

# WE NEED GOOD USED CARS AND TRUCKS!

**CHEVROLET DEALERS' USED CAR STOCKS  
WERE GREATLY REDUCED DURING NATIONAL  
USED CAR EXCHANGE WEEK**

**Now's the time to trade your car for a NEW CHEVROLET  
... Come in today and get our liberal offer**

 So great have been Chevrolet dealers' sales of used cars and trucks—so low is our supply of certain makes and models—that we need good used cars and trucks to balance our stocks. This means we are in an excellent position to talk "trade-in allowances" on the purchase of new Chevrolet passenger cars and trucks.

Come in—*this week!* . . . See the beautiful new Chevrolet for 1938—the car that is complete—and the new 1938 Chevrolet trucks—the *thrift-carriers for the nation!* . . . Learn how easily you can purchase a smart, new, modern-to-the-minute Chevrolet by letting us take your present car or truck in trade!

General Motors Installment Plan—Convenient, Economical Monthly Payments. A General Motors Value.

**"YOU'LL BE AHEAD WITH A CHEVROLET"**

**A. J. Dinsmore & Bro. Phone 108 Rising Sun, Maryland**

**Here's a Real "Humdinger" Offer!  
OUR PAPER AND 6 MAGAZINES  
All For One Year**

**52 Newspapers—72 Magazines—124 Issues In All!**  
The Biggest Reading Bargain We've Ever Offered

HERE'S WHAT YOU GET—

McCALL'S MAGAZINE . . . Full Year  
PICTORIAL REVIEW . . . Full Year  
WOMAN'S WORLD . . . Full Year  
GOOD STORIES . . . Full Year  
FARM JOURNAL . . . Full Year  
BREEDER'S GAZETTE . . . Full Year  
MIDLAND JOURNAL . . . Full Year

**All Seven  
For One Year  
\$2.50**

Regular Value \$4.75—You Save \$2.25

This offer is fully guaranteed as represented above . . . you get . . . all SEVEN publications for ONE FULL YEAR . . . and if you are now a subscriber to any of these publications your present subscription will be extended. Mail or bring the coupon below to our office at once, and you will receive the SIX BIG MAGAZINES each month and THIS NEWSPAPER each week that's 72 magazines and 52 newspapers . . . 124 issues in all. HURRY! We may soon have to advance the price on this offer.

USE THIS COUPON AND SAVE

## Britain Joins New York Fair

NEW YORK—A stirring scene in front of the Administration Building at the New York World's Fair 1939 as the Union Jack of Great Britain is hoisted aloft signifying that John Bull will be represented at America's exposition. The British exhibit will occupy 140,000 square feet, the largest of the 64 foreign displays now being prepared, and will cost several millions.

A pessimist is a man who prefers artificial light to genuine sunshine. One individual who thinks he knows it all has the most to learn.

## Rising Sun High School

JOURNALISM CLUB

### Editorial

One of the most important things in a democracy is that everyone must be willing to be governed by the will of the majority. However, for this theory of government to be successful, everyone must understand and discuss the problems upon which he is voting. There is great need for well developed democratic attitudes in the world today. On a much smaller scale, of course, there is need for them at school, and especially in the Senior year at school.

This year we have had much division of opinion as to whether the class shall wear caps and gowns or dresses and suits at graduation time. Since the class operates on purely democratic principles, it must learn to cooperate in this and other important problems such as the making of the Annual, the class picnic, earning and spending money, and the like.

Such things are all done in modern life and we are thankful for the training in such matters we can get at school.

### General Science

The Freshman Class always takes General Science, which is, as its name suggests, composed of some elementary principles of biology, chemistry, and physics. Some of the subjects taken up are the earth in relation to the universe, the formation and development of the earth, communication and transportation, simple mechanics, systems for heating buildings, obtaining good drinking water, hygienic eating, etc.

Many of these subjects are taken up elsewhere in the three other years

### Basketball Games

On Friday, March 4, the Rising Sun basketball teams played their last league game, meeting North East High in the Sun court.

In the opening game, North East's girls beat the Sun, 20-6. It was clearly a one-sided game, but our girls played as well as could be expected. All of the Sun's points were scored on fouls.

In the second tilt, North East defeated our boys, 29-14. Again, the game clearly belonged to the victors, but in the early stages of the second quarter, the Sun played very well. Trailing, 9-3 as the period opened, the Sun players dropped in a couple of fine shots, to reduce the score to 9-7. North East again went well ahead, but the Sun played a reasonable game after that.

While the basketball season found the Sun defeated in all league games, it is nevertheless successful for the school. It is the first time basketball has been played at R. S. H. S., so the season was fairly successful.

—Robert Rands

of science offered in Rising Sun, but this course has its purpose. Nowhere are the subjects taken up from exactly the same point of view. Also it forms a foundation for later work in science. The chemistry taught in general science, for example, should help the pupil in his understanding of biology, which is taught in the second year.

The general science class is divided into two sections. Formerly Mr. Prettyman taught one and Mr. Hovermill the other, but now our new teacher, Mr. Shingler, teaches both sections. —Dorothy Rands.

## Her Loveliness Never Faded

Evangelist John Moses Baker

Baltimore, Md.

Author Of Good Wife Heaven's Gift To Man

Her loveliness never faded,  
But was fair and bright to me,  
As the day we set sail together  
Out over life's beautiful sea.

Her voice just the very sweetest,  
In the evening time of life,  
As it was in the early morning,  
When she first became my wife.

The heart that loves truly, loves on  
evermore,  
And the sunshine as fair and as  
bright;  
Time cannot make any changes,  
As we near the harbor of light.

Some day, in that beautiful city,  
When the last battle's fought and  
won,  
And the words of the blessed Master  
Faithful servant,—Well Done.

Our eternal career in glory,  
Around the great white throne;  
No parting words will ever be  
spoken,  
In heaven, our blessed eternal  
home.

### CHRISTIAN SCIENCE SERVICES

"Matter" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 20.

The Golden Text will be from Psa. 114:7: "Tremble, thou earth, at the presence of God of Jacob."

Among the citations comprising the Lesson-Sermon will be the following from the Bible, Rev. 10:1: "And I saw another mighty angel come down from heaven clothed with a cloud; and a rainbow was upon his head, and his face was as it were the sun, and his feet were pillars of fire."

The Lesson-Sermon also will include passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, among which is the following, page 584: "The objects of time and sense disappear in the illumination of spiritual understanding and Mind measures time according to the good that is unfolded. This unfolding is God's day; and 'there shall be no night there.'"

A car is a menace if it has too much power for its size. This is also true of a man.

Every man is supposed to know his own business, but it is often hard to convince his friends that he does.

### THE MARIJUANA MENACE

Recent reports of the U. S. Commissioner of Narcotics, Mr. H. J. Anslinger, call attention to the rapid increase in the use of marijuana (hashish), a weed which is being secretly cultivated in many parts of the United States.

The destructive effect of the use of this narcotic, said to be used in the manufacture of some brands of cigarettes, is to release the base impulses and desires from those moral controls and inhibitions developed in the civilized man.

Education regarding the deleterious effects of this dangerous drug is urged by Commissioner Anslinger. Many stress the importance of stricter state laws prohibiting the production and use of marijuana and more stringent federal laws to prevent its production and use.

It is feared by some that the increased use of weed narcotics will lead to the establishment of laws in the United States similar to those enacted to control the manufacture and sale of alcohol; i. e., laws based on taxation of the drug for revenue purposes.

No man can make a fool of himself all the time. He has to sleep occasionally.

If ignorance is bliss it is some-time wise to be foolish.
