Be It Ordained by the Commissioners of Rising Sun, Md., that the Ordinance as above entitled and with the sections following, is hereby passed, that is to say:

**Section 1.** That immediately after a sanitary sewer line, district or system of sewers has been finished and is ready to receive, collect, transmit and dispose of domestic sewage, all owners of property within the metes and bounds thereof shall connect, at their own cost and expense, their respective property lines with said sewer system, and to clean out and abandon their respective privy sinks, wells, cesspools and other drainage or sewerage receptacles, and to abandon the use of their existing arrangements of every sort for the disposal of sewage or drainage. But upon substantial excuse for delay shown, the Commissioners in their discretion may extend said time.

**Section 2.** That whenever any person or persons, and "Person" in this ordinance shall include corporation, association or partnership, shall occupy or shall be in actual possession or have charge, care or control of any property within the town, as executor, administrator, trustee, guardian or other fiduciary, or as agent, or in any other capacity, such person shall be deemed and taken to be the owner of such property, within the true intent and meaning of this ordinance, and shall be bound to comply with all the provisions of this ordinance, so the same may effect such property in the same manner and subject to the same consequences in every respect prescribed by this ordinance, as if such person were actually the owner of such property, and notice to any such person by the President and Commissioners, as hereinbefore prescribed, shall be deemed and taken to be as good and sufficient notice as if such person were actually the owner of such property.

**Section 3.** That the notice provided for in Section 1 hereof shall be left with the owner or occupier, or agent of the owner of the property mentioned in said notice, and if there be no owner or occupier, or agent of the owner of said property upon whom or upon which said notice can be served, notice shall be deemed in all respects sufficient if exposed in some open way upon the property to which it refers.

**Section 4.** That after receiving the notice provided for in Section 1 hereof, and within the time stated therein, the owner of all such property shall comply with the terms and requirements of said notice, and shall make said connection with the said sewer system, and do all the things prescribed by said notice, in a thorough and workmanlike manner, and in faithful conformity with all existing laws, ordinances and regulations.

**Section 5.** Sewerage consisting of waste water originating within buildings of all types will be received into the sewerage system. Roof waters and other storm or surface water shall not be discharged into sewers provided for carrying the fouled water from buildings.

**Section 6.** Sewer connections for each separate developed lot bounding on a street in which there is a sewer will be extended to the property line by the Commissioners.

**Section 7.** The Commissioners will maintain all sewer connections constructed by them outside of the property line. All pipes and connections on private property shall be maintained by and at the expense of the property owners. The Commissioners will not attend to complaints concerning leaks, stoppages, etc., on house connections.

**Section 8.** Authorized employees or agents of the Commissioners when in pursuit of their duties shall have access to private properties at all reasonable hours.

**Section 9.** All new buildings will be required to contain inside water tap and sink and closet inside of the buildings.

**Section 10.** No sewer or drain connection shall be constructed unless the Commissioner shall have issued a written permit for such work. A charge of \$5.00 will be made for this permit which will also cover cost of inspection.

**Section 11.** No work shall be covered over until it has been inspected and approved by an authorized agent of the Commissioners. Work covered over without inspection shall be uncovered at the expense of the property owner.

**Section 12.** Improper workmanship shall be remedied and unsatisfactory material shall be replaced as ordered by the inspector. When this has been done the work shall again be inspected before being covered.

**Section 13.** Inspections will be made as quickly as possible after each notification.

**Section 14.** On receipt of any complaint of sewerage or stagnant water running in front of or across one's property the Commissioners shall notify the owner or agent of said property to connect with the sewerage within a fixed time. Failure of property owner to comply with this notice shall be subject to a fine of \$1.00 each day until terms of said notice are complied with.

**Section 15.** Beginning as of Oct. 1st, 1936, a charge of one half of your water bill will be added each quarter to pay for sewerage whether you connect or not. For example—if your water bill Jan. 1st, 1937 is \$2.00 there will be \$1.00 added for sewerage, making a total of \$3.00. This section was passed at a town meeting held in the Public Hall April 28, 1936.

#### CLOSED SEASON FOR CANVASBACKS AND REDHEADS

For the first time in the history of the United States it is illegal to shoot canvasbacks and redhead ducks at any time. The new migratory waterfowl hunting regulations recently announced for this season by the U. S. Biological Survey place these waterfowl on the list of fully protected species, and the Survey is making every possible effort to promote enforcement of the new regulation.

"Canvasbacks and redheads," says Dr. Ira N. Gabrielson, Chief of the Biological Survey, "have seriously decreased in numbers despite the restrictions provided by previous hunting regulations. In recent years they have been especially hard-hit because much of their breeding territory is in the region that has been visited by droughts."

# Answer This!

Under Republican Administrations There Were:

1. Bread Lines—Farm Riots—Business Paralysis.
2. Farm Income dropped 8 billion dollars (1920 to 1933).
3. Farm Exports declined over a billion dollars.
4. Farm Real Estate values greatly decreased.
5. Farm Mortgages reached a peak of 10 billion dollars.
6. From 1931 to 1933 there were 2834 country bank failures.
7. 900,000 farms were sold under the auctioneer's hammer.

But Look—UNDER ROOSEVELT:

1. No Bread Lines—No Farm Riots—Business recovery.
2. Farm Income today is 3½ billion dollars more than in 1932.
3. Farm Exports finding widening markets—increase over a billion dollars.
4. Farm Real Estate values greatly increased.
5. Bank deposits insured to protect depositors against future loss.
6. No Bank failures.
7. Half a million farms saved from the auctioneer's hammer.

Also under Hoover hogs sold for 3¼ cents a pound; wheat 48 cents a bushel; corn 25 cents a bushel.

Whereas now under Roosevelt hogs sell for ten cents a pound; wheat \$1.17 a bushel; corn \$1.16 a bushel.

Furthermore four out of every ten persons employed in industry owe their jobs to Farm Recovery.
