

West Nottingham Academy Commencement

By C. K. VAUGHAN

One of the highlights of the commencement week program at West Nottingham Academy was the alumni luncheon Saturday, May 30, at 12:45 P. M., at which event the attendance was more than surprising.

After a delightful luncheon, Mr. Slaybaugh formally welcomed the alumni, and presented Mr. J. Burton Wiley '98 of Morristown, New Jersey, who was to preside at the meeting; and who was filling the position temporarily, left by G. Dare Hopkins, president of the association.

Mr. Wiley asked those attending to rise and commemorate the passing of their beloved president, Mr. Hopkins, who with his wife were killed early this spring in an automobile accident outside of Lancaster, Pa. Mr. Wiley then directed the majority of his remarks to the graduating class who were presented by Mr. Slaybaugh to the association. The speaker stressed the history and tradition behind the Academy and passed the torch to the class of '36.

Malcolm Kullmar, the president of the senior class, thanked the alumni for their cooperation, and expressed the wish of his class that they would do their utmost to preserve the tradition of the Academy, and if possible would make more history for the school to be proud of.

The persistent and welcoming Miss Esther Maxwell back after her recent illness, addressed the class of '36 in a more formal manner when he endeavored to point out and demonstrate how the tradition of the academy grows on one in later years, the advantages that a preparatory school graduate has over his less fortunate brother, and the pledge that each and every W. N. A. graduate or undergraduate.

Officers chosen were: Lieut.-Commander William J. Thompson, Har-Old Metzgar '30, first vice-president; Dr. E. S. Rowland '95, second vice-president; Mrs. W. T. Jenness '92, third vice-president; and Miss Esther Maxwell '11, secretary and treasurer.

A scholarship committee was selected composed of Mr. Gillespie ex '11, Mr. Taylor Wilson '30, and Mr. Fred Squire '38. The class of '11 reported the giving of a \$50 loyalty fund to the Academy.

Mr. John G. Connor, former headmaster of the Academy, was the final speaker at this affair. He praised the boys for their spirit of cooperation and the aid they had unwittingly offered to the administration in the work which during the last decade has brought West Nottingham to the top of Maryland scholastic circles.

The class of '36 was awarded the attendance trophy due to their fifty per cent attendance; also the class of '36 was formally enrolled as members of the West Nottingham Academy Alumni Association.

Baccalaureate Service
Another portion of the 1936 Commencement Program on Sunday morning, May 31, added to the sense of pleasure and satisfaction brought to the student body and faculty of the Academy with the termination of the present school year. A sermon "Seeking Light" by the pastor of the church, Reverend Dr. Albert H. Hibshman, held the attention of an audience which almost taxed the seating capacity of West Nottingham Presbyterian Church. Dr. Hibshman took as the text for his sermon the third verse of the first chapter of Genesis—"And God said: Let there be light; and there was light;" and built upon it his last admonitions for a Christian life with words of encouragement and guidance for the boys of the graduating class to whom he was speaking as a group for the last time. This sermon brought to a brilliant climax what might be considered a series of three Baccalaureate services; the sermons of Dr. John McDowell of the National Board of Missions on May 17th and Rev. Fred P. Corson of Dickinson College on May 24th being the first and second.

A very well received feature was the musical part of the service rendered by Mr. George O. Arkroyd, organist of the Academy, at the organ console.

Vesper Service
West Nottingham Academy held its annual Vesper Service Sunday, May 31 at 7:00 o'clock in the West Nottingham Presbyterian Church. Mr. J. Paul Slaybaugh, headmaster of the Academy, introduced the speaker, Reverend Theodore C. Meek, Pastor of the Bethany Presbyterian Church of Lancaster, Pennsylvania.

The central idea of Reverend Meek's sermon was the message of Jesus to Matthew, "Follow me." Around this statement was developed the conception of God's plan for all mankind. God has a plan for each of us in life and that by following the example of the perfect life as set before us by Jesus we will be able to fit into this plan and to do the will of God which is the highest privilege in life. Reverend Meek called this thought God's blueprint for life as contrasted with following our own whims and ambitions.

Commencement Activities
On Monday, June 2, the annual Commencement activities of West Nottingham Academy reached a successful climax with the concluding exercises held in the West Nottingham Church auditorium. Dr. J. M. H. Rowland, dean of the Medical School of the University of Maryland and a member of the class of 1885 at the Academy, delivered the Commencement address to the friends and parents of the 13 boys who comprised this year's graduating class. The Commencement Program was opened with the playing of a professional by the school orchestra while the Board of Trustees, the Faculty, and members of the student body took their places in the assembly. The invocation was offered by the Rev. William Crosby Ross of Boise, Idaho.

