BARNUM'S CITY HOTEL, BALTIMORE.

THIS very extensive and well-known establishment has for a considerable time been in the hands of a celebrated architect, under whose efficient supervision it is rapidly assuming that splendor of embellishment which is the characteristic of the most famous of American Hotels. New stories will be added along its entire extent upon Calvert and Fayette Streets, and its exterior will be made to conform to the most tasteful designs of a grand and elegant architecture. The interior will be embellished in an unsurpassed style of luxurious splendor. In this connection, the proprietors beg leave to state to the public that so immense is their establishment, that the process of improvement can in no degree disturb the quiet and comfort of its numerous guests.

They have thought it due to themselves to publish this statement, since from the wide spread reports of its improvements, there might arise a supposition that its capacity for the accommodation of guests had been in some degree abridged. The travelling public can confidently rely upon the constant continuance of its unexcelled advantages. BARNUM & Co.

Portable Bake Oven.

The Most Economical and Best Oven in Use.

THE undersigned offer to the public BLODGETT & SWEET'S PATENT PORTABL-BAKE OVEN, which they unhesitatingly pronounce the best in use. *It will roast at the same time as many different kinds of meat as the Oven can contain*, and each piece will be perfectly sweet and free from the grease arising from the different varieties, as their gasses are let off through an escape pipe at the top.

For baking *Bread* and *Pastry* it is without a rival, the oven being under the perfect control of the operator.

In point of *Economy* it is not excelled, the heat required being generated *within the oven*. We have in our possession certificates showing that it will save over ordinary ovens 75 *per cent. of fuel*. For *Summer use* it is particularly desirable—the material of which it is made, being a non-conductor; there no is radiation of heat.

In short it is *The Oven*, and should be in use in every family.

We would call attention to the following extracts from letters in our possession:

* * * I have given your Oven a fair and full trial in my family, and feel no hesitation in saying that it is decidedly the *best* and most *economical* Oven for baking bread, meat, fowls, &c., that I have seen in use. * *

JAMES V'D. STEWART, Chemist,
S. E. corner Hanover and Camden Sts.

* * * * I am prepared to say, without hesitation, that in every particular it is far superior to anything of the kind of which I have any knowledge. The convenience, facility of management, elegance of performance, and economy of both time and fuel, of this Oven, can only be appreciated by those who have used it. * * * *

Threshing Machines.

Linton's Iron Geared Threshing Machines—Warranted to be the very best in the Market.

THIS machine is driven with an iron rod in the place of a band. There is no slipping of bands about this machine, which has been a great trouble and expense by losing time to fix the bands, which often occurs to all machines worked with a band. This IRON GEARED MACHINE is warranted to thresh faster, with less horse power, than any band-machine. It is warranted to give perfect satisfaction. We sold last year **63** of these machines in Anne Arundel and Charles Counties. We give some few references:

Owen Cecil, George Claytor, Mathew Hardesty, N. L. Darnall, John Jones, Dr. Jacobs, — Anne Arundel County.
John T. Barber, W. P. Hardesty, Captain Stallings, — Calvert County.
Francis T. Soper, Prince George's County.
H. L. Mudd, Josiah Hawkins, J. N. Harrison, — Charles County.

Any farmer wanting one of these machines will please call on H. M. LITCH, JOHN KEPLINGER, (our agent,) or GEORGE CLAYTOR, who will give all the information desired. The price of our best six horse machines, with PLATE, BARS, HORSE POWER and STRAW CARRIER, all complete for threshing is **$165**, delivered on board vessels in Baltimore. Four Horse Power and Machine, finished in the same style, **$150**—and fully warranted.

We have machines for less money, but it is the interest of the farmer to have the best, as it will last double as long. This machine was exhibited at Upper Marlborough at April Court, Annapolis and Port Tobacco, Charles County. When a farmer purchases one one of these machines, and is ready to use it, if he will let me know, I will send a man, free of charge, and set the machine up and start it, and if it does not give perfect satisfaction, he can return it again.

Farmers will please send in their orders at an early day, so that we can ship in good time.

This horse-power can be attached to any mill or corn sheller without any extra expense. Old horse-powers and every kind of old iron taken in exchange All orders will be promptly attended to. ☞ Warehouse and Office No. 151 North High Street, between Hillen and Gay Streets, Baltimore.
