IN TIME FOR COURT.

AS Court is now in session, and many persons from different sections of the county will visit Easton, the subscriber would respectfully call their attention, as also the public generally, to his extensive and unrivalled assortment of WATCHES and JEWELRY, which surpasses all his former selections, both as regards price, quantity and excellence. *He* has added a great variety of other articles to his ordinary assortment, which cannot fail to attract the attention and secure the patronage of both ladies and gentlemen, (as necessary to the toilet) if they will but give him a call, and take a look at his well-filled cases. *His* stock at present embraces such a numerous variety of articles appertaining to his business, that he deems it unnecessary to rite the patience of the reader with enumerating at this time, but will lay the collection before them in print next week, if deemed advisable.

His selection of **FANCY GOODS**, embrace a greater variety of articles than he has heretofore presented to the public, and will be sold on better terms than they can be purchased elsewhere on the Eastern Shore. No one in want of a GOLD WATCH and its appendages can fail to be suited if they will just drop in and take a look at his superior collection of such articles. *He* has also purchased a superior article of PERFUMERY for the ladies, together with an endless variety of Fancy articles, that cannot fail to attract their attention and open their purses. This is a pleasant season of the year to go "bobbing around" occasionally, and we do not know that you can do better than to drop in occasionally at "*STEWART'S*," and take a peep at the many attractive articles he has on exhibition.

Clocks, Watches and Jewelry repaired at short notice, in the best manner and on reasonable terms.

Old gold and silver bought or exchanged for goods.

Thankful for past favors, he trusts to merit and receive a share of pubile patronage.

THE EASTON FOUNDRY *IN FULL BLAST.*

THE farmers of Talbot and adjoining counties are informed that my **New Foundry** on the front street, at the lower end of town, on the road leading to Trappe, in Easton, is now in full operation, where all kinds of casting for the farmers can be done at the shortest notice, and in the most satisfactory manner.

I have on hand, and intend keeping a full supply of the following articles:

PLOWS and PLOW-CASTINGS of all kinds; HARROWS, CULTIVATORS, &c, which will be sold *below Baltimore prices, for* CASH. As I have been at great expense to fit up a complete Foundry, I hope the farmers will give me a liberal patronage, and spend their money at home instead of sending it abroad. Nothing will be left undone to give entire satisfaction.

A MEDICAL REVOLUTION.
THE WORLD UNANIMOUS

HOLLOWAY'S OINTMENT.

THE GRAND COUNTER REMEDY

THE virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

Skin Diseases and Glandular Swellings.

Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Ointment. Angry Eruptions, such as Salt Rheum, Erysipelas, Tetter, Ringworm, Scald Head, Nettle Rash, Scabies (or Itch, &c., die out, to return no more, under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

Ulcers, ores and Tumors.

The effect of this unrivalled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

Wounds, Bruises, Burns and Scalds.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

Undeniable Testimony,

The Medical Staff of the French an English Armies in the Crimea have officially signed their approval of Holloway's Ointment, is the most reliable dressing for sabre cuts, stabs, and gun-shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Lumbago,	Scalds,
Burns,	Mercurial Erup-	Skin diseases
Chapped Hands,	tions,	Sore Legs,
Chilblains,	Piles,	Sore Breasts,
Fistulas,	Rheumatism,	Sore heads,
Gout,	Salt Rheum,	Sore throats,
Sprains,	Swelled Glands,	Sores of all

kinds, Stiff Joints, Ulcers, Tetter, Venereal sores, Wounds of all kinds.

⁂Sold at he manufactories of Professor, HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cents, 62½ cents, and $1 each.

* Three years have not yet clapsed since the establishment of this Institution, during which time upward of eight hundred students have been in attendance, (representing nearly every State in the Union,) among whom are numbers in Baltimore, and elsewhere, occupying prominent positions as business men and accountants.

COURSE OF STUDY.

BOOKKEEPING.—The Principal has the utmost confidence in assuring the public, after an experience of fourteen years, in qualifying young men for the Counting Room, and other important stations, and an extensive acquaintance with the management of business books of every description, (assisted as he is by two scientific accountants,) that the course of training in this department is eminently practical, and well adapted to the various pursuits of Commerce and Trade, including Individual Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Shipping, Steamboating, Compound, Company operations, &c., &c.

PENMANSHIP.—The exercises under this head are free, easy and graceful, combining rapidity of execution with beauty of construction, thus enabling the student to write an elegant business hand on completion of the course.

MERCANTILE CALCULATIONS—In all their various bearings, are taught by the most accurate and expeditious method.

Daily lectures delivered upon the Science of Accounts, Mercantile Customs, &c., these, in connection with series of lectures on Commercial Law, are of highest important to a aspiring to occupy honorable positions in the business world. It is generally conceded that the plan of intruction here carried out is more thorough and practical than at any similar institution, combining as it does all the faculties for a complete business education. MAPES' NITROGENIZED AND MAPES
IMPROVED SUPER PHOSPHATE OF
LIME.

