KATHLEEN NORRIS
writes

"Beauty's Daughter"

America's most beloved author returns to capture public fancy again... she brings a vital and glowing story, modern as tomorrow, strikingly pertinent to a social-conscious world!

Read about the girl who evaded love because of a mother's unhappiness... then read the consequences in this monumental story from the pen of Kathleen Norris—"Beauty's Daughter."

IN THIS PAPER

CHRISTIAN SCIENCE SERVICES

"God the Preserver of Man" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 13.

The Golden Text will be from Psa. 62:7—"In God is my salvation and my glory; the rock of my strength, and my refuge is in God."

Among the citations comprising the Lesson-Sermon will be the following from the Bible—Psa. 32:7—"Thou art my hiding place; thou shalt compass me about with songs of deliverance."

The Lesson-Sermon also will include the following passage from the Christian Science textbook, "Science and Health with Key to the Scrip-

tures," by Mary Baker Eddy, page 305—"Let us remember that the eternal law of right, though it can never annul the law which makes sin its own executioner, exempts man from all penalties but those due for wrong doing."

The first thing a young man learns at college is how little other people know.

Don't count your poultry until they get big enough to get away from the cat.

There are numerous cures for rheumatism, and it usually lingers long enough to give the victim a chance to try them all.

JUDGE CLIFFORD P. SMITH
Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

A woman could cry more if it didn't give her nose a vermilion hue.

CHEVROLET SAFETY PROGRAM

Chevrolet's own Traffic Safety Program has reduced the severity of accidents during the past three years, according to figures released this week by C. A. Kleist, Chevrolet budget director.

The reduction is reflected in a sharp decrease in the amount paid in claims in the last two years as compared with 1934, Mr. Kleist declared.

Using the amount paid in 1934 as 100 per cent, the year 1935 showed a reduction of 61.8 per cent; and the year 1936 showed an additional reduction of 22.1 per cent under 1935, —or a total per cent reduction of 70.97 per cent under 1934.

Through the continued application of the principles of the safety program, the accident liability rate was reduced 17.5 per cent, Mr. Kleist said, and this has meant a saving of many thousands of dollars to Chevrolet. In time saved, and in increased efficiency, Chevrolet's safety program has also gained noteworthy results.

The program was organized two years ago by W. E. Hoiler, Chevrolet general sales manager. All drivers of company-owned cars were enlisted in the campaign. Posters and stickers are sent out periodically to the entire Chevrolet personnel, continually calling upon drivers to "Make This Month a No-Accident Month." The posters are displayed prominently on company property, and the stickers are posted on the dash of every company car.

Courtesy and care are stressed as the two most important safety factors in driving, based on the proven fact that most highway accidents are preventable, Mr. Kleist explained.

Under the program, all drivers who maintain a perfect safety record for a full year receive gold medallions; drivers who go six months without an accident receive silver medallions; three months, bronze medallions.

Drivers of truckaway trucks receive certificates in inscribed leather pocket cases, so that when they change trucks they carry their awards with them.

A poor man has to spend money in order to prove that he has it; a rich man doesn't.

The more noise a theory makes when it explodes the less dangerous it is.

well be supplied to farmers in time to be of use to them this year. Second, checking of performance is expected to begin in certain areas in June and the county office will need to complete the handling of work sheets prior to that time.

DEADLINE FOR WORK SHEETS IS SET IN AAA SOIL PROGRAM

June 12 has been set by the East Central Division of the AAA as the last day on which work sheets for the 1937 agricultural conservation program will be accepted at the county office, it is announced by J. Z. Miller, county agent.

Mr. Miller states that June 1 had previously been announced as the deadline, but that in order to give every farmer who desired to participate in the program an opportunity to do so the time has been extended to June 12. He emphasizes the fact that farmers who filed work sheets for the 1936 program do not have to turn in work sheets again this year.

Mr. Miller explains that work sheets are used in preparing information that will help farmers plan their farming operations so as to take part in the program. However, farmers who file work sheets are under no obligation to take part in the program, if they later decide that they do not desire to do so.

Two reasons make necessary a closing date for accepting work sheets, Mr. Miller says. First, information prepared from work sheets filed later than June 12 could not

Young Democratic Clubs

Baltimore Lawyer Relected President—County Clubs Outvoted

Lawrence Fenneman, assistant city solicitor of Baltimore, was reelected for a two-year term as president of the Young Democratic Clubs of Maryland, Saturday, at Salisbury.

Mr. Fenneman's reelection at the annual convention was effected without opposition on the floor because of the fact that the Baltimore city delegation was able to outvote the combined county unit by five ballots.

When county leaders found themselves overwhelmed they bowed to the 40-vote city backing of Mr. Fenneman. Thirty-five county votes were present. There also was opposition in the city to the assistant city solicitor's continuing in office, but the votes of Baltimore were bound under the unit rule.

After the election, Mr. Fenneman promised he would not seek reelection two years hence. He has headed the Young Democrats since 1928.

The convention reelected Harry Korrel as secretary and Delegate Kent R. Mulliken (Dem., Prince George's), majority floor leader of the House of Delegates, as treasurer.

Major Jackson, Senator Radcliffe, and Herbert R. O'Connor, attorney general, were speakers at the session.

SOCIAL SECURITY ACCOUNT CARDS

Issuance at this time of social security account numbers to workers who are 65 years, or more, of age, is for the record purposes of the Maryland and other State unemployment compensation programs, Luther Becker in charge of the Social Security Board office at 300 Court Square Building, Baltimore, stated.

His statement was prompted by realization that many of the older workers applying for account numbers believe they are now eligible for Federal old-age benefits, Mr. Becker said. The Social Security Board feels that this false impression should be corrected immediately, he added. The statement continued:

"A few weeks ago the issuance of social security account numbers was extended to include workers beyond 65 years of age. This was done in order to aid Maryland and the other States and Territories in setting up records for unemployment compensation programs. State unemployment compensation laws cover employees of all ages; whereas the wages received by workers for employment after they reach 65 are not counted toward old-age benefits under the Federal program.

"No Federal tax for unemployment compensation purposes is levied on employees in commercial and industrial groups. Of the 47 States and Territories now having unemployment compensation laws only eight, Alabama, California, Kentucky, Louisiana, Massachusetts, New Hampshire, New Jersey and Rhode Island, require contributions for employees.

"Account numbers are being issued to employees 65 years of age and over, as well as to others, thru more than 45,000 post offices which are being used until June 30 in the assignment of account numbers under the Federal old-age benefits program of the Social Security Act.

"An employee may choose any one of four different ways to file his completed application. They are: (1) through his employer, or (2) through any labor union of which he is a member, or (3) by delivering it to his local post office, or (4) by mailing it in a sealed envelope addressed, 'Postmaster, Local'.

"Information on applications for account numbers, by agreements between the official State unemployment compensation administrations and the Social Security Board, will be held as absolutely confidential and will be used by the State agencies as well as by the Social Security Board solely in the administering of social security laws."

BEETLE QUARANTINE IN CHESTER COUNTY

Washington, May 19.—Chester county has now been included in the Japanese beetle quarantine order of the department of agriculture.

In an announcement extending the quarantine area, the department specified that no green corn on the cob, beans in the pod, bananas in entire bunches, or in clusters of 25 or more, apples and peaches, blackberries, blueberries, huckleberries, raspberries shall be moved or allowed to be moved interstate from or through Chester county. It also stated that "no fruits or vegetables of any kind shall be moved or allowed to be moved interstate via refrigerator car or motor truck" from the county to or through any point outside of the regulated area.
