DO YOU WANT MONEY?

IF YOU do, buy the *LAWTON or NEW ROCHELLE BLACKBERRY PLANT*. It is a distinct variety, hardy, vigorous, and prolific. One stalk or cane will yield from 4 to 8 quarts of berries, of mammoth size, say an inch and a half in diameter, and selling "like hot cakes" at 25 cts. per quart. An acre will easily grow from nine to ten thousand quarts, worth about $2000 per annum!

Drew & French 85 Barclay street, N. York, general agents for George Seymour & Co., South Norwalk, Conn., have appointed Howard Meeks their agent for Delaware & Maryland for the sale of these valuable plants.

Orders with cash, addressed to him at Hanesville, Kent Co., Md., will be promptly attended to.

Pamphlets with directions for culture sent, if applied for. November and April are the months to set them. Price $20 per 100—$11 per 50—$4 per doz. $2.25 per half dozen.

HEALTH OR SICKNESS.

☞ Choose Between Them.

HOLLOWAY'S PILLS.

THE blood nourishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ; when corrupt, it produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

USED THROUGHUT THE WORLD.

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race, and in disorders peculiar to certain climates and localities.

ALARMING DISORDERS.

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives, in all cases, however aggravated, acting as a mild purgative, alterative and tonic; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

General Weakness—nervous Complaints!

When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

Delicate Females,

All irregularities and ailments incident to the delicate and sensitive organs are removed or prevented by a few doses of these mild, but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

Scientific Endorsements.

The London "Lancet," the London "Medical Review," and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma,	Diarrhoea,
Bowel Complaints,	Dropsy
Coughs,	Debility
Colds,	Fever and Ague,
Chest Diseases,	Female Complaints
Dyspepsia	Headache
Indigestion	Stone and Gravel,
Influenza	Secondary Symptons
Inflammation	Venereal Affections
Inward Weakness	Worms, of all kinds,
Liver Complaints,	Lowness of Spirits, Piles.

⁂ Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 224 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes, at 25 cents, 62½ cents; and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

A BOTTLE OF Good Medicine For the Afflicted.

—USE—

BENNETT'S EMBROCATION, *for Pains in the Face, Back, Breast, and Side; for Rheumatism, Neuralgia, Burns and Scalds, and for Fresh Wounds and Old Sores.* This Embrocation as a Liniment for these diseases cannot be surpassed, and numerous cases are known of rheumatic and neuralgic affections being cured with one bathing. Physicians who know its component parts highly approve it, and use it in their practice. It is a safe and sure remedy; and, being very strong, is the best thing that can be used for horses; and no owner of this noble animal after once using it will ever be without it. *Price,* 25 and 50 cents per bottle.

—USE—

BENNETT'S DIARRHOEA MIXTURE, *for Diarrhoea, Cholera, Cholera Morbus, and all Bowel Affections incident to warm seasons of the year.* This remedy has only to be known to be appreciated, and is the *safest* and surest medicine that can be used for the diseases named, as thousands are willing to testify. Its effects are almost *instantaneous*, and will scarcely ever fail to give immediate relief. Every family to be on the *safe side* should be prepared with a bottle in the house, to guard against sudden attacks, to prevent intense suffering, and perhaps death, when no physician is near. *Price,* 25 cents per bottle.

—USE—

BENNETT'S INDIAN OIL, *for the Growth and Beautifying the Hair, preventing its falling out, and for cleansing the head of all Dandruff and uncleanness.* This Oil is a splendid preparation, and particularly recommended to *Ladies* as a toilet article. It is oil sufficient to make the hair very soft and pliant; and a *balm* to dampen and give it a beautiful *gloss*; and at the same time will not soil any thing that may come in contact with the hair after its use. It is nicely perfumed, and withal a great hair-invigorator or restorer, and to those that are bald, or likely to become so, *it is invaluable. Price,* large bottles, 25 cents.

These preparations are made from the purest material and at considerable cost, and have been in use for several years, and have given universal satisfaction.

