recognize the institution of Slavery as a part of its social system; and expressly pretermitting any expression of opinion upon the power of Congress to establish or prohibit slavery in any Territory, it is the sense of the National Council that Congress ought not to legislate upon the subject of Slavery within the Territories of the United States, and that any interference by Congress with Slavery as it exists in the District of Columbia would be a violation of the spirit and intention of the compact by which the State of Maryland ceded the District to the United States and a breach of the National faith.

XIII. The policy of the Government of the United States, in its relations with foreign Governments, is to exact justice from the strongest, and to do justice to the weakest; restraining by all the power of the Government all its citizens from interference with the internal concerns of nations with whom we are at peace.

XIV. This National Council declares that all the principles of the Order shall be henceforth everywhere openly avowed; and that each member shall be at liberty to make known the existence of the Order, and the fact that he himself is a member; and it recommends that there be no concealment of the places of meeting of subordinate Councils.

E. B. BARTLETT, of Kentucky
President of National Council.
C. D. DESHLER, of New-Jersey, Corresponding Secretary.
JAMES M. STEPHENS, of Maryland, Recording Secretary.

PROTEST OF NORTHERN DELEGATES.—The following protests of Northern Delegates were laid before the Convention.

The undersigned, citizens of the United States, and residents of the States set opposit their names, solemly protest against the introduction of any question connected with Slavery into the platform of principles of the American party—being convinced that no such issues were intended to be embraced within its purposes and objects.

That we believe in and shall defend the right of freedom of opinion and discussion on that and every other subject not intend to be embraced with the design of our organization.

That if the question of Slavery is to be passed upon and made a part of our national creed, then in that event we cannot consistently act with the fidelity to our principles and former professions with any national organization whose action on the question of Slavery will result in endorsing the Kansas-Nebraska Act, and which refuses its sanction to the principles of the Missouri Compromise Act of 1820. That we believe that time-honored compact was an honorable and fair adjustment of the question of Slavery. We desire to place protest upon the journals of the Council, that in no future time the undersigned may be charged with infraction of express or implied faith to their fellow-members in failing to support the majority resolutions.

W. F. Johnson, Penn., J. Bowman Bell, Penn., D. E. Small, Penn., R. Coulter, Penn., John A. Prichet, Ill., A. S. Livington. N, J., Joseph H. Barrett, Vt., Horace Kinsley, Vt., R. M. Guilford, Vt., Evelyn Pierpont, Vt., George D. Hatch, Vt., Richard Clemens, Del., E. S. McClellan, N. J., W. D. Dandanhower, Ill., David B. Brook, Conn ,

The undersigned Delegates, representing the Council of the State of Indiana, respectfully protest against the platform adopted by the National Council at its present session, and beg leave to say that in regard to the measure known as the Kansas-Nebraska bill, those within the Council of the State of Indiana, nor the people, have awaited the action of the National Council in order to form their opinions.

Their opinions have been formed and avowed. An issue has been made with their political antagonists, and the soundness of those opinions tested in public debate and tried at the ballot-box. The edicts of the National Council, however canonical they may be, will be powerless to change those opions or to reverse the action of the people of Indiana. Alwsys conservative in their opinions and actions; always mindful of the Compromises of the Constitution of the United States; ardently devoted to the American Union, they will see with regret the promulgation of a platform by this body which can have no other effect than to increase the fury of the conflagration which the passage of the Kansas-Nebraska bill has lighted up.

The undersigned respectfully express their deliberate conviction that immediately upon the publication of the platform adopted the Order in the State of Indiana will cease to acknowledge the authority of the National Council; and they respectfully ask that this protest may be received as a terminotion of their duties as delegates from that State.

James R. M. Bryant, J. S. Harvey, T. D. Allen, Godlove S. Orth, Thos. C. Slaughton, Schuyler Colfax, Will Cumback.

At the meeting at Jone's Hotel, Henry Wilson of Massachusetts was appointed Chairman, and H. M. McAbee of Ohio chosen Secretary.

Great unanimity of feeling was expressed and a determination manifested to appeal from the Council to the people in behalf of right principles.

The following Address was submitted, signed by the delegates present and ordered published to the Nation:

APPEAL TO THE PEOPLE.