Charles L. Barnesville, of Barnesville, Ohio, delivered the Salutatory address as the first speaker on the program. His oration, "The Valuable Asset to the American People" commemorated the work of the recently organized Bureau of Investigations in the United States. The Academy orchestra, then, under the direction of Mr. Charles Edwards of Wilmington, favored with an overture, after which Malcolm Kullmar of Kensington, Maryland, delivered the Valedictory address, "The Scarlet Plague." Kullmar stressed the menace of Communism in American Colleges today. His dramatic appeal to the Seniors, the college men of tomorrow, was well-founded and just criticism of the trend of modern thinking on the part of the young men of our nation.

As usual, the presentation of awards and prizes by Mr. Slaybaugh created considerable interest. The list of prizes and winners is as follows: The Alumni Attendance Cup, Class of 1889; Walton Burnside Peters Prize, DeWitt B. Lancaster, Baltimore, Md.; General Improvement Prize, George B. McVey, Summit, New Jersey; Mathematics Prize, John W. Atwood, Aberdeen, Md.; Golf Trophy, Howard W. Happersett, Drexel Hill, Pa.; Boys' Tennis Cup, Charles Wheatley, Chestertown, Md.; The Scholarship Prize, Malcolm Kullmar, Kensington, Md.; Athletic Trophy, Clifford Byrd, Mardela Springs, Md.; Merit of Award (Highest Honor), Malcolm Kullmar, Kensington, Maryland.

After a violin solo by Mr. Charles Edwards, Dr. Rowland delivered the Commencement address. It was of interest to note that 50 years ago Dr. Rowland delivered the Valedictory address from the same platform and that 25 years ago he was cited upon for the commencement address. His text, he said, was the same on the two former occasions as he had chosen for the present, "The Formation of Character." Before attempting a consideration of such a topic one must first decide just how character is placed in an individual. Is character formed or does it grow? Is it hereditary or acquired? Is it moulded from certain hereditary acquisitions as influenced by environment? The last supposition, said Dr. Rowland, seems to be the most plausible. The speaker then went on to explain the path, along which this formation should follow, using the First Psalm as his text. Drawing a contrast between the Righteous and the Ungodly man he showed how the character of a man formed on the principles of the former provide a future for him, whereas that formed on the latter leads to inevitable destruction. Honestly, he said, is the most important trait on which a good character is founded, and the development of this trait alone necessarily brings about the development of other good characteristics. Dr. Rowland concluded his talk with the advice not to confuse Science and Religion as conflicting forces. They are rather closely associated and if approached from the correct viewpoint are found mutually to help each other.

The exercises were brought to a close by a few words of advice to the Seniors by the Rev. John Nesbitt of Catonsville, President of the Board of Trustees, after which he presented diplomas to the thirteen young men who comprised the graduating class. The list of graduates is as follows: Charles L. Bennett, Barnesville, Ohio; J. Clifford Byrd, Jr., Mardela Springs, Md.; G. Garrett Ewing, Colorado; Howard W. Happersett, Drexel Hill, Pa.; C. Benson Keeney, Jr., Summit, N. J.; Joseph H. King, Narberth, Pa.; Malcolm Kullmar, Kensington, Md.; C. Newell McCauley, Elkton, Md.; Charles O. McCauley, Jr., Perry Point, Md.; L. Virgil Pratt, Chesapeake City, Md.; Addison M. Rawlings, Port Deposit, Md.; John C. Roak, Upper Darby, Pa.; J. Forney Young, Jr., Hagerstown, Maryland.

The assembly was dignified with the playing of a march by the Academy orchestra.

THE lady of the house has just ruined a good dress and her disposition with it. All because she can't take an old fashioned cap off a milk bottle.

Probably you have had this same sort of accident happen to you. Be modern—buy a bottle of milk you can trust and avoid such accidents.

You can trust the purity and the quality of our milk because it comes from the finest cows and it is backed by the most up-to-date, sanitary methods of production and delivery.

You can trust the SEAL-KAP that we use to cover the entire pouring edge of the bottle. You can trust it because you can remove it from the bottle by a simple twist—because it avoids splashing—because it reseals the bottle against spilling, contamination and

refrigerator odors each time it is replaced. You can replace the SEAL-KAP with an easy snap—which reseals the bottle.

This SEAL-KAP is a vast improvement in packaging and protecting milk, and it costs you nothing extra.

THEM WAS THE DAYS!

It wasn't so many years ago when:
Liver was not a luxury.
Automobilists wore linen dusters.
The milk was delivered in tin cans.
People paid six cents a quart for milk.
There were livery stables everywhere.
Nobody had ever seen a horseless carriage.
It seemed necessary to control hat pins by legislation.
Jules Verne wrote a weird romance about a submarine.
The "girl" in the kitchen did not expect more than \$3 a week.
Nobody in California thought of conversing with somebody in Europe.
The best orchestra seats at the theaters cost \$1.50 apiece. you are easy.
