

DIPHTHERIA CLINICS

Have Your Children Immunized
Against The Dread Disease

We feel sure you do not want any of your children to have Diphtheria and the only way to prevent Diphtheria is to have all children in Cecil County between the ages of six months and seven years immunized against Diphtheria by the administration of one inoculation of Toxoid.

Knowing that Diphtheria can be prevented by the administration of Toxoid, there cannot be any excuse offered for any Diphtheria cases and deaths and the responsibility for the prevention of Diphtheria rests with the parents as the Health Department will gladly immunize the children if the parent will bring them to the clinic or have their family physician give the immunization.

If your family physician has immunized your child or children since our last communication with you on this subject in 1935, please send us a post card of this fact giving the name of the child immunized and the date of the immunization, so we may clear our records.

If your children have not been immunized against Diphtheria and you do not intend to have your family physician do it, we hope you will bring them to one of the clinics scheduled below:

Wednesday, May 27th—Calvert School, Calvert, 1:30-2:15 P. M.; Rising Sun High School, 2:30-3:30 P. M.

Thursday, May 28th—Oakwood School, Oakwood, 1:30-2:15 P. M.; Washington Hall, Port Deposit, 2:30-3:30 P. M.

Friday, May 29th—Colora School, Colora, 1:15-2:00 P. M.; Perryville Elementary School, 2:30-3:30 P. M.

Tuesday, June 2nd—Health Department, Elkton, 1:30-3:00 P. M.

Wednesday, June 3rd—Earleville School, Earleville, 1:00-1:30 P. M.; Cecilton Elementary School, 1:45-2:15 P. M.

Thursday, June 4th—Leeds School, Leeds, 1:00-1:30 P. M.; Foard's Hall, Chesapeake City, 2:15-3:00 P. M.

Friday, June 5th—Charlestown School, Charlestown, 1:00-1:30 P. M.; North East Elementary School, 2:00-3:00 P. M.

Children between the ages of six months and six years will be immunized free of charge at the above clinics. We wish to call your attention to the fact that 85% of all deaths from Diphtheria occur in these ages, showing the importance of having your children protected against Diphtheria as early as possible after the age of six months.

CLINTON KANE, M. D.,
County Health Officer.

NEW FEDERAL SOIL CONSERVATION PROGRAM

Maryland farmers may reap as much as \$500,000 more in benefits under the new Federal soil-conservation program than under the AAA emergency adjustment plan. This was the estimate made by Dr. T. B. Symons, director of the University of Maryland Extension Service.

Under the old AAA benefit system Maryland farmers collected nearly \$3,000,000, whereas they may benefit to the extent of about \$3,500,000 under the conservation program, Dr. Symons said. This depends on their response to the soil-building program.

Meetings have been held in the twenty-three counties, and indications are that the farmers are exhibiting a keen interest in the scheme, according to Dr. Symons.

Meanwhile, farmers throughout the State are compiling their worksheets, showing statistics on crop acreage in the last five years and their plans for substituting soil-conserving and soil-building crops for soil-depleting crops, or for adopting soil-building practices on crop land and pasture.

The worksheets must be filed with the county committees by May 30, and then the papers will be sent through the State committee to Dr. Symons' office, and finally to the AAA headquarters at Washington.

Payments under the new soil-conservation plan range from \$1 to \$5 per acre, depending on the crop planted.

Under the old AAA plan, the Maryland farmers, according to Dr. Symons, benefited to the extent of \$2,102,061 on wheat contracts, \$729,674 on corn and hog contracts, and \$73,303 on tobacco contracts. Total payments in Cecil county amounted to \$99,102.

Standing on a concrete floor while using an electric iron is dangerous, for a shock may be transmitted if the concrete is damp.

Recreation is necessary to insure a clear brain, a steady nervous system, and a sound body.

Shrubs should not be planted deeply, advises a garden expert.

BE PROTECTED AGAINST THIS
DANGER

Boy and girl scouts, camp-fire girls and all other prospective campers and hikers are advised by Dr. R. H. Riley, Director of the State Department of Health, to put "immunization against typhoid" at the very head of the list of things that must be attended to promptly in preparation for this year's camping trip. If they have been protected against typhoid recently, or within the last two years, they will not need this advice.

"There is much less typhoid," Dr. Riley said, "than there used to be. The public has been—and is—safeguarded against the disease in many supplies from pollution, the pasteurization of milk, the steady improvement in household sanitation and general hygiene, all serve as means of defense. But because of the nature of the disease and of the fact that a certain number of those who have typhoid, become 'carriers' of the infection, it is still the source of much preventable sickness and of many unnecessary deaths. Vaccination against the disease protects the individual against invasions of the disease from sources not covered in other protective measures.

