

## STATES HAVE OPPORTUNITY TO SHOW WARES IN HUGE BUILDING AT NEW YORK FAIR

NEW YORK, (Special).—Included in the limited edition book of unusual size and beauty which the New York World's Fair 1939 incorporated has sent to state governors and, through diplomatic channels, to foreign governments, is the following text devoted to:

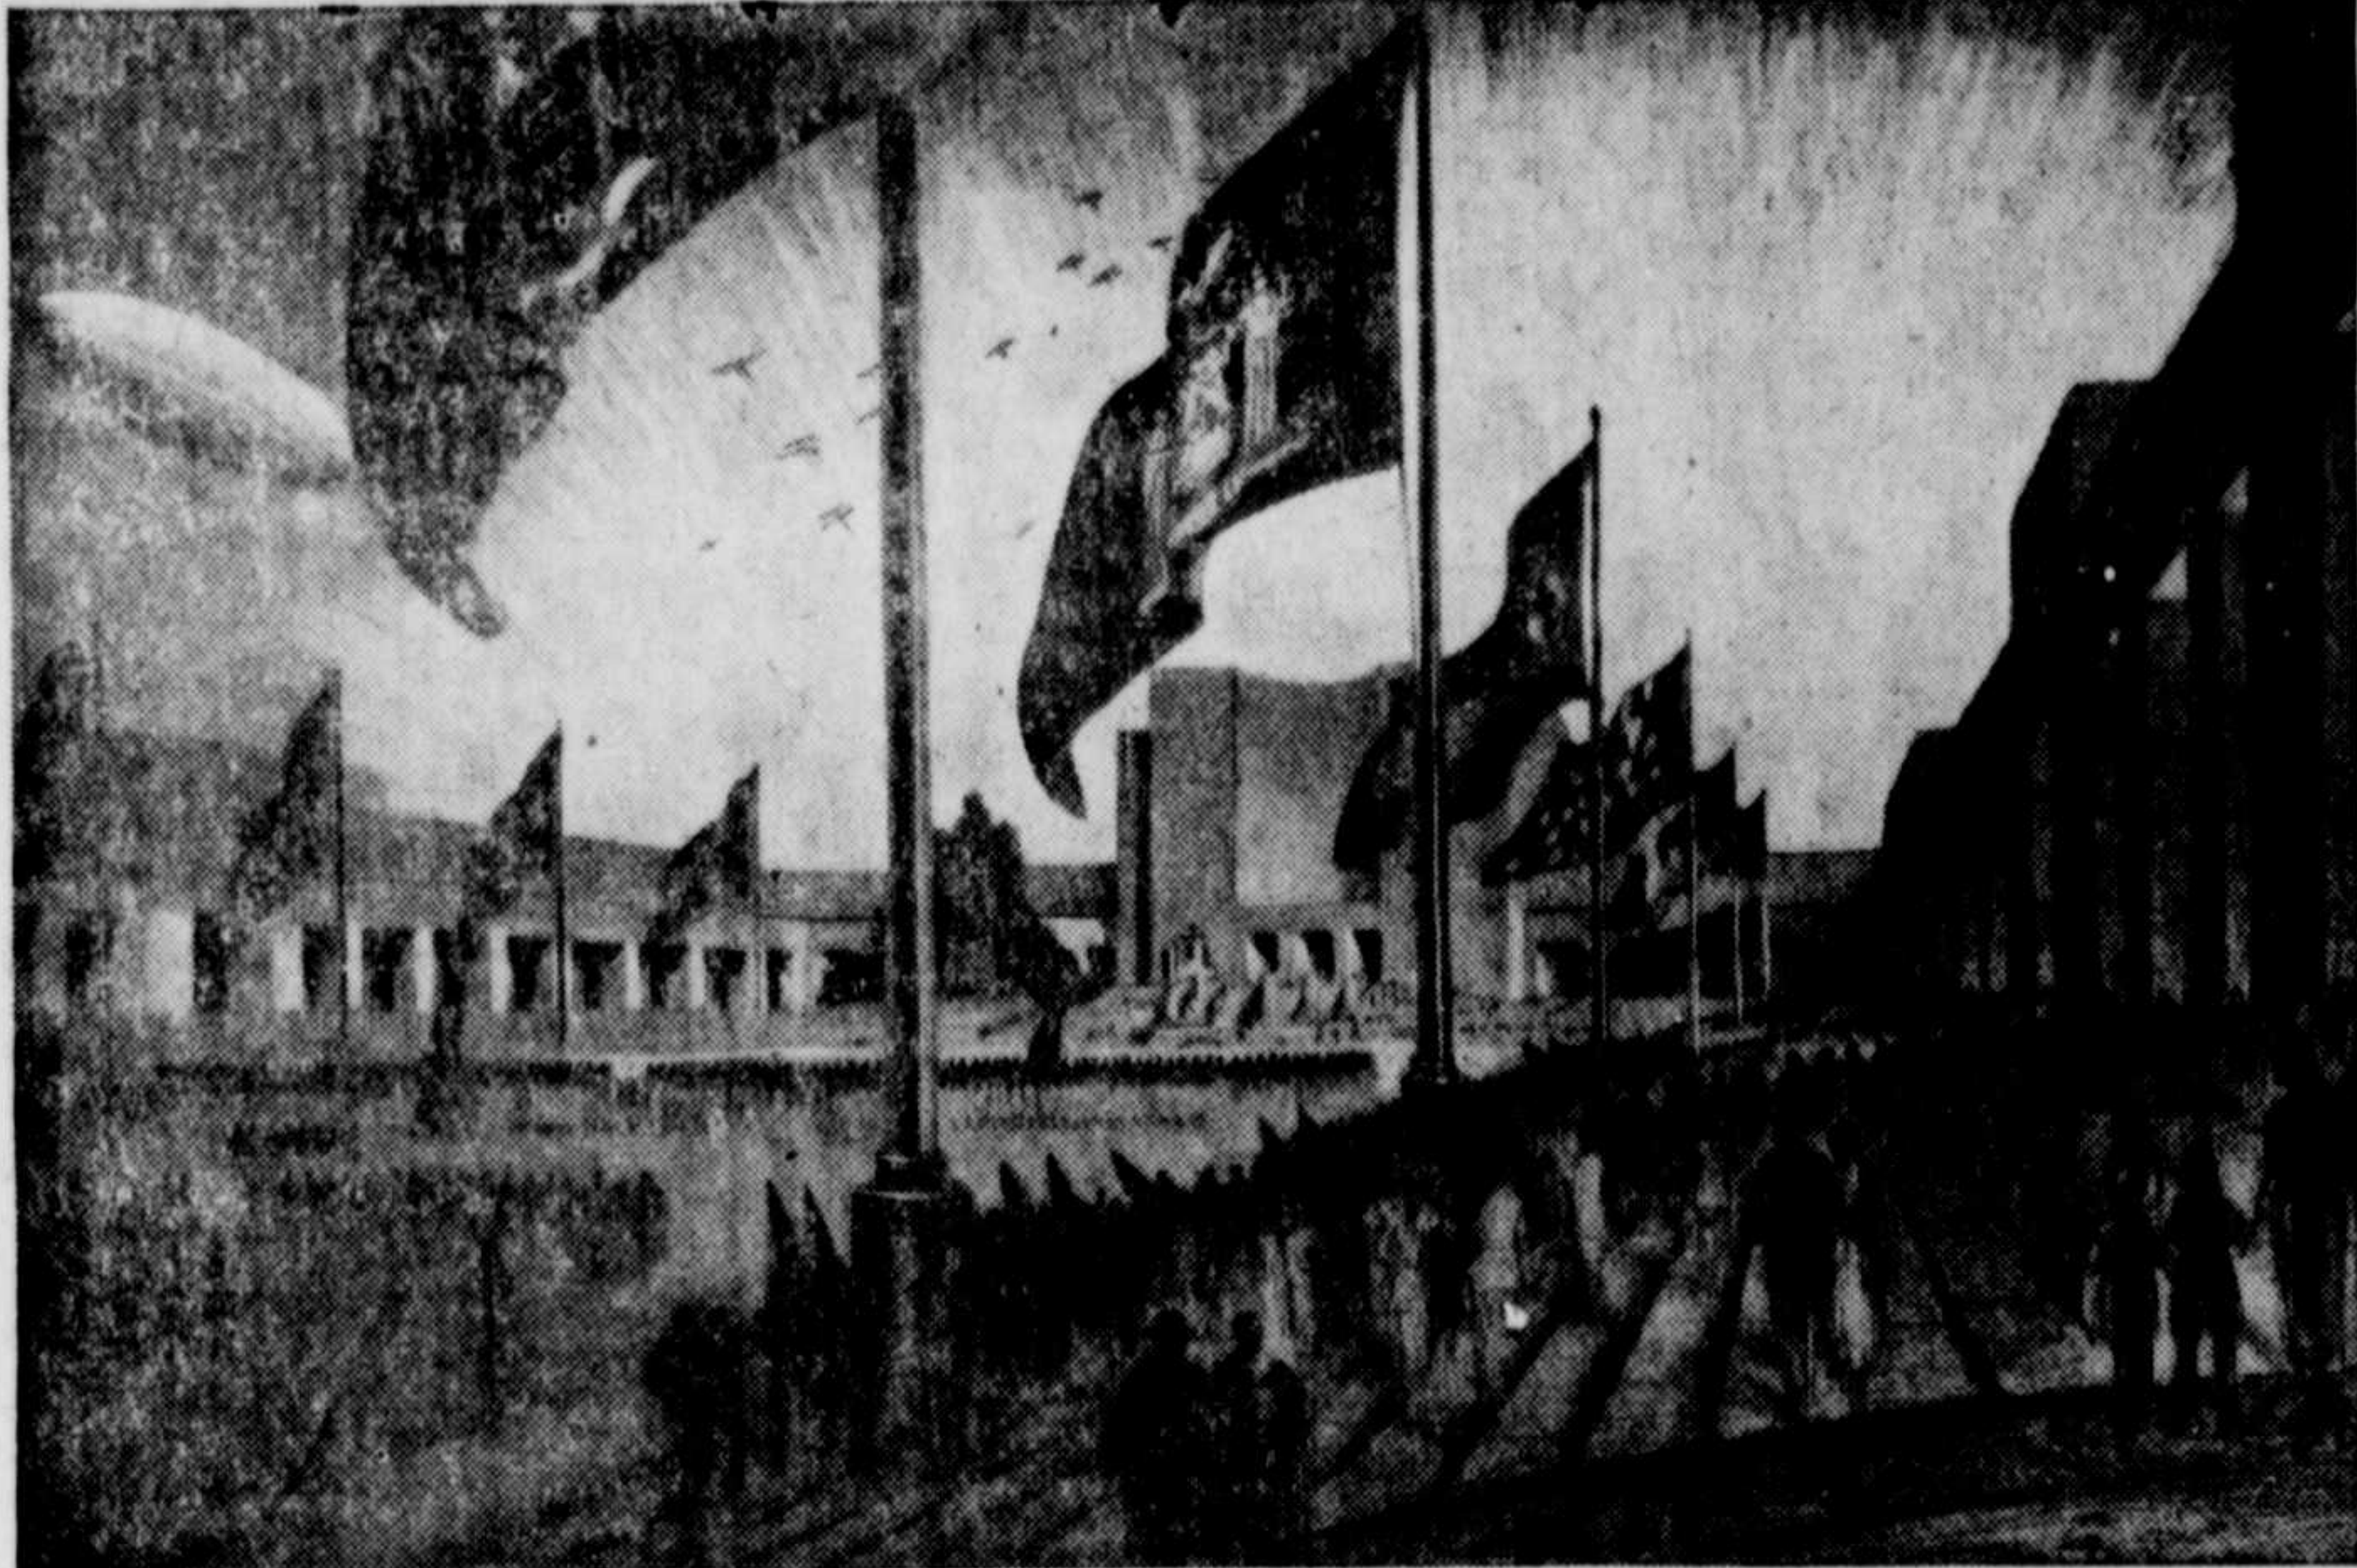

### The Sovereign States of the Federal Union

George Washington, in declaring that the public felicity and prosperity of America depend upon the firm union and the unceasing cooperation of the sovereign American States, divined the future. The prosperity and the greatness of these United States have arisen from the free and unimpeded circulation of ideas and products in the world's greatest consumer market.