To the People of the United States:

The undersigned, citizens of various States, assembled at Philadelphia on the 14th day of June, 1855, feel constrained under the existing state of affairs to affirm the following principles:

First: The unconditional restoration of that time-honored Compromise, known as the Missouri Prohibition, which was destroyed in utter disregard of the popular will—a wrong which no lapse of time can palliate, and no plea for its continuance can justify. And that we will use all constitutional means to maintain the positive guarantee of that compact, until the object for which it was enacted has been consummated by the admission of Kansas and Nebraska as Free States.

Second: That the rights of the settlers in Territories to the free and undisturbed exercise of the elective franchise guaranteed to them by the laws under which they are organized, should be promptly protected by the National Executive whenever violated or threatened. And that we cannot conscientiously act with those who will not aid us in the correction of those National wrongs and who will not even permit their fair consideration and their full discussion.

Third: We further declare our continued and unalterable determination to use all honorable efforts to secure such a modification of the Naturalization laws, aided by such an elevation of public sentiment as will guarantee the true interests of the Nation, and will guarantee the three vital principles of a Republican Government:—SPIRITUAL FREEDOM, A FREE BIBLE and FREE SCHOOLS—thereby promoting the great work of Americanizing America.

Fourth: That we invoke the arm of legislation to arrest that growing evil, the importation by foreign authorities of paupers and convicts to our shores; and that, as our National Constitution requires the Chief Executive of our country to be of native birth, we deem it equally necessary and important that onr Diplomatic Representatives abroad should also possess no foreign prejudices to bias their judgmeut or to influence their official action.

KNOW-SOMETHINGS AT CLEVELAND.

We gave last week in a telegraphic an account of the meeting of the Convention of this Order at Cleveland, says the N. Y. Tribune.

On Thursday, the 14th, a Constitution was definitely adopted for the government of the Order as well as the platform of principles. The preamble of the latter asserts that the servility to the Slave Power, the characteristic of existing political parties, is perilous to manhood, to the best interests of the North, and to the liberties of the Republic:

The first resolution declares that the issue before the American public is whether Freedom is to be limited to Free States or Slavery to Slave States.

Second: That issue has been forced upon the country by Slave Power aggressions.

Third: That these aggressions, and especially the Nebraska outrage and the assault upon the elective franchise of Kansas, have aroused the freemen of the Republic, and that they will maintain their rights and resist the additions of Slave territory.

Fourth: That they will maintain the nationality of Freedom.

Fifth: That the friends of Freedom should make principles, not birthplace, the test of admission to citizenship.

Sixth: That we will repel every ecclesiastical interference in political affairs by potentate, pontiff or priest, as destructive of the right to worship God according to the dectates of conscience and of liberty.

Seventh: Recommends action in several States for the promotion of Temperance.

Eighth: Agreeing to support free schools, free labor and harbor improvements.

Ninth: To strive for the election of men of integrity, and with nerve to resist aggression of any kind.

Tenth: For these objects we are ready to unite with all men under any name or organization to aid in carrying into operation these principles.

ARRIVAL OF THE BALTIC.

NEW YORK, June 28—12 30, A. M.—The steamer Baltic has just fired her guns off the Battery. The Sandy Hook line being out of order, prevented the transmission of our usual dispatch from that point.

The Baltic brings dates to the 16th inst. her regular day of sailing.

The English papers contain telegraphic details of the recent successes of the allies before Sebastopol. The French, as before stated, captured the Mamelon and White works of the Russians, after most sanguinary fighting. Five thousand men were killed and wounded.

The French took sixty-two guns and 500 prisoners, and their new position enables them to shell the shipping in Sebastobol harbor. Simultaneously, the English stormed and took the riflemen's works in the quarries, but they lost 500 men in killed and wounded. Since then the firing has been slack.

The allied fleets have achieved new successes in the Sea of Azoff, and have burned the Russian stores at Tagaurog, Manopol and Genetsick.

A boat expedition was being fitted out against Perekop.

The Russians are reported to have evacuated Anapa.

Private letters from Kertsch give fearful accounts of the sufferings of the Russian army as well from wounds as sickness.

The Russians are said to have obtained communication with the Crimea independent of the road from Perekop, by constructing a bridge of boats across the Loresche.

FROM THE CRIMEA.—Correspondence down to the 4th, represent the weather as being excessively hot, and all accounts agree that there is a vast amount of disease and despondency in the garrison of Sebastopol.

LATEST BY TELEGRAPH— Dantziz, June 15.—The steamer Vulture has arrived with dispatches. She left the Baltic fleet on the 11th off Constradt. On the 6th the Russians fired on a boat bearing a flag of truce, and 16 English sailors were killed.

