When, then, we say that this is a time when our great national parties are thrown into anarchy, we do not mean which have existed up to this time, are fast coming to a close, and that new ones are about to take their places.

The cause of what we take to be the present "dilapidation" was the national election of 1852. That, we are per- giving and prayer." tween Whiggery and Democracy, that the country is likely to see. Even that was not a strict contest. The old issues had even then become absolete, and the fight was conducted more on the score of old prejudices than upon any living or vital differences.

After the result of that election was known, we observed that two opinions were very generally expressed by the independent press, throughout the country: First, that the Whig party was utterly dead; second, that the oppositionparty would soon destroy itself, i. e. would inevitably go to pieces.

We believe that both these dogmas have now been fully realized, and that subsequent local elections have verified has no where given evidence of its old not pray for their country as well as for county commissioners. mediably sundered into two adverse facdeed, there is a very evident desire on detract from the claims of to-morrow.
