Cold roast beef toughens if cooked for any length of time in hot gravy. It is better to heat gravy and pour over the meat when ready to serve.

When papering a room cut off the left-hand selvage on rolls before you begin to paste. Leave right-hand selvage uncut. The overlapping method of papering is far easier than trying to place two edges together.

If a fish bone gets caught in the throat, suck a lemon and the juice will quickly dissolve the bone.

To make frosting adhere to a cake, dust a little flour over the top of the cake and you will have no difficulty in making the frosting stick.

Do not add dressing to a salad until just before salad is to be served. If salad greens are allowed to stand in dressing for any length of time, they will wilt.

Gelatin for fruit desserts should be whipped until the consistency of whipped cream, thick enough to prevent fruit settling to bottom of mold.

Don't keep gas stove burners turned on full after foods begin to boil. Turn burners down and keep down gas bills.

You can't kill plant lice with a poison. You must dose them with some kind of liquid that will smother them to death. Kerosene emulsion or tobacco dust will do this. @ Bell Syndicate. - WNU Service.

Farm Is Bachelor's Haven in Leap Year Excitement

Turn plowboy for the season and spend leap year on the farm was Prof. E. T. Hiller's advice to bachelors who want to stay that way during 1936. The leap year chase is most strenuous in the city, the Illinois university sociologist said, because there are a couple of unmarried