MARKETS—Liverpool, June 15th, Friday.—Cotton—The market is quiet at last weeks quotations.

The markets for breadstuffs is dull, and prices have considerably declined. Wheat is 3 to 4d lower; Flour is 1a2s lower and Corn has declined 6d to 1s. Holders, however, did not evince a willingness to accept these figures.

ACTION OF THE NEXT CONGRESS ON THE NEBRASKA BILL

The New York Journal of Commerce estimates that 100 members are already elected to Congress (or to be elected from the South) opposed to the repeal of the Nebraska bill, and but 18 more are needed to make a majority against touching it. We quote:

"It is not impossible, nor very improbable, that this number will be found, (among the 134 members not included in the above calculation,) who will oppose repeal, although some of them voted against the bill on its passage. In other words, it is by no means certain that a bill to repeal the Nebraska law can pass the House. But if it should, it will be defeated by a large majority in the Senate. And before a new Congress is elected, Nebraska will probably be knocking for admissien into the Union as a State."

THE PRINCIPLES.—We have already alluded to the prosition by the London Times to erect the principalities in to a distinet kingdom, with the object of forming a perpetual barrier against the march of Russia upon Turkey and Prussia. The London News alludes to the project more in detail. It consists in the erection of a chain of nationalities along the northern shores of the Black Sea, which shall rest at the west on Hungary, and at east on the Caspain Sea, and for ever perpetuate the sentiment of liberty, and of hatred of Muscovy, and prove a species of Chinese wall to the kingdoms and waters lying to the south of them.—However pleasing to the pride and maritime supremacy of England such a consummation of the present strife would be, the calm and dispassionato student of history and geography must regard it as altogether visionary and impracticable.

THE EASTON STAR.

By Thomas K. Robson.

EASTON, MD.

TUESDAY MORNING, JULY 3, 1855.

☞ DEMOCRATIC MEETING. ☜

In pursuance of the call of the State Central Committee, the Democratic voters of Talbot are respectfully requested to assemble in county meeting at the Court House, in Easton, on the 24th of July inst., at 2 o'clock, P. M., for the purpose of selecting three Delegates to represent this county in the Democratic State Convention which meets in Baltimore on the 16th day of August next, to nominate candidates for Comptroller and Lottery Commissioner to be voted for at the next November election. A punctual attendance of every voter is earnestly requested.

☞ Answer to the Enigma that appeared in this paper on the 19th ultimo:—"The Easton Star."

☞ "Ida's" ever welcome contribution is unavoidably crowded out this week, but shall appear in our next.

HARVEST.—Our farmers are now in the midst of their harvest, and we are gratified to learn that the crop of wheat will be much larger than it was supposed it would be at one time this season.

PUTNAM'S MONTHLY for July is received. It is replete with excellent articles. Now is a good time to subscribe, as the July number commences a new volume. Price $3 a year. Address Dix & Edwards, N. York.

☞ The Know Nothing Legislature of New Hampshire is about to pass a "Personal Liberty Law," similar to the one passed by Massachusetts. What more could be expected from a body that has just elected Jno. P. Hale to the U. S. Senate.

DEMOCRATIC VICTORIES.—Since our last we have received election returns from *San Francisco*, California, *Norfolk*, Virginia, and *N. Orleans*, in all of which places the K. Nothings have been woefully defeated, although they carried them a year ago by overwhelming majorities. "Sam's" race is evidently nearly over.

FINE WHEAT.—We have been shown a sample of Wheat grown by Thos. C. Nicols Esq., near Easton, which has the largest grain we ever saw. He calls it the *Bordeaux* wheat, from the fact that it has been raised from a quart that was brought from Bordeaux, France, by Mr. B. B. Richardson. It weighs very heavy and is nearly as early as the Alabama Wheat. Mr. Nicols raised this year about 125 bushels which he is selling at $3 a bushel for seed wheat.

THE FOURTH.—To-morrow is the glorious Fourth of July, the Anniversary of our National Independence, a day that should forever be enshrined in the hearts of all lovers of Republican freedom. Coming this year in the midst of our harvest, the season is too busy to allow any arrangements to be made in this county, to celebrate it in a becoming manner. However, we presume that business will be suspended in the towns, and the day observed as usual as a holiday. As appropriate to the occasion, we publish this morning on the first page, the original "Yankee Doodle," a song that has become classic from its revolutionary associations.

