Curse of Progress

Literary Advantage
"Of course, crime doesn't pay," said Bill the Burg, "unless you let others do the hard work."
"What do you mean by 'hard work'?"
"Holdin' up banks or gas stations. You can make a crime story profitable without botherin' de police. It's de difference between bein' a clerk or a bookkeeper and drawin' dividends by runnin' a correspondence school."

Just Half Each
"I suppose the little wife will win all the arguments in your house?"
"No; she'll only win half of them."
"Oh, you expect to win the other half!"
"No; but my mother-in-law will."

Never Will Be

The editor (returning them) replied: "I can quite believe it."

GIRL ENTERTAINING A CALLER

LARGE PERCENTAGE OF FARM HOMES ARE UNDERLIGHTED

Sensational discoveries have been recently made by electrical research engineers about the saving of eyesight through better electric lighting. Their researches have caused rapid changes to be made in electric lighting facilities throughout the country. People are beginning to realize the value of priceless eyesight. The rising tide of eye troubles will no doubt decrease in the next few years.

But what's going to protect the vision of the people living in the 5,000,000 American farm homes without electricity? A large percentage of those homes are under-lighted, according to results shown by new "light meters," which register the amount of illumination at any given point. What about that?

Manufacturers of high candle-power kerosene and gasoline pressure mantle lamps are doing for non-electric users what electrical engineers have done for the users of electricity. Some of the new kerosene and gasoline pressure mantle lamps produce from four to twenty times more light than ordinary types. Burning 96 per cent air and 4 per cent fuel, they give "live," crystal-clear brilliance — proved nearest like daylight of any artificial light, by scientific laboratory tests.

Doubts and Fears
Our doubts are traitors and make us lose the good we oft might win by fearing to attempt. —Shakespeare.