The Fair gives to each State the appropriate setting and opportunity to announce to the world its unique and indispensable contribution to America's rich and colorful civilization. The Fair contemplates a Hall of States, in the imposing Government group and flanking the structure which the Fair looks to the United States to build, to house the exhibits of the forty-eight States, and the Territories. Those wishing to participate more extensively will, in addition to their exhibits in the Hall of States, either erect their own buildings or obtain space to display their products and attractions in one or more of the exhibit zones.

The State of New York has naturally taken the leadership in the participation of the sovereign States of the Federal Union. Its total appropriations for Fair purposes may exceed \$5,600,000; and the New York State World's Fair Commission, appointed by the Governor, has been active for some time. Other States already are beginning to express enthusiastic interest in participating more extensively than at previous world's fairs.

The many visitors will find a fresh cause for pride and enthusiasm in the revealing exhibits of their respective States. But beyond this, the exhibits will enable the States to make a persuasive presentation to all visitors of what they have to offer to the consumer and to the tourist.

Before the Hall of States, at the New York Fair, a Brigade Might Pass in Review

### THE HOME WHERE THERE ARE NO BROKEN TIES

Evangelist John Moses Baker  
Baltimore, Maryland

Are you laying up your treasurers  
over yonder,

In that land where none will ever  
sigh?

Are you living every day for the  
Master?

Remember, He is coming by and  
by.

Have you put on your wedding garment,  
The Righteousness of Jesus Christ  
our King?

Are you sowing the good seed in  
every word and deed?

A blessed harvest you some day  
will bring.

The glorious fruits are ours of a  
Saviour's dying love;

We may always find in Christ a  
sure retreat,

When the storms of life are beating  
all around us;

Our safety in His blessed keeping,  
oh, how sweet.

The years are passing by into the  
shadows;

The sun is sinking low in western  
skies;

Are you setting your affections on  
that city,

The home where there are no  
broken ties?

### FORCASTING FUTURE TRENDS (The Stars in Their Courses)

by  
JOHN RANDS  
Astro-Numerologist

The period February 5 to 11, incl. Contact old friends, promote better relations with relatives and elders, establish your position, make the best use of your intelligence, especially in old matters.

February 6-7 calls for cool thought and calm action as exciting conditions surround you.

February 8-9 accents the practical and elders in matters of possession and collections.

February 10-11 favors inspiration. Seek development of your talents and promotion or reward through your literary or artistic efforts.

Venus, planet of the affections, occupies the sign, Aries, where it will remain June 3. This position of Venus ties up personal and home (domestic) matters with martial affairs. During the spring it will aspect Jupiter three times, tending to deflecting or dissipating social, legal or financial achievement. Love affairs will be numerous and publicized, ardent and frowned upon by conventional minds. A woman may achieve fame or notoriety through romance. Vainly and licentiousness on the one hand, or reckless, headstrong intensity on the other can cause distress and serious loss. Domestic and family affairs need careful consideration during the period of Venus' occupation of Aries.

John Rands.

### FORTY-SECOND SEMI-ANNUAL DOLLAR DAY

Sponsored By Merchantile Section Of  
Wilmington Chamber of  
Commerce

The forty-second semi-annual "Dollar Day" to be conducted under the auspices of the Merchantile Section of the Chamber of Commerce will be held on Wednesday, February 10. Wilmington merchants are preparing to make it the finest and most outstanding of all, from the viewpoint of the conservative shopper.

Edward A. Munch, chairman of the Merchantile Section's Cooperative Sales Committee, under whose direction the "Dollar Day" will be conducted, states that a survey he just has completed of preparations of merchants for the event shows that never in the long history of these semi-annual sales events, have arrangements been made to present to shoppers such bargains and such values.

