# Conowingo Plan

### Installation Of Four Addi- June 19 to 29. tional Power Units At Present Opposed

Asserting present market demands district. do not require the installation of four additional hydro-electric power units at the Conowingo Dam in Maryland, the Philadelphia Electric Power Company and the Susquehanna Power Company on Thursday asked make such additions.

Under the original application, the as a home. companies had until last December 31 to construct eleven units, seven of 80 degrees Tuesday afternoon and

trial examiner for the commission and threatening storm blew in. they desired to amend the license to specify that construction of additional units be carried out at various nite date.

county, Md.

W C.. Mason, of counsel for liing the Conowingo project, had expected there would be sufficient market demand to justify installation of all eleven units by last December 31, but developments made that "an unascertainable hope."

asserted. "that with the present load gates to the State convention in the assist in acquainting the farmers of the highest number of points in show the fifteenth birthday anniversary of of the system of the licensee it would Democratic party at the county with the provisions and ring, won by William R. Miller. The he young hostess. She was the be uneconomical ard unreasonable primary, only four candidates having details of the Soil Conservation pro- club will renew these prizes for the recipient of numerous nice presents on the part of the licensee to install filed, as follows: John K. Burkley, gram. As soon as complete details year 1936 and increase the amount four additional units." He added Anthony Fontaine, Carroll C. Short regarding amounts of payments have to \$50.00. such construction at this time would and Walter I. Smith. entail prohibitive cost in the light of anticipated returns.

#### ----WAS IT A COLD WINTER?

Sure it was. How do you know? Everybody says so. And besides you remember how it started to snow early in the fall and snowed pracwhen the bluebirds returned.

Now here is what actually hap- covered dish 35c. pened. Sides Dowland makes a hobby of keeping an accurate weather diary and it tells the following story. The first snow came Nov. 17th and there was one other that month. In December there were ten snows; on the 1st, 10th, 17th, 18th, 20th, 22nd, 23rd, 25th, 29th and 30th. January had 12 snows, a Republican primary in the district. or more than one every three days. They occurred on 8th, 9th, 11th, 16th, 17th, 19th, 22nd, 23rd, 26th, 30th and 31st. February, with its twenty-nine days, had seven snows; on the 3rd, 7th, 8th, 9th, 13th, 14th and 18th. Then it began to get warmer and in March there were three snowfalls, on the 2nd, 12th sreat part of her young days near and 13th. In April, which is only a third over, there were snow flurries William and Eliza England Kirk. on the 3rd and 9th.

Sides refuses to say whether there will be more or not, inasmuch as he has made it his business to record and not prognosticate the weather .-Oxford News.

### WORK TO BEGIN ON NEW PHILADELPHIA ROAD

Dr. Homer E. Tabler, chairman of the State Roads Commission, has announced that 9.25 miles of the new Philadelphia road, between the Baltimore city line and Aberdeen, will be paved with permanent surfacing, the work to begin at an early

date. The remaining 14.64 miles of the two-lane highway are to be surfaced to an extent which will allow the use of the road, but which will later be replaced with concrete.

for the highway showed that the majority of the grading had not settled sufficiently to permit the laying of a permanent surface.