"You 'take' typhoid by the way of the mouth. You drink or eat the germs that cause the disease, in water, milk or food, contaminated with typhoid germs that have been who has had typhoid at some time, passed in the discharges of somebody Human 'carriers' of the germs and flies—winged 'carriers' of the infection, are responsible for many of the cases.

"Human 'carriers' are persons who are recovering from typhoid or who have had the disease at some time—sometimes only in a very mild form—but who continue to pass the germs of the disease in their urine or in the discharge from the bowels. A carrier may be perfectly well, but may go on passing the germs either regularly or infrequently, and sometimes at intervals of many years. You can readily see that carriers who are careless in their personal habits can be sources of great danger to others, especially in handling or preparing food for others. If they neglect to wash the hands thoroughly after they visit the toilet and before preparing food for the table they are likely to leave the germs of the disease on any food they handle. Some of the most serious outbreaks of typhoid that have occurred throughout this country have been due to the contamination of food by human carriers. Persons who are known to be carriers are not permitted to serve as food handlers in public places.

"Typhoid is no respecter of persons and it is not limited to any age group, but it strikes hardest at young people—children, growing boys and girls, young men and young women under forty. I would like to urge all—especially young people—who are going away on vacation trips or outings, and who have not been immunized recently against the disease, to have themselves protected against it before they go.

"Three 'shots' of the vaccine, given a week apart, are necessary to complete the treatment. The State Department of Health supplies the vaccine, free of charge. Your only expense will be your doctor's fee. As it takes some time for the treatment to be effective throughout the system, my advice is to go to your doctor or your health officer and have it done without any further delay."

TENT CATERPILLARS

Tent caterpillars are again occurring in large numbers in this locality, as they did last year. These tree defoliators, says the Bureau of Entomology and Plant Quarantine, United States Department of Agriculture, may be abundant for several years in an area where conditions are favorable. However, some natural cause—parasites, disease, or unfavorable weather—always has sooner or later reduced them to negligible numbers. Then for several years there will be few of them.

Tent caterpillars feed on the foliage of many trees—especially wild cherry and apple—early in the spring. The denuded trees are unsightly, but they usually recover and put out a new set of leaves after the caterpillars have done their worst. Large expenditures for a general campaign to control tent caterpillars, therefore, seem unwise.

In orchards the usual spray program should give control, and special shade or ornamental trees can be effectively protected by spraying with lead arsenate—2 pounds to 50 gallons of water—as soon as the small webs appear.

Platinum was once used in Russian coinage.

One should rest when he is tired—not wait for bedtime.

MANCHESTER HIGH DOWNS
ACADEMY

By C. K. VAUGHAN

Wednesday the thirteenth saw West Nottingham Academy suffer her first defeat after quite a string of victories at the hands of Manchester High School, up at Manchester, Pa., the final score being 7-3.

Manchester completely routed the Maroon from the very outset of the contest. The lead off man, Weigle, opened the initial frame with a three-way clout which was followed by Pugh with a single. These two hits followed by an error seemed to take the punch out of the Maroon for they permitted scoring in every inning with the exception of the fourth.

Weigle and Conway, the former in center field and the latter at short stop seemed to be the leaders in their team's march to victory.

Humphreys was the whole show for West Nottingham. He appeared at bat three times, got two hits, and personally made all the Maroon runs. He also relieved Roush from a lot of trouble when the latter got into a bit of trouble on the mound.

REDUCED ELECTRIC RATES IN
BALTIMORE AND VICINITY

Reductions in rates for electricity in Baltimore and vicinity, resulting in savings to consumers of \$813,000 per annum, are provided for in new schedules, required by the Public Service Commission to be filed by the Consolidated Gas Electric Light and Power Company of Baltimore.

The reductions in rates will apply principally to domestic consumers although adjustments in rates to small commercial, institutional and other customers are made in order to maintain a proper relationship between schedules.

The primary rate in the Baltimore City rate district is reduced from 5 cents net to 4½ cents net per kilowatt hour.

In the suburban rate district the reduction is from 5½ cents net to 5 cents, and in the outside rate district, comprising all territory beyond the suburban rate district, the reduction is from 6½ cents net to 6 cents net, per kilowatt hour.

Reductions also have been made in the secondary and tertiary rates, and in the case of domestic customers, the tertiary rate, which has been reduced from 2.4 cents to 2 cents, will apply to all consumption in excess of 200 kilowatt hours per month. At present the third step applies only to consumption of more than 225 kilowatt hours per month.

Negotiations between the Public Service Commission and officials of the Company which resulted in these reductions have extended over some months. A study of the affairs of the Company convinced the Commission that a rate reduction was in order, and a series of conferences were held in order to bring this about.

The question of taxes was important in this connection because, until it could be determined approximately what the Company would be called to pay out in national state and city taxes, the amount which would be available for a reduction in rates could not be agreed upon. It was obvious that the more the Company would have to pay in taxes, the less there would be for a rate reduction. With the adjournment of the special session of the General As-

COLORA

Wadsworth Caldwell arrived here early Tuesday morning from North Carolina. He will spend some time with his brother, B. F. Caldwell and family.

