Hitler apparently has chosen his successor "in case," in the person of Air Minister Goering, now made "assistant dictator," with control of two great German problems of raw materials and foreign exchange.

In New York, 175 naval cadets from the German cruiser Emden, name well remembered from the war, explore the city, guarded by detectives in case of hostile demonstrations.

Commercial boycotts of Germany, organized in New York, have done more harm to the Nazi government than could be done by any mob attack on German cadets.

California possesses "three kinds of gold": yellow gold, of which there is plenty left in the ground; "black gold," which is the oil in lakes thousands of feet down, and the "white gold," water from the mountains, first used to develop power, then to irrigate crops. Another gold, more important than those three, combined, is the gold of education.

Driving through this country, if you see a particularly fine building, tall columns, wide grounds, fields for healthy play, that is a public school. Once it would have been the prison or feudal castle.

You see another building, almost as impressive as the high school. That is a public library. The accumulated knowledge of the world is free.

It is said she thought her family "too aristocratic" to live in such times as these, and wished to kill them all. Another son testified against her.

Newsboys cry "What do you read?" The Niagara of books pouring from the presses, a vast majority forgotten as they are born, make many ask "What shall I read?" Of the books that every one must know, many are unnecesearily long, will not be read, and need condensation, in this day of newspapers, moving pictures, and radio.

If some publisher would issue a "bookshelf" squeezed down from 13 feet to 2 feet, that would be useful.

Paris perceives that following recent elections extreme radicals will be powerful in the new chamber, and those that have money left begin panicky selling. Bank of France shares drop violently, meaning lack of confidence in government stability, with fear of war in all minds.

The last war knocked the franc from 19 cents to 4 cents. What would another war do?

When stock gambling starts, it moves rapidly. Since March last year, stock prices have gone up 60 per cent, business has increased 18 per cent, employment only 5 per cent. Not much cheerfulness in that.

Since last March the New York Hitler. Stock exchange "values" have increased by twenty thousand million dollars. Excellent "bait" for the ignorant.

BEGIN NATION-WIDE PEACE DRIVE

College Students Conduct Demonstrations; Nye Report Raps Munitions Firms; Peace Plans Advocated

By WILLIAM C. UTLEY

HE Gods of war, though they play with the fates of Europe, Africa and the Orient, are feeling their bloody thrones shake a little on the American side these days.

Still rumbling through the land are the thundering accusations of the report of the Nye munitions committee to the United States senate—charges that war scares are planned, started and acanother king to "be- celerated by concerns in the international munitions trade, concerns whose representatives have been known to foment wholesale slaughter on the battlefronts, that their profits might be greater.

And now in its closing days is the month-long drive of the Emergency Peace campaign. Speakers and organizations have brought formed a flying wedge and knocked home to millions of Americans the year-old negro, and folly of war as a result of this camlynched him on "the paign, which was started April 22. The new "war on war" got under waiting for a trial, way in a manner fully as spectacular as an old-fashioned recruiting campaign. The terrible cost of war is graphically illustrated by the Foreign Policy association, in a booklet receiving wide distribution at present.
