IMPROVEMENT.

SAVE THE HARD LABOR OF MOWING.

MANNY'S

Reaping and Mowing Machine with Wood's Improvement.

After the experience and contests of the last harvest, it is announced with entire confidence, that this Machine is the best combined Reaper and Mower, and the best Single Machine for either purpose now in use.

Its superiority has been attested in the following points among others: Its simplicity of construction; its perfect adaptation to uneven surfaces, adjusting itself to all inequalities of the ground; the facility with which, by means of a lever at the driver's seat, it can be raised to cut to the height of fifteen inches when moving along; its easy method of changing from Reaper to Mower, and vice versa; its perfect cutting apparatus, which enables it to cut all kinds of grass without clogging; its lightness of draft, and freedom from side draft, and the facility with which the grain can be discharged from the platform. On all these points, which are of great importance, I have the evidence of the most intelligent farmers in the New England States, New York, New Jersey, the Western States, Kentucky, Tennessee, Virginia and Maryland, who have seen the different machines operate that have any claim to success, that Manny's machine excels all others. From its structure it can be easily worked, in reaping any kind of grain, or mowing any kind of grass, with two horses, and cut from ten to fifteen acres per day. It has been used through such a wide range of country at the North, and in the West and South, that its capacity and completeness for the harvest in every section is fully tested and proved.

In confirmation of this, there is an accumulation of testimony that would fill a volume. Fom these numerous testimonials the following letters and notices of trials are selected, as they have been furnished to different manufacturers and agents.

CHURCH HILL, Md. Oct. 27, 1855.

Mr. Walter A. Wood,—Dear Sir:

The combined reaping and mowing machine you sent me the past season, although received at a very late date, surpasses my expectations. I sold a number of them; they gave perfect satisfaction. I have used Hussey's, Ketchum's, McCormick's, Burrall's, and have seen Atkin's Self-Raker work, and I must say, I can do more work and do it better, and do it with less labor with your manhine than with any machine now in use. I would say to all farmers who are in want of a combined machine, to purchase one of Manny's Patent with Woo's Improvement, by all means. It can be moved from field to field with as much ease as your wagon can.

Yours respectfully,
J. H. EVANS.

WEST RIVER, Md. Nov. 7, 1855.

Mr. Walter A. Wood—Dear Sir:

I have used one of your combined reaping and mowing machies the past season. Its easy draft, together with the admirable adjusting principle, are items of great consideration.—Twenty seconds is sufficient to convert it from a reaper to a mower, and vice versa. The driver has full control of the machine, to raise and lower it at his will, with lever power, and while the machine is in motion. The advantage is invaluable in cutting lodged Grass or Grain. Your reaper will cut on all sides of a piece of Grain, wet or dry, superseding the necessity of carrying swaths, or stopping half an hour to raise or lower by bolts; is the case with other reapers. I consider it the best combined Machine now in use.

Respectfully yours,
CHARLES C. STEWART.

Much has been said about the award of the Grand Gold Medal of Honor at the Great French Exhibition at the Paris and while we would not undervalue the good opinion of foreigners, we do not attach the highest importanse to these holiday exhibitions, or to the patronage of Princes; our appeal is to the Nobility of our own country—the Farmers, the Princes of the soil. One good honest word of commendation from them, one shout of applause ringing from the American hervest field, and mingling with "the merry song of reapers," is worth more to use than the awards of Foreign Juries, or the glitter of Gold Medals;—

But we assert that even at these trials, as a Practical Working Machine, Manny's reaper and Mower bore off the palm; and, to put the question to rest we quote the following from an imperial account given of the trials, at Trappers, by the Paris Moniteur the Government Official Organ, of the date of August 23d, 1855 which says, "The Machines of McCormick & Manny are the great rivals—the construction of Manny's is more perfect and must be superior, but McCormick is the original inventor of the system."

In order to cut clover the machine must be changed from reaper into Mower, it is necessary to take the automation of Atkins from Wrights' and the platform fom all the Machines. Wrights' requires twenty-five minutes to marke the change McCormicks' ten, Manny's one minute only.

Order early, if you wish to secure one of Manny's reapers and Mowers, as the demand for the coming harvest is unprecedented. The Machines will be built of the best Eastern Oak and Ash, and of workmanship to excel any heretofore seen in this class of machinery; and the Farmers may be assured that they will be complete and perfect in all respects. Warranted to cut in a workmanlike manner from 10 to 15 acres of Grass or Grain per day.

A BEAUTIFUL FARM FOR SALE.

THAT valuable farm belonging to the late Dr. Theodore Denny, situated on the Dover Road, one mile from Easton, containing

230 ACRES:

About 200 of which is arable, also containing some fine meadow lands, with an inexhaustable supply of marl.

It has on it a good sized one story BRICK DWELLING HOUSE and all necessary out buildings.

This farm may be made a very valuable market farm, as the Maryland & Delaware R. Road will pass over one corner of it, cutting off about one-half an acre, and about where the Easton depot will be situated; thus bringing it within 3 or 4 hours ride of Philadelphia.