MANSLAUGHTER IN CAMBRIDGE.—An unfortunate affair occurred at Cambridge on last Tuesday night, which resulted in the death of Mr. John Bradshaw, Jr.—The facts are reported as follows—a young man named Willson and another man got into a quarrel about something—Bradshaw took up the quarrel and knocked Willson down and closed in on him, when Willson out knife and cut himself loose from him; Bradshaw being stabbed mortally in three places, and did not live over five minutes. Willson immediately surrendered himself to the officers of the law. He is represented as a very peaceably disposed and inoffensive young man, while the deceased is reported as extremely overbearing, especially when he had been drinking, as was the case on the night of the affray.

DEMOCRATIC MEETING.—It will be seen by a notice in this morning's paper, that in pursuance of the action of the Democratic State Central Committee, calling a State Convention to meet in Baltimore on the 16th of August, the Democracy of Talbot are requested to assemble in county meeting at Easton on the 24th inst. to appoint three delegates to represent this county in said convention. We sincerely hope that every democrat in the county will attend the meeting on the 24th, and show by his presence that he not only opposes the anti-republican doctrines of the Know Nothings, but is prepared to do battle in defence of the time-honored principles of the Democratic party. Never has there been a time since the adoption of the Federal Constitution, that required more firmness or activity on the part of the Democracy, to preserve the Union of the States—and the spirit of our free institu-

[redacted]

Union. Give the Know Knothings the control of both Houses of Congress and the Union will be destroyed or the South outraged and disgraced. The only preventive of this calamity is to be found in the conservatism of the Democratic party, which is sound on the Slavery question alike at the North as at the South. We ask our readers to look the subject calmly in the face and to judge for themselves.

ATTENTION WHIGS—The following communication we clip from that good old *Whig paper*, the (Annapolis) *Maryland Republican*. From the introductory remarks of the editor we suspect the artiole is from the pen of Senator PRATT. It is a little strange that our neighbor of the *Gazette*, who says he is "a Whig as long as there is a Whig party," instead of publishing this call for a Whig State Convention, should suppress the article and attempt to throw cold water on the whole movement in his editorial columns. What will the Whigs of Talbot say to this apparent desertion of their cause by one who is regarded as "the strictest of the strict" as a partisan whig? Oh, no, the Gazette cannot think of making a fight when "some of its most prominent leaders and party presses are actively engaged in the support of another party!" In other words, so prevalent is the spirit of desertion in the Whig ranks at this time, the Gazette feels like deserting its colors also! The editor has a holy horror of a unison of Whigs with Democrats, to arrest the assaults which are being made upon the constitution and our national character, and the domestic peace of the South, but has not the slightest objection to affiliate with K. Nothing Democrats, if such a contradictory term may be used to designate those who have deserted the Democratic party to play second fiddle to the Whigs, who compose a large majority of the Know Nothing Councils. We hope the editor of the Gazette will be selected a delegate, and afforded and opportunity to answer to the Convention, whether his "striking his colors" is "the result of craven timidity or interested treachery."

[From the Maryland Republican].

WHIGS OF MARYLAND.

The following Communication has been handed to us by a distinguished Whig who has represented Maryland in the State and National Councils, and who, like many of her bright ornaments of the old Whig party, is unwilling to forsake the banner under which the venerated CLAY fought so gallantly, and to join the ranks of the enemies of civil and religious liberty:

MESSRS. EDITORS—Will you give insertion to the following proposition

TO THE WHIGS OF MARYLAND.

It has been proclaimed from various quarters, and through various papers having hitherto Whig sympathies, that the Whig party of the Union has no longer existence—that such is especially true of that party in Maryland. I have never learned upon what specific authority, or by what general consent, this announcement of dissolution has been made.

As one of the members of that political firm, I am ignorant of any authorised disruption of an association, approved to me, by every sanction of feeling and judgement, and endeared by the memory of an earnest co-operation of years.

If it be dead, there was enough of good in its elements to deserve the notice of appropriate funeral ceremonies—if it merely slumbers a crisis has arrived demanding the re-awaking of all its energies.

With a view to the ascertainment of its actual condition—whether it be in fact dead, or whether there yet remains enough of vitality to promise efficiency in an active re-organization, I propose, that the Whigs of the several counties of the State meet in primary assemblage on some day in July, and appoint delegates to a General Council to be held in Baltimore on the 23d August next.

