

Frances Fedden, attractive Bronxville, N. Y., artist's model, is the 1941 Red Cross poster girl. Thousands of posters like the one pictured above have been distributed throughout the country calling attention to this year's Roll Call membership appeal. Painted by Bradshaw Crandell, prominent New York Illustrator, the poster carries a national defense theme, portraying the active part being taken by the Red Cross in serving the armed forces.

## RED CROSS AIDS ARMY MORALE

Red Cross workers are on the job in all Army and Navy camps and stations throughout the country to assist in the important task of maintaining morale. Above, an Army filer leaves unfinished personal matters for the Red Cross field director to take care of while he embarks on an emergency flight across country. The Red Cross is the official means of communication between service men and their families back home.

Garbage Feeding an Industry

An agriculture venture of which little is known has gradually grown into being in this country in the past one. few years. This is the garbage feeding of hogs. This industry flourishes in the more populous cities and near there are about 1,500,000 garbage- favors. fed hogs being marketed yearly in this country. About half of this half are finished with more or less | are a lady. grain. While garbage-fed hogs are not comparable to grain-fed hogs, they do, when finished make good garbage cooked, mixed with some grain and before the hogs are ready to market some three weeks, will finish off on a heavy grain ration. This type of hog will hang up as solid as the average hog but when America. he does not finish on a good grain ration the pork does not set up and harden and is much disliked by the dealer.

See the lady who always forgets her bag or umbrella. She is the one who can tell you how she played to each hand last night.

# Trifling Wounds Cause

Nine out of every ten cases juries so small that they seem too loosen it. unimportant to warrant medical attention, Lois Mattox Miller, New York, warns in Hygeia, The Health Magazine.

"Every year," she says, "largely as a result of inattention to pin pricks, trivial cuts and scratches, splinters that hardly hurt, thousands of Americans lose their lives, and thousands more lose hands, legs, arms or fingers."

If proper precautions are taken, the great majority of such infections can be prevented, the author says. She offers these suggestions:

"Respect any break in the skin, and close the door to bacterial infection as soon as possible.

"There are many disinfectants. One of the best, if the bruise not too extensive, is tincture of hereafter." iodine. Choose the antiseptics well, a physician should be advised immediately."