Ethel Way, a pupil of Colora School, was among the lucky ones to win a prize School Rally Day at North East, last Friday.

This Thursday afternoon Mrs. Curtis Irwin will entertain the meeting of the Ladies Missionary Society of West Nottingham Presbyterian Church at her home at Rising Sun. Devotional leader, Mrs. William Fulton; Spanish Speaking Americans, Miss Louise Worthington; Latin America, Mrs. Luther Hindman.

Several ladies from this town and vicinity attended the Federation of Homemakers' Clubs of Cecil County, held at North East last Saturday.

During a storm Wednesday afternoon last week lightning struck a large locust tree near the residence of W. D. Connor.

Mr. and Mrs. William Keetley and son Homer visited friends in Quarryville, Pa., Sunday.

Mr. and Mrs. Charles Boyd and Bobbie, Miss Lou Boyd, Samuel S. Boyd and William Boyd, Nottingham, Pa., were guests of the Robert Boyds.

Mrs. W. N. Wilson spent a few days with her daughter, Mrs. Helea Bennett, and family, Philadelphia.

Thomas R. Davis spent some time this week at his cottage at Bowers Beach.

Mr. and Mrs. Samuel E. Ewing entertained some relatives from a distance Saturday night and Sunday, they having attended the funeral of Mrs. Lee Ewing from her late home at Rowlandville, Saturday afternoon.

Mr. and Mrs. Edgar Harris and Sonny, of Pags Manor, Pa., and Owen Harris, of Oxford, spent Sunday with Granville Harris and family.

Mr. and Mrs. Martin Blesch, Mrs. Arthur Dinsmore, Miss Ruth McCrabb and Street Riley, Jr., spent Wednesday last week in Lancaster.

W. B. Morrison and Mr. Martin, of Philadelphia, were entertained at the home of the Reid Morrissons.

Thomas Torrence, employed at Holtwood, spent Sunday-Monday with B. F. Caldwell and family.

Robert Giesler and friend called on his home folks here.

Mr. and Mrs. Charles Davis, of Philadelphia, visited his parents, Mr. and Mrs. Harvey T. Davis.

Mr. and Mrs. John Thompson, of Newark, Del.; Cecil Fitzgerald and son James, of Chester, visited with Samuel W. Fitzgerald and family, Sunday.

Junior Foster and Marshall Foster, of the C. C. C. Camp, Flintstone, visited their homes here.

Mr. and Mrs. Stanley Webster and daughter, of Barnsley, the William Fultons, of Oxford, were guests of Mr. and Mrs. Walter O. McVey.

Mrs. Marshall Moulton has returned to her home near here after being a patient in a Baltimore Hospital for nine weeks.

Samuel W. Fitzgerald is having repairs made, also painting done to Lafayette Inn.

The Youth's Temperance Council encampment will be held at West Nottingham Academy this year, July 30th, 31st, August 1st and 2nd. For some years they have held their encampment at Emory Grove, just outside of Baltimore. This is the group of young men and women formerly known as the Young People's Branch of the W. C. T. U., but the name was changed to Youth's Temperance Council last September in the National Convention held at Atlantic City. Those in charge of the encampment were at West Nottingham last Saturday to arrange for the encampment.

A number of the pupils of our school enjoyed School Rally Day at North East last Friday.

DUST BLOWN 1,000 MILES CAUSES "BROWN" SNOWFALL

Winter duststorms often cause "brown" snowfall in regions far distant. By analyzing the dust, soil chemists of the United States Department of Agriculture sometimes are able to determine the region in which it originated.

They found that dust in the "brown" snow, which fell in February on New Hampshire and Vermont, probably got its start in Oklahoma, Texas, or Kansas—States about 1,600 miles away. Dust that discolored the New England snow showed the proportion of lime that distinguishes southwestern soils.

Weather Bureau observers estimate this storm deposited 31 pounds of dust an acre—or 10 tons per square mile—in the area where the snow fell. Every 10 tons of dust included 1,080 pounds of lime, the chemists estimate.

semply this problem was determined as far as it could be for the present, and the amount of approximately \$800,000 was settled upon as being available for a cut in rates.

Wm. Pepper Constable, Solicitor,
Elkton and Baltimore, Md.