If it should be deemed proper to continue our party organiztion the interval before the election will be sufficient for every rrangement. If we are to disband, we hall, at least know that the act of striking e colors that have waved gallantly over any a hard fought field, was not the relt of craven timidity or interested treache-

Certain Cure for Erysipelas, HOLLOWAY'S OINTNT AND PILLS.—Remarkable instance of the icacy of these Medicines.—Charles Martin, Anony-street, New York, was afflicted for three ars with this disease, large blotches, purple, me out on his face, and different parts of his dy, which very much irritated the system, and us caused a derangement of his general health, hough he tried many reputed remedies, nothg would cure him. Five weeks ago, he brought quantity of Holloway's Ointment and Pills, and has just informed Professor Holloway, that he perfectly cured, and his face and complexion e as clear as possible.

In this town, on Wednesday morning last, ATE M., eldest child of J. B. and Susan Bentt, in the 6th year of her age,

Why mourn her departure. Ere life's corrupons had touched her youthful heart she passed om us to a happier world. The silent watchers at beside her couch unconscious of the spirits ight; a placid smile alone marked its departure. But one there was who saw its icy touch, and with pensive heart she yielded up her child. Oh sorrowful sight! A mother's affection thus laid in death. But the grief stricken one has hushed her wailings: her eyes are lifted to Heaven. She sees her little one welcomed to her Saviour's breast, "for of such is the Kingdom of Heaven." Then why mourn her loss? her welcome voice may no longer cheer thee, her presence may be lost from thy fireside, but she yet lives—a spirit in Heaven.

"Yet though thou wearest the glory of the sky,
Wilt thou not keep the same beloved name,
The same fair thoughtful brow and gentle eye
Lovelier in heaven's climate, yet the same."

THE DIAMOND LIGHT OR SYLVIC OIL, FOR BURNING.—The subscribers invite the attention of the public to the introduction of the above celebrated Light and Oil. For ECONOMY, SAFETY, and COMFORT, it defies competition—burns STEADILY and BRILLIANTLY, and is easily regulated. For family uses, for reading and sewing, the public has never seen its equal.

The Lamp is of a peculiar construction, recently patented, and in which nothing else can be made to burn. It is intended to be STATIONARY, and burns with a chimney either as a side lamp, or a parlor or hall lamp. The public may rest assured that this is a real and fixed Oil, and NOT EXPLOSIVE, costing 62½ cts. per gallon, and when burning not over ¾ cent per hour.

A supply of Oils and Lamps just received, which they would be happy to exhibit. Terms CASH. S. MACKEY & SON.

TO THE FARMERS.

THE trial and exhibition of Atkins' Automaton or Self-Raking Reaper and *Mower*, was had on the day named above, in the field of Mr. M. T. Goldsborough, where the spectators witnessed not only the beautiful work of said Machine, but had an opportunity to compare it with one of Hussey's, in complete order, worked by accustomed hands, and I learn the new one was the favorite. Therefore owing to the lateness of the harvest I shall send on the 3rd of July, 3 Reapers to Oxford, (besides the two engaged since the trial) marked 1, 2, & 3—and any Farmer can send and take one, and with the Machine, a printed bill to show how to put it together and work it. Any one taking a Machine will learn from *Mr.* Richard Willis, Oxford, where Mr. Sparks the agent to operate, can be found—he will be in Oxford for one or two days. I shall require any one getting a machine to leave for me with Mr. R. Wills, at Oxford, a note to say they have under this advertisement taken one of the reapers, and expect to pay for said Reaper as others do, who have used them through my Agency.

LIGHTNING RODS.

THE subscribers having purchased the exclusive right for Talbot, Queen Ann's and Caroline counties for putting up SPRATT'S PATENT IMPROVED LIGHTNING RODS, are now prepared to put up Rods to order in the most approved manner. Spratt's Lightning rods are acknowledged by the first scientific men of the country, to be the best and safest that was ever invented. All other rods are giving place to the Improved Patent Rod. Its superiority consists in the peculiar manner of its connection—its triangular points with platina tips—and its perfect insulating media between the rod and the house. The subscribers will visit any part of Talbot county and put up rods at the shortest notice. All orders left with Mr. Hugh Marshall, at the Union Hotel, Easton, will be promptly attended to. We shall make a tour of the county during the present month (July) when we shall be pleased to wait on persons in want of Rods.