FOR SALE IN BAGS OF 160 LBS. EACH.

THE subscribers have been appointed the sole agents in Baltimore for the sale of these celebrated fertilizers, and have constantly on hand a full supply at the following prices:

Mapes' Nitrogenized Super Phosphate of Lime, at 2½c per lb.
Improved " 2½c per lb.

N. B.—These are the manufacturer's prices in New York, and at his factory in New Jersey.

The Improved Super Phosphate is composed of bone dust, sulphuric acid, Peruvian Guano, and sulphate of ammonia. The Nitrogenized has the same ingredients mixed with an equal weight of dried blood. For poor soils or soils deficient in nitrogenous substances the Nitrogenized will be found of greater value than any manure known.

To those desirous of testing the effects of these fertilizers samples will be furnished on application to us.

We have also pamphlets containing acknowledgments of their merits from many well known Agriculturists, giving free instructions as to their application, with certificates of complete analysis of them made by eminent chemists.

Also, Mapes' Potash Phosphate for grass and grain crops; wheat, rye, oats, corn and barley for sale at 1¾c per lb., in bags of 160 lbs. each. This article is particularly recommended for top-dressing of grass and grain crops.

Also, Mapes' Cotton and Tobacco Fertilizer, prepared especially for these crops, for sale at 2c per lb., in bags of 160 lbs. each.

N. B.—All these manures are compounded by Prof. Mapes himself.

Willard's Patent Planter and Sower.

THIS is an ingenioous machine, for which letters patent were granted to Mr. HOZEA WILLARD in May last. It was exhibited during the last season at several State Fairs, always commanding universal admiration. Large quantities are now being manufactured for use during the coming spring, and it is believed that a machine that accomplishes so great a saving of labor, must at once come into general use. It is especially adapted for ihe South, and our enterprising planters will find it worthy of their attention. The machine is of about the size of an ordinary cart. The following descriptionis from a late number of the *United States Journal:*

"To the agriculturist this is, undoubtedly, the mos tvaluable patent that has been issued for many years. It is inteded for sowing broadcast, covering ann harrowing at the same time, for sowing in drills and also for planting in hills, and will accomplish either object as well as could possibly be done by hand The grain is placed to cylinders, which are made to revolve with the motion of the wheels of the cart. As the holders rotate the grain passes out through the screens to the ground. The seeds are evenly distributed and the machine may be regulated to sow any given amount to the acre with perfect accuracy. The grain is covered by the revolving harrow, which receives its motion from the cart wheels.—This harrow revolves with great rapidity in the opposite direction from its forward motion, thus harrowing up the ground instead of matting it down, and tearing to piecies and stubble, sods, and manure, and leaving them behind instead of drawing them together in bunches as with the common harrow. The holders can easily be taken off, and the revoling harrow used for mellowing and preparing the ground, which can be accomplished with it much more rapidly and sufficiently than with a horrow constructed on any other plan.

"For sowing in drills the harrow is taken off and the guides, as seen in the engraving on the inclined board, are changed so as to make the seeds drop into the drills prepared by furrows, attached just ahead of the board. A covered for each furrow is attached just behind, constructed so as to hoe the light dirt on to the furrow, and compressing it upon the seeds.

"The arrangement is the same for planting in hills, excepting that the guides are changed so as to drop the seeds into hills. It can be regulated to drop any number of grains in each hill, to make the hills any distance apart, and to cover any depth that may be required. The attachment for planting and covering is very simple, and so ingeniously arranged as to prevent the lumps and stones from being thrown upon the grain, while it compresses the dirt upon the seeds much better than could be done with either hoe or roller.

"Another very valuable feature about this machine is an attachment for preparing cotton seed, consisting of an extra cyinder in which the seeds is placed, made to revolve, by the motion of the wheels in the same manner as the other. By this arrangement the seed is prepared at the same time it is being dropped from the other cylinder and can be planted with this machine without rubbing or any other previous preparation, as well as other kinds of grain.

"The whole machine is extremely simple in its construction, is no more liable to get out of order, and is as easily worked worked as any ordinary agricultural implement. Although entirely new, it is no doubtful experiment, as it has been thoroughly tried for all purposes, and its practical operation exhibited during the last season at various State Fairs, commanding in all cases the universal admiration of the whole agricultural community."

PRICES WITH RIGHT TO USE IN COUNTY:

Machine complete	$100 00
Machine complete without the extra attachments for prepairing Cotton seed	80 00
Machine for sowing broad east, and harrowing only	70 00

The machines are now being manufactured and sold by J. M. EMERSON & CO., No. 1 Spruce Street, New York.
