Soil Conservation Pro-

Meetings Held In County---Improvement Practices Would Benefit Farmers

Meetings were held by the County Agent and Local Committeemen last week at Cecilton, Elkton, and Rising Sun, for the purpose of explaining the New Soil Conservation program. It was stated that under the new program there would not be any crop reduction contracts, and that farm- ed the James Yerkes property, Calers could operate their farms without | vert, where she resides and will reinterference or restrictions.

By following recommended soil ments. conserving and soil improving practices, practically all Cecil County farmers should be able to receive benefits under the 1936 Soil Conservation Program.

Two classes of payments will be made: Class one, Soil Conserving payments and class two, soil building payments. A farmer may qualify for either or both of these payments.

Class one, the soil conserving payments, will be made for transferring a part of the crop land from the pro- held in Elkton on Monday resulted average \$10.00 per acre for the City Council. United States, but it is expected that for Cecil County the payment will be materially higher. These payments will be made on any number of acres up to 15% of the acreage of soil depleating crops include, wheat, corn, of all kinds, barley, oats, rye, potatoes, all canning and truck crops, soybeans cut for hay.

ments, will be made for carrying out last, caused by an exploding oil bonds. If, after receipt of the bonds soil building practices on the farm heater. in 1936. Rates of payments vary for different soil building practices, the dwelling of Ernest Flabbi and the Orphans' Court also. and will range from one to several family, on Mount street, Tuesday dollars per acre, according to practevening, to extinguish a chimney tices followed. Some of the soil fire that had been smouldering for 3 per cent per year. Thy cannot be building practices for which payments will be made, include seeding alfalfa, seeding clover or clover mixtures, plowing under green manure crops, liming and fertilizing soil conserving crops, and making reforestation plantings.

Many farmers may earn payments under this program without making any changes in their farming plans was released from custody in Baltiare already following some of the Cornell has been put on parole for payments.

All farmers should fill out work sheets so that they will be eligible for any payments, which they may earn during the year. The "work sheet" is a blank to be used in recording 1935 crops. All farmers are requested to attend one of the meetings listed below for the purpose of filling out work sheets. It is im portant that farmers attend one of the meetings so that committeemen may assist them in filling out the work sheet. It is somewhat diffi cult for individuals to fill out the work sheet without assistance. Fill-

Tag Law

Failure To Repeal Old Law Gives Motoists Six Months Of Free Driving

Maryland motorists are to be given a free ride of six months as the result of the new law passed at the last special session of the General Assembly changing the issuance of automobile license tags from January 1 to April 1. The new law will go

into effect on Monday. The legislators failed to repeal of Gettysburg College, Gettysburg, and Miss Ruth E. Williams, of Port license law providing for payment on tags for the quarters a machine is in use. Because of this motorists will be able to obtain license tags when the present ones expire for a whole

year at the cost of nine months only. The new law provides that this new tags are taken out then, in the absence of a repealer, motorists will pay for th last nine months of the year only. These tags, however, will carry them through until April 1, 1938, adding another three months

In sponsoring the new license law, gasoline dealers argued that hungarages during the first three months Wilson, of each year because of weather and

The gasoline dealers argued that ing the first three months of a year would mean a greater income to the

State from the gasoline tax. The unexpected free-ride provision was discovered when a batch of rulings by Herbert R. O'Conor, Attorney-General of Maryland, were sent to the printer to be set up in his annual report. The ruling, it was Chas. S. Pyle, president of the learned by its date, was forwarded