Three years have not yet elapsed since the establishment of this Institution, during which time upward of eight hundred students have been in attendance, (representing nearly every State in the Union,) among whom are numbers in Baltimore, and elsewhere, occupying prominent positions as business men and accountants.

COURSE OF STUDY.

BOOKKEEPING.—The Principal has the utmost confidence in assuring the public, after an experience of fourteen years, in qualifying young men for the Counting Room, and other important stations, and an extensive acquaintance with the management of business books of every description, (assisted as he is by two scientific accountants,) that the course of training in this department is eminently practical, and well adapted to the various pursuits of Commerce and Trade, including Individual Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Shipping, Steamboating, Compound, Company operations, &c., &c.

PENMANSHIP.—The exercises under this head are free, easy and graceful, combining rapidity of execution with beauty of construction, thus enabling the student to write an elegant business hand on completion of the course.

MERCANTILE CALCULATIONS.—In all their various bearings, are taught by the most accurate and expeditious method.

Daily lectures delivered upon the Science of Accounts, Mercantile Customs, &c., these, in connection with series of lectures on Commercial Law, are of highest important to a aspiring to occupy honorable positions in the business world. It is generally conceded that the plan of intruction here carried out is more thorough and practical than at any similar institution, combining as it does a the faculties for a complete business education. For terms, &c. write and receive a circular by mail. sep 18—2y

Every day in operation (up stairs) over MORTIMER & MOWBRAY'S, No. 240 Baltimore street, where a LAUNDRY has been established that the public may test its great power to do all that is claimed for it, and which no other Washing Machine has heretofore done.

We invite the Ladies to send by their servants soiled Clothing, that they may witness its operation. We will wash the articles sent—or let them wash them—so quick and thoroughly as to strike with astonishment.

PLEASE NOTICE.

That not only great labor is saved, but the Clothes are not injured as by other Machines and Washing boards; this will be apparent to all who see it in operation. It will wash *Bank Notes without tearing or injuring them.*

This wonder of the age—this great blessing to every house-keeper, is so simple in its construction that it cannot get out of order unless broken, which cannot be done in using it. Its durability has no other limit but that of the power of the wood to resist decay; it will wash one dozen pieces in two minutes in the most beautiful and thorough manner, without injury to the finest material.

In numerous instances the experiment has been tried of putting in bank notes together with shirts considerably soiled. After being washed the required time to make the shirts clean, the notes have presented no change save being made clean, and the ink a little faded.

The Machine is so easy to work that small children can take part in it; any half-grown girl of ordinary strength, however little used to labor, can do a regular week's washing, and derive great benefit from the exercise, it being of the very best kind for strengthening the arms, chest and loins.

We ask the public to call and see for themselves, as it will be impossible for all its merits to be set forth in an advertisement. One sight of its simple operation must convince the most sceptical; apart from the numerous certificates of our own citizens who have them in use.

These celebrated Machines are made in the neatest and most substantial manner; and to meet the circumstances of all, we put them at the low price of $12, cash. They will soon pay for themselves in the saving of soap, clothes and labor. Persons have done hundreds of washing with them without ever knowing a button to be torn off or broken.—All orders must be addressed to

MORTIMER & MOWBRAY, Baltimore, who alone are authorized by law, to sell them, each Machine being stamped "*Hollingsworth Patent.*"

ONE CERTIFICATE OF MANY.

From a gentleman—highly esteemed as a Chemist—as also for his other scientific attainments. Mr. B. has had the machine in use more than six months.

SYKESVILLE, Md., March 5th, 1856.

Messrs. Mortimer & Mowbray:

Gentlemen, In reply to your inquiry in regard to Hollingsworth's floating ball washing machine—I have to say the principle is certainly the best I have ever seen or used for saving of labor, clothes, time and soap—those in my family say they can wash six pieces by this machine, to one on the old plan, and not feel the labor, and have the clothes better washed,—we are perfectly satisfied with the machine, and we recommend it to all our friends. Yours, with respect,

WM. BAER.

We will send a circular with drawing of the machine on application to Mortimer & Mobray Baltimore—who will sell rights to make and sell for the counties in this State and the District of Columbia.