IN RE
THE MORTGAGED REAL ESTATE
OF JOHN C. CHEATHAM AND
JENNIE L. CHEATHAM,
HIS WIFE

In The Circuit Court For Cecil
County In Equity No. 5048

ORDERED this 27th day of APRIL, 1936, by the Circuit Court for Cecil County, in Equity, that the judgment creditors, lienors and assignees of John C. Cheatham and Jennie L. Cheatham, his wife, and all persons claiming an interest in the equity of redemption in the property referred to in the above cause and all persons who may be entitled to participate in the distribution of the surplus proceeds of the sale remaining after satisfying the mortgage debt under which the real estate of the said John C. Cheatham and Jennie L. Cheatham, his wife, was sold, be and they are hereby notified to file their claims, with vouchers thereof, with Henry L. Constable, Esq., Auditor of the Circuit Court for Cecil County, in Equity, on or before the 2nd day of July, 1936: Provided the said Auditor cause a copy of this order to be published in some weekly newspaper printed and published in Cecil County, Maryland, once in each of four successive weeks before the 1st day of June, 1936; and it is further ORDERED that these proceedings be referred to the Auditor who is hereby authorized to take such testimony as he may find necessary to establish said claims, and to state and return to this Court an audit distributing such surplus proceeds to said claimants as their rights may appear.

J. OWEN KNOTTS,
Judge.

The British museum has a Chaldean tablet recording a solar eclipse of 1062 B. C.

DEATHS

MISS ELIZABETH J. JACKSON
Miss Elizabeth Jane Jackson died May 9 at the home of her sister, Mrs. John Racine, near Elkton, aged 84 years. Interment was made Tuesday in Elkton cemetery.

Miss Jackson was a daughter of the late Robert A. and Anna Jackson and was born at Kennett Square, Pa., but much of her life was spent in this county.

FRANKLIN HUSTON
Franklin Huston, aged 88 years, a retired farmer, died suddenly at the home of his daughter, Mrs. Alvin Mackey, near Blake, this county, Thursday morning of heart trouble. He is survived by one son, William Huston, of Ohio, and two daughters, Mrs. John McCleary, of near Oxford, Pa., and Mrs. Alvin Mackey, of Blake. The funeral was held from Mrs. Mackey's home Monday afternoon.

GEORGE GRIEST

George Griest, aged 81 years, a former resident of Rising Sun, and son of the late Aisel Griest, died Saturday at his home in Coatesville, Pa. For years he was employed at the warehouse of Duyckinck & Sterrett, in this town, moving to Coatesville about 25 years ago. Surviving are two sons, two daughters and two grandsons.

The body was brought to Rising Sun for interment in Brookview cemetery on Tuesday afternoon.

MRS. LEE HAWKINS

Mrs. Beulah M. Hawkins, aged 42 years, wife of Mr. Lee Hawkins, died at her home in Perry Point on May 11, after a lingering illness.

Mrs. Hawkins was born in Havre de Grace and was the daughter of the late Charles and Mary Fadeley. She is survived by her husband, a daughter, Mary, a son, Lee, a granddaughter, Betty Lou Miller, two sisters, Mrs. Helen Alloway, of Glenola, Pa.; Mrs. Cora Eckard, of Havre de Grace, and one brother, Mr. George Fadeley, also of Havre de Grace.

Funeral services were held at her late home in Perry Point on Thursday afternoon at 2 o'clock. Interment was made in Smith's Chapel Cemetery, Churchville.

FOUND AT LAST!

The famous Q-623—quick relief for Rheumatism, Neuritis, Sciatica, Lumbago—is now available to all sufferers from these tortures. Q-623 is a prescription of a famous specialist that has worked wonders for thousands of people when many other remedies have failed. We ask you to try this famous prescription. A few doses usually stops the pain, and many people say "it is worth its weight in gold." Be sure you get an 8-ounce bottle; any other size, or any other name, is counterfeit. And if you are bothered with irritations, or need a stimulant for the kidneys, try Q-Tabs—a highly effective prescription tablet. Q-623 and Q-Tabs are products of the Associated Pharmacists of Baltimore, Inc.

For sale by Ashby's Pharmacy, Rising Sun, Maryland.

TWA Feels Texas Rush

DALLAS, Texas.—Transcontinental-Western Airways officials report a tremendous traffic increase on their cross-country flights due to the Texas Centennial Exposition at Dallas. Although the Exposition, a \$25,000,000 World's Fair, does not open until June 6, the pre-exposition business already is having effect, TWA heads said. The line has direct "feeder" connection to Dallas, their coast-to-coast route.

No Price Raise for Fair

DALLAS, Texas.—Managers of Dallas hotels have agreed there will be no price increases for rooms or meals, during the Texas Centennial Exposition, June 6 to Nov. 29. Years of popularity for Dallas as a convention city, led to this decision, a spokesman said.

Army Air Show for Fair

DALLAS, Texas.—The U. S. Army will spend \$50,000 on the Texas Centennial Exposition, establishing an encampment on the big Dallas lot and staging a huge aviation meet. The money comes from the \$515,000 the Federal Government has set aside for Exposition exhibits.

The rolling stone gathers no moss—nor does the flowing stream grow stagnant.

Silence is the universal language.