The cooperation of the Wilmington Bureau of Police has been accorded gladly to protect out-of-town buyers from parking restrictions, and there is published in this issue of this paper a coupon, which, if cut out by the shopper and affixed to the windshield of automobiles, will permit parking as long as necessary in Wilmington on "Dollar Day," without interference.

This year, more than a hundred of Wilmington's leading mercantile establishments are participating in the event, and, after weeks of quiet but vigorous and careful preparation through thorough combing of wholesale markets and laying plans for drastic reductions on their present stocks, will be prepared to offer to shoppers from all over the Del-Mar-Va Peninsula and adjacent counties of Pennsylvania and New Jersey heretofore unattainable values. Official "Dollar Day" stores, as usual, will display a distinctive emblem and price cards, both of which will bear the copyrighted emblem of the Chamber of Commerce. Shoppers are urged by the Committee in charge to shop in those stores displaying these uniform signs and price tickets as they designate those merchants officially participating in the event.

All Wilmington stores participating in "Dollar Day" will be open at 9 o'clock and are arranging for extra sales people to prevent the necessity of anyone waiting. Merchandise to be offered will meet the most discriminating taste and the entire range of pocketbook "sizes."

The committee in charge have made it clear that "Dollar Day" will be held on February 10th, regardless of weather conditions. It neither will be postponed, nor will "Dollar Day" merchandise bargains be available before or after that date.

### SPECIAL PARKING ARRANGEMENTS PROVIDED FOR VISITING WILMINGTON "DOLLAR DAY" SHOPPERS

As it is expected that there will be a great influx of automobiles bringing shoppers from out-of-town into Wilmington to participate in the official Semi-annual "Dollar Day," Wednesday, August 12th, the Merchantile Section of the Wilmington Chamber of Commerce has arranged special parking privileges for the City's visitors. The coupon printed below has been sanctioned by the Bureau of Police of the City of Wilmington, and is provided exclusively for the use of visiting "Dollar Day" patrons.

Clip This Coupon And Paste It On Your Windshield

### NOTICE

Department of Public Safety

The owner of this car is an out-of-town visitor and guest of the Wilmington Chamber of Commerce on the occasion of the official Semi-annual "Dollar Day." Please extend every courtesy and assistance.

(Signed) FRANK MAHONEY,

Chief Of Police,

February 10, 1937

Wilmington, Delaware.

Yet they say that the man who is willing to die for a woman has undying love for her!

The average young man makes love to a girl because he thinks she thinks he ought to.

## Rising Sun High School News

BY THE JOURNALISM CLUB

At this time the Journalism Club of Rising Sun High School wishes to thank Mr. Ewing, of the Midland Journal office, for the space in the paper each week and also for the copies of the paper which the members receive.

We feel that those pupils who are interested in writing are greatly benefited by the Journalism Club and can gain experience. Through the Midland Journal we can get our news published, and by having our own news articles appear in print we can tell the public what we are doing in our school.

### P. T. A. Meeting

The P. T. A. meeting which was held in the High School auditorium Thursday night was enjoyed by all present. After a short business session the Civic Club of the school presented a one-act play entitled "Orville's Big Date." The characters took their parts very well and the auditorium liked the little play very much. Following the play Mr. Fockler, principal of Chesapeake City High School, gave a very interesting and pertinent talk on "County Federated Taunt Teachers Organization." From his talk many good points were brought out concerning the activities of the P. T. A's. Mr. Fockler said that different P. T. A's. of Cecil county had various interests. Some are interested in having the best possible schools for the children. Some are vitally interested in all school questions which might concern the children. Mr. Fockler felt that the public did not know enough about the schools. He talked about several questions which every parent should know something about. Some of them were: "What are our children doing in Cecil county in their school work compared to other counties? Is there a testing system in our schools? Do we have a good working system? In the high school's how many fire periods does the principal have? What is the supervising system of our schools?" Mr. Fockler felt that P. T. A's. did not know enough about these things. He said that there are many functions or things that a P. T. A. society can do. First, they can appoint a committee to study all school problems that might be in dispute. This committee could study these questions from every angle and then try to get the best things possible for the schools. He said a committee of this type could work with the supervisor and officials of schools to try and get improvements in the schools. Mr. Fockler proved to everyone from his talk that the P. T. A's. can really be of value to a community and to a school if they would indulge in these various activities.

