Prepare for Cold Weather! AND the way to do it is to buy the best COOKING STOVE in the market, and that is the Bay State. It is the best made, the smoothest Casting, better Iron used in the constrution, and more care taken in putting the Plates together (the joints are not filled with putty to make them tight) than in any other Stove sold in this country. It has taken the highest premium in five of the largest Fairs held in this country, viz: New York, Philadelphia, Baltimore, Boston, and Providence. The above Stove was intended for wood, but, at the solicitation of many of our customers, we last season made sets of Coal Fixtures for them, and where the cook is accustomed to burning Coal, they give perfect satisfaction.