Easton, the county town of Talbot, is one mile distant, and the best market for country produce on the Shore, contains 2000 inhabitants; a Protestant Episcopal, Methodist Protestant, Methodist Episcopal, and Friend's Churches—a Male and Female free school; an Academy, with Classical and English Departments; and a select female school.

We have a daily communication between this place and Baltimore, by steamboats, (except Sunday,) a daily mail from Baltimore via Elkton, and after the 1st of July next, a daily mail from Philadelphia via Delaware R. R. from Dover.

For terms of sale and any other information in regard to said farm, apply to the subscriber, at Easton, Md.

SAMUEL HARPER, Agent,

FARM FOR SALE.

HAVING determined to quit farming and engage in other business, I will sell my farm, called the "Garden of Eden," situated upon the Great Choptank River, six miles below Cambridge, and adjoining 'Horn's Point,' the estate of the Hon. Wm. T Goldsborough. If I don't sell at private sale previous to

MONDAY, 16TH OF JUNE NEXT,

I will on that day, sell it at the Court House door, in Cambridge at public sale, at 2 o'clock P. M. This farm contains about

440 ACRES

OF LAND, about 300 of which are arable and divided into four fields, and now in a high state of cultivation. The balance in WOOD AND TIMBER, is ample for the use of the farm. The buildings including every kind necessary for a large and productive farm, have all been recently erected by myself at great expense.

The DWELLING is a two story, 44 by 34 feet, and containing eleven large and comfortable rooms, with an airy basement below, and an observatory on the roof, and has a pump of good water at the door.—There is also a young ORCHARD of choice fruit trees just beginning to bear. Rarely indeed is a farm offered for sale combining so many advantages of situation, neighborhood and fertility of soil on salt water.

I can be found at any time in Cambridge, and will take great pleasure in showing the premises to persons wishing to see them, which will be much more satisfactory than any tedious description. A liberal credit will be given upon the most of the purchase money.

PARTICULAR ATTENTION PAID TO ORDERS

SASH & PLANING MILL,

Port Deposit, Cecil county, Md.

WE, the undersigned, have rebuilt our Factory, and are now in full operation. Our buildings are Fire-proof and our Machinery of the latest improved patterns.

Owing to our advantages in improved machinery, situation of our Factory, (being at one of the largest Lumber markets in the United States,) and our arrangements for purchasing Lumber and Material from first hands we think we can offer inducements passed by no other Factory. We earnestly solicit the attention and extend our invitation to all Builders, Carpenters, &c., to give us a call and examine our work and prices before purchasing elsewhere.

We manufacture to order and keep on hand Frames of all kinds and sizes, such as Door Windows, Sidelights, &c. Doors, Sash, Shutters, Blinds, Inside Blinds, &c., Washboards, Archotreves, Mantles, Wing Mouldings, of all patterns in use. Bracelets and all kinds of scroll Sawing and Turning to order.

Our work is of the very best material, well seasoned, as we make no second class work. We have for sale, dress seasoned Flooring of all kinds, such as Yellow Pine, Norway, White Pine and Hemlock; Weather-boarding faced jointed and rabbitted.

We have on hand and for sale, a very large stock of Hardware, for Houses; Carpenters Tools, Paints, Oil and Window Glass, of all kinds, purchased from the manufacturers, and sold at city prices. We furnish Sash Primed and Glazed, in the best style and at moderate prices. Work primed if wanted.

COACH MAKING.

THE subscriber (surviving partner of Anderson & Hopkins,) takes this method of informing his friends and the public generally that he has taken the shop, stock, &c., of the late firm, and will hereafter carry on the Coach Making business in his own name. From his long experience in the business he flatters himself that he will be able to give general satisfaction, and hopes by a prompt and faithful attention to business, to merit a continuance of that favor and patronage which have heretofore been so liberally extended toward him.

He is prepared to manufacture Carriages of all kinds to order, in a very superior manner, at short notice, and on reasonable terms. Repairing also executed with neatness and despatch.

He has now on hand and ready for sale a fine assortment of Carriages, Harness, &c., both new and second hand, of various patterns and finish, which he would respectfully invite the public to call and examine.

Orders from a distance punctually attended to, and all new work warranted for 12 months.

A VALUABLE FARM For Sale.

THE subscriber desires to sell the farm on which he now resides. This farm which is known by the name of "Cedar Point," or "Maynard's Point," is beautifully situated on the waters of Broad Creek, abous 5 miles from the Royal Oak; and contains

195 ACRES

OF LAND, more or less, including a sufficiency of woodland.

The soil is good, is easily improved, and the resources of manure are abundant.

It has on it a good comfortable FRAME DWELLING HOUSE, and every necessary out-building. The situation is exceedingly healthy, and the neighborhood is excellent.

For further particulars, and for terms of sale, inquire of, or address

THEO. P. HARRISON,