Concluding, Mr. Fockler said that more interest was going to be given to the County Federated P. T. A's. and other organizations of this type all over Cecil county.

Mr. Beachley, principal of North East High School, was also a visitor of our meeting.

—Catherine Keilhoitz.

The Civic Club held its annual meeting January 19th, selecting monitors for the next two weeks. The following were selected: In the hall between classes—Marlin Zimmerman, Jr., and Ruth Reynolds. On the steps—Lorraine Riale and Robert Juggler. Locker rooms at noon—Lula Eastridge, Lawrence Wiggins and Leonard Conrad. Lower hall at noon—Violet Conner, Ruth Baugher, John Boyd, and Arthur Leiske. Upper hall at noon—Edith Alexander and Maxine Eldred. In the locker rooms from three to three thirty—Lillian Hathaway and Jackie Sebold.

—Virginia Brown.

A very interesting assembly was held Wednesday, Jan. 21, from 2:50 to 3:30, in the High School auditorium. This was a period in which Mr. Norman Wood, a great sportsman, was introduced to the students and faculty.

Mr. Wood, in order to explain about his exciting and thrilling adventures, spoke specifically about each picture which he showed, in order for the audience to have more understanding of it. The audience, thrillingly looking on, watched with keen interest as each picture passed on. Some of the pictures had to do with some of the animals which he had seen in mountains and forests all over the country. He even showed pictures of fishermen fishing in some of the streams of Maryland.

After all of this I'm sure that this topped off a very pleasant day, especially for those who are interested in sports and wild life.

—Esa Hamilton.

### "Alumni Interests"

The Alumni Association has been very active in providing entertainment and making itself altogether useful and helpful in our community. There are several members of this

association. Some of the very active members are: Ralph Reed, president; Elwood Monger, Jeanette Reed, Louise Monger and Jack Owens. Trough there are no definite dates set for their meetings you can always count on them being there. Attractions are being planned to get old members and graduates interested in their programs and meetings.

One of the things considered by this group is a play to be selected and discussed at the next meeting. Books were ordered several weeks ago but nothing definite was decided upon. However, we may expect this play sometime next year. We are sure a play worked out by this group would be worthwhile and we hope to see it carried out.

This is not the only thing that is being planned however. For a general thing the dances held by the Alumni have been accompanied by a card party. Following the program of dances of other schools, ways and means are being discussed for having a similar dance without the usual card party.

Although the dances are talked back and forth by the high school pupils, note has been made that not many attend them. The Alumni expresses their hope that more of these will attend.

Speaking of entertainment, we are informed that basketball equipment was offered to the school sometime ago but was refused the right to put it in. Now when asked to get the equipment the Association reports that the cost would have been \$20. This would have wrecked their treasury and put them in debt. A more reasonable price could have been worked out we believe.

Here's wishing the Alumni Association lots of luck in carrying out their plans.

—Elsie Brammer.

### Second Edition Of The "Ray"

On Monday, January 25, the second edition of the Rising Sun High School Ray was distributed to the school. In Mr. Zimmerman's monthly communication to the students, news of current interest was given. This news consisted of information concerning the January P. T. A. meeting; coming school assemblies; awards of emblems to members of our athletic teams; school attendance records for the month of December, and news of the Mid-Year Examinations.

The Ray is a sheet of mimeographed paper, started in December, 1936; however, it gives the students both a communication from the faculty and a handy reference to dates and other topics of interest. Sponsored by Mr. Zimmerman and the Journalism Club, the former has done most of the work on the first two issues, but as our plans are to make the paper a well organized combination of the Faculty and Student Bodies, the next edition shows promise of being a paper of considerable value to the members of the school.

—Robert Rands.

