

It's the Talk of the Quilting Bee

Pattern 5591

It's most certainly the talk of the quilting bee—this quaint Pine-apple pattern! And why wouldn't it be? With nearly all the patch pieces the same width, you can cut your fabric into strips and snip off pieces as needed. Easily made, you start from the center and sew round and round till the block is done.

In pattern 5591 you will find the Block Chart, an illustration for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y. Write plainly pattern number, your name and address.

**Range of Temperature**  
Cities in the United States which have a great range of temperature are Boise, Idaho, which has recorded a difference of as much as 149 degrees between Summer and Winter extremes; Bismarck, N. Dak., 153 degrees; Pierre, S. Dak., 152 degrees; Yakutsk in Siberia has recorded temperatures as high as 102 degrees and as low as -82 degrees, and Verkhayansk, 94 degrees and -90 degrees (in both cases a range of 184 degrees).—Washington Star.

To Alkalize Acid Indigestion Away Fast

People Everywhere Are Adopting This Remarkable "Phillips" Way  
The way to gain almost incredibly quick relief from stomach condition arising from overacidity, is to alkalinize the stomach quickly with Phillips' Milk of Magnesia.

Each tiny tablet is the equivalent of a teaspoonful of the famous Phillips' Milk of Magnesia.

Old Men Still Useful  
Fists and Razor Blades  
Youngest Grandfather  
Science Works Two Ways

Even in this day of flaming youth, mature age still has its usefulness. The average age of our Supreme Court justices is seventy-one years. Twenty-six years ago Chief Justice Hughes took his seat on the Supreme Court bench. President Taft rendered public service by appointing him to succeed Justice Brewer.

He left the bench to run for President against Woodrow Wilson, and would doubtless have been elected had he not gone to California. Had he been elected he would have remained in the United States and probably would have saved the country ten thousand million dollars that Woodrow Wilson shoveled out in his ecstasy of self-approval.

Rioting in London's "Mile End Road," in which the faces of men and women were slashed with razor blades and one man was thrown through a shop window, etc., seems rather "un-English," to put it mildly. Fist fighting has been encouraged by distinguished Englishmen, including judges, on the ground that it is "better than using knives."

It is better, doubtless, but what about the razor blades?

Germany honors its youngest grandfather, Herman Jahnke, farm laborer, thirty-six years old. Married at seventeen, his eldest daughter became a mother at seventeen.

If all you want is children, that record is satisfactory, although any mouse family could beat it by 25,000 per cent, and almost any microbe by a billion per cent.

If good children were desired, it would have been better for Mr. Jahnke to have his first child at 36, and his first grandchild at 60 or 70; at least that was Plato's opinion.

Justice uses science—the electric chair, the lethal chamber—to punish criminals. The criminal uses science to carry on his trade. An SOS signal, purporting to come from a yacht in distress, drew the coast guard away from the coast of Hawaii, making it convenient for smugglers of narcotics to bring in their cargo. Tear gas, comparatively modern, was used to empty a New York theater where there was labor trouble.

Japan, until recently convinced, mistakenly, that this country is her enemy, and for excellent reasons keeping close watch on Russia and her anti-Japanese Vladivostok, airplane and submarine base, now turns suspicious attention on dear old John Bull.

Britain is supposed to have asked nine nations to protest against Japan's demands on China that should not worry Japan too much. The same old John Bull got fifty-one nations to protest Mussolini's attack on Ethiopia; but, paying no attention, the able Italian went ahead swallowing Ethiopia; sending the little Haile Selassie to live in Switzerland.

In his villa at San Remo, the Duke of Borea D'Olmo celebrates his one hundred and sixth birthday in excellent health. He has been active in Italian court circles since 1841, before the beginning of the United States-Mexican war.

Mussolini tells 200 farmers and industrialists to prepare for a "decisive conflict" that will be necessary "to preserve order against anarchy."

Those that favor the "present civilization," he said, will have to preserve it. "We are at the dawn of a decisive conflict between the representatives of order and anarchy."

Dr. Irving Langmuir, brilliant Nobel prize winner, announced a "counterpart of life," produced chemically; interesting, probably not important. Until some professor can produce "some counterpart of life" able to think, manufacture telescopes, explore the universe and run for office, man's domination will not be threatened. A cigar store Indian is a "counterpart," but not an Indian.

Current Events IN REVIEW by Edward W. Pickard

**Senator Borah Maintains Independent Attitude**  
SENATOR WILLIAM E. BORAH of Idaho, whose attitude in the Presidential campaign is a matter of great interest to all parties, has declared he would confine his attention to state matters; but then, being irked by some criticism from Republicans he went further and said he was "going after the Republican party."

