was so reduced by disease as to be almost wrecked in constitution. He spentmuch of his living for medical advice and attention, and grew nothing better, but worse. Finding no relief from his physicians, he resolved to try the restorative power of the roots, barks, leaves, plants, &c., of the forest. He then dwelt in the midst of the Red Men of the Western Wilds. Having heard much of their skill in the use of vegetable remedies of the forest, and knowing their mode of medicinal practice must be one of practical experience and not of theoretical speculation, he made himself acquainted with their remedies, and also with their practical HAVE removed to their NEW STORE- medical knowledge of the early settlers of Ken-

Hundreds who have been debilitated and dispirited, and on the verge of a premature grave, have been restored by its use to blooming health, which we are abundantly able to prove no other medicine can produce.