### Assembly

A very outstanding artist furnished the entertainment for the January 27th assembly. Mr. Bubb was a former Chautauqua entertainer. His drawings consisted of three kinds: paintings, colored materials, colored sands. The first painting was a beautiful tropical sunset. This was followed by numerous cartoon pictures, such as, one of himself, Amos and Andy and many others. He also astonished the audience by sketching the pictures of some of the students: Richard Jenkins, Hayes Martindale, Annabelle Ayers. A beautiful Dutch scene was made from colored materials. Another picture was made from various colored sands. This was the most interesting of all, because it is uncommon to see a picture consisting of sand as the material.

A small admission fee was taken.

—Lila Todd.

### Basketball Prospects

It has been made possible that we can get basket ball equipment in our school auditorium.

This is one of the plans of recreation for the pupils of our school to interest themselves in during the period before school calls, lunch hour or activity period.

One basket will be put on the wall at the back of the auditorium. The other basket will be a movable one as the front of the auditorium is not

### WINTER SPORTS

While Florida is entertaining a record crowd this winter, thousands of winter sports enthusiasts are trekking to the Iceland Carnivals of Michigan, New York, New England and Canada. The B. & O. is running a daily Snow Train from Baltimore to the Myradsals, Pa., winter playground. Those who want it "ritzy" go to St. Moritz.

The small boys' idea of slamming mushy snow ball into the banker's top hat lost some of its attractions as a wintersport with coming of low priced skates and sleds but the snow balling recalls pleasant memories of "battles" by the branch, of stave sleds and brilliant bonfires which linger as boyhood reminders of the rich kid and his red store sled.

The king of cold weather play is ice skating, the winter pastime of the Hollanders who invented the game of golf as well as ice hockey. The first skates had bone runners but these were quickly replaced by iron runners equipped with wooden shoe plates. Such a pair is on exhibition in the transportation section of the Smithsonian Institute at Washington. They are about one hundred thirty years old and were loaned by the writer. The distance record for skating is twenty-five miles in one and one-half hours. The picture "One in a Million" is filmland's tribute to ice skating.

If you want a safe and accessible ice pond in your community, just and a flat piece of ground—a tennis court will do. Build a six inch wall of dirt around it. Fill with one to two inches of water. When this freezes the skating rink is ready, each night thereafter, flood with one quarter to one half inch of water and a new surface will be ready for the next day. Which community will build the first Safe-Skate-Pond?

Ice hockey is the fastest and most exciting game played in America while skiing is the fastest winter sport. Ski jumpers often attain a speed of one hundred miles per hour, the record jump is 311 feet.

Tinkling sleigh bells or "Jingle Bells" were a familiar sound a generation ago when nearly every family owned a horse but now a sleigh is as much of a curiosity to the children as the first auto was to the adult. Each winter brings increasing interest in winter sports but here on the peninsula activities must be continued to sleighing, ice skating, and straw stack skiing until some one builds a toboggan slide or an indoor skating rink.

Books: Book of Winter Sports—White; 60 Centuries of Skiing—Dudley; Ice Hockey—Fisher; Ice Boating—Stone.

Next week: Birthday.

### CHRISTIAN SCIENCE SERVICES

"Spirit" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, February 7.

The Golden Text will be from II Cor. 3:18—"We all with open face beholding as in a glass the glory of the Lord are changed into the same image from glory to glory, even as by the spirit of the Lord."

Among the citations comprising the Lesson-Sermon will be the following from the Bible—Eph. 4:4—"There is one body, and one Spirit, even as ye are called in one hope of your calling."

The Lesson-Sermon also will include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, page 336—"The spiritual man's consciousness and individually are reflections of God. They are the emanations of Him who is Life, Truth and Love."

The board of trade member doesn't mind being called a bull or a bear, but call him a calf or a cub and he gets mad.

Health is better than wealth, but the latter is always an interesting invalid.

built for the use of a stationary one. Much credit will go to Mr. Warren, as he is taking the responsibility of seeing that everything is properly done.

This project will not be completed for use this winter, but we all appreciate the effort put forth for the pleasure of the school students.

Basket ball has been carried on in the Elkton and North East High Schools. We hope to have inter-competition next year.

—Ida Tomo.