Senator Borah

The veteran said he had been accused of not being regular. "Well, what is a regular?" he asked. "A regular is a man with no ideas, who waits for someone to tell him what to do. My idea of being regular is in doing what you believe to be right in the interests of the people you represent."

"Let this be understood—I'm telling all parties, Republican, Democratic, Union—in going to advocate the things I believe in whether they cross party lines or not."

**Pessimism Prevails at Last League Session**  
PESSIMISM and discontent marked the final session of the League of Nations assembly, the leaders admitting that little had been accomplished. Carlos Saavedra Lamas of Argentina, president of the assembly, even asked if he might not raise the question whether "civilization is on the verge of a final breakup."

The question of reforming the league covenant provoked a bitter controversy on whether nonmember states should be consulted. Russia was understood to be anxious particularly to bar German influence and achieved a minor triumph since no definite action to solicit nonmember co-operation was taken. A committee of twenty-eight was named to study reform proposals.

The assembly approved reports of its economic and disarmament committees. The economic report carried a British proposal to create a commission to study accessibility of raw materials. The United States and other nonmembers would be invited to participate. The report of the disarmament committee approved the reconvening of the world disarmament conference at an early date.

**Disorders in Palestine Are Dropped by the Arabs**  
ARABS of Palestine, who had been on "strike" for 175 days in protest against unrestricted immigration of Jews, were persuaded and other nonmembers would be invited to participate. The report of the disarmament committee approved the reconvening of the world disarmament conference at an early date.

Japan, until recently convinced, mistakenly, that this country is her enemy, and for excellent reasons keeping close watch on Russia and her anti-Japanese Vladivostok, airplane and submarine base, now turns suspicious attention on dear old John Bull.

later some 40,000 Heimwehr men appeared fully armed and uniformed. Von Starheimberg may not be really squelched this time, either. It is a certainty that he has a powerful friend in Premier Mussolini of Italy.

**Typhoon in Philippines Kills Many Persons**  
ONE of the worst typhoons in the history of the Philippines swept across Luzon island, killing scores of persons and destroying villages. At least 310 perished and the authorities feared the death list would be much larger for four hundred were reported missing. Eighty-two bodies were recovered from the city of Cabanatuan alone.

**Waterway Money Allotted for Atlantic Coast**  
MEMBERS of the Atlantic Deep-sea Waterways association, assembling in Tipton, N. J., for the annual convention, were informed by President Roosevelt that funds totaling \$24,000,000 have been allotted for waterway improvements along the Atlantic coast during 1937. In a letter to President J. Hampton Moore of the association, to be read to the convention, Mr. Roosevelt also said:

"This year has been noteworthy in witnessing the completion of the 1,435 mile inside route of the intra-coastal waterway from Trenton to Miami. Much credit for this accomplishment belongs to your association and it is to be congratulated therefor. Other waterway projects of permanent value to the nation sponsored by your organization have been completed or are progressing in a satisfactory manner."

**John L. Lewis States Labor Peace Terms**  
WILLIAM GREEN, president of the A. F. of L., who had just been calling on President Roosevelt at Hyde Park, N. Y., told the newspapermen that the prospects for peace between the warring factions in the federation were better and that those participating in the controversy were becoming "more temperate."

J. L. Lewis

However, that same evening John L. Lewis, the dynamic leader of the Committee for Industrial Organization, rather dashed the aforesaid prospects for peace. In Washington he laid down, as the only basis for restoration of peace in the ranks of organized labor, a program consisting of these two propositions:

1. Revocation by the executive council of the American Federation of Labor of the order suspending pending C. I. O. unions on charges of insurrection.

Isolation of certain mass production industries which would be organized strictly on Lewis' "one big union" theory.

It had been stated that David Dubinsky, head of one of the suspended unions, had submitted a compromise peace proposal, but Lewis told the correspondents that he knew of no change in feeling between the battling factions; that he had made no move for peace and contemplated none; that the C. I. O. drive to unionize the steel industry was "proceeding satisfactorily" and that the Dubinsky proposal was a similar to the one previously offered to and rejected by the A. F. of L. council.

**Russia Angrily Warns Fascist Nations**  
HELP given the Spanish insurgents by Fascist countries so enraged soviet Russia that she gave notice that, unless it ceased she would free herself from any obligations to the agreement for neutrality. The representatives of the 27 nations on the international committee of non-intervention in the Spanish war were about to meet in London, and Moscow's challenge caused a real sensation. Moiseyevich Kagan, soviet delegate on the committee, specifically named Portugal, Italy and Germany as the offenders and called for an investigation. It is believed that if Russia is not satisfied in this matter she will send airplanes and other war material to the Spanish government.

The committee refused to take any action on the Russian complaint, averring that the charges were not specific enough.

Spanish Fascists pushed their lines so closely around Madrid that they called on the government to surrender the capital immediately and thus save it from a destructive bombardment. An airplane fleet showered the city with circulars telling the citizens that further resistance was useless. One of the most threatening of General Franco's advances was directed at Aranjuez, whose capture would cut off Madrid's food supply from the Mediterranean.

Swedish Aviator Falls in Stockholm Flight  
KURT BJORKVALL, Swedish aviator, made an attempt to fly alone from New York to Stockholm. Thirty-two hours after the start he was picked up from the ocean about one hundred miles off the coast of Ireland. Supposedly he had run short of fuel. The rescue was made by a French trawler.

Swanson's Hint to Japan About Fortifications

AS THE time for the expiration of the Washington naval treaty draws nearer, the utterances of Secretary of the Navy Swanson take on more and more the nature of sharp warnings to Japan not to get too gay in the Pacific. In a press conference the other day he said: "Fortifications are intended to answer fortifications. One menace must be met by another menace." And he gave notice that the navy should be ready to do the necessary meeting.

About the same time the State department was studying a proposition, made to it and to Japan by Great Britain, for an extension of the treaty pledge of the three nations not to build new fortifications or naval bases in certain of their Pacific possessions.

**Winant Shows Well in Franking Abuse Attack**  
ATTACKING abuse of the franking privilege, which has been practiced by followers of any and all parties when they got the chance, Senator Arthur H. Vandenberg of Michigan proposes that congress pass legislation that will put a stop to this evil, "for the sake of the one hand of the postal revenue and for the sake, on the other, of political fair play."

J. G. Winant

When John G. Winant resigned from the social security board, his letter to the President was a strong pro-New Deal document. It was printed by the press bureau of the social security board and franked to a large mailing list, and Senator Vandenberg asked Mr. Winant whether he thought that was a legitimate use of the franking privilege. Mr. Winant replied promptly that, lest there be any question of the propriety of the matter, he had paid the mailing costs. This attitude was warmly commended by Senator Vandenberg, as it must be by all good citizens.

**Finds Private Debt Load Is Not Excessive**  
BASING its conclusions on a study covering the period from 1900 to 1935, the National Industrial Conference board finds that there is no evidence to support the theory that the burden of private debt upon business is excessive. Statements that private debt is "absorbing wealth" or is showing a changed and unfavorable relationship to wealth, or that the depression was precipitated by an excessive debt burden are without factual basis, the board reported.

Interest charges have not outrun the capacity to pay them, according to the board's study, which showed that the rates of growth of private long-term debt and of interest charges from 1900 to 1935 were similar to those of national wealth and national income.

Since 1930 private long term debt has tended to decline. Only the public utilities have increased the amount of their outstanding debt. But the board points out that no debt problem exists in the public utility field as a whole and that expansion of the electric light and power utilities has been on a sound basis, with the industry in a safe position to meet interest charges.

The steam railroads, taken as a whole, are neither overcapitalized nor overburdened with debt, the board concludes.

**Court Opens Way for Security Act Test**  
UNITED STATES DISTRICT JUDGE C. B. KENNEMER of Montgomery, Ala., issued an order halting collection in Alabama of a one per cent payroll tax to finance the unemployment program. The result, it is expected, will be a clear test of the validity of the New Deal's social security act, for lawyers had no doubt the case would be carried to the United States Supreme court. The order was granted the Gulf State Steel corporation of Gadsden, Ala., on a plea that the unemployment insurance program, operated in co-operation with the federal government, violates both state and federal constitutions.

**Karl Radek Is Latest Accused in Russia**  
ACCUSED of complicity in the plot against Dictator Stalin for which 16 prominent Russians were executed in August, Karl Radek, brilliant journalist, is under arrest and in danger of losing his life. He disappeared just after the executions of the others, but was caught a few days ago.

In his last article, published in the official newspaper Izvestia, Radek confessed his faithfulness to the Communist party, but defended himself with a vitriolic attack on Trotsky and claimed he had "expiated" his sins by foiling Trotsky's attempted sabotage of the Stalin regime.

**Swedish Aviator Falls in Stockholm Flight**  
KURT BJORKVALL, Swedish aviator, made an attempt to fly alone from New York to Stockholm. Thirty-two hours after the start he was picked up from the ocean about one hundred miles off the coast of Ireland. Supposedly he had run short of fuel. The rescue was made by a French trawler.
