Newspaper Agents in the cities must send the cash with advertisements, or they will not be inserted.

Persons wishing to subscribe to, or advertise in the Star, must address us direct, as we have no agents, and those at a distance must accompany their orders with the cash.

THE STAR FOR THE CAMPAIGN.

THE STAR will be published from this date till the November Election, at the low price of FIFTY CENTS, *cash in advance.*

CLUBS OF TWELVE will be served for FIVE DOLLARS, *cash in advance.*

We hope our friends will send in their orders without delay, and thus aid us to prosecute an energetic canvass. Our friends must circulate the documents if they would have correct principles prevail among the masses.—Let the *Star* be circulated freely in every neighborhood, and placed in the hands of every voter.

Will our friends take this matter in hand *at once*, and assist us in extending our circulation in all parts of the county. A little active co-operation in this matter at the outset of the campaign, may secure us many votes at the day of trial. Let the people have light, and democratic truths are sure to triumph.—Shut out the light of truth from the masses, and Know Nothingism may succeed.

DEMOCRATIC MEETINGS.

The Democrats and others disposed to act with them on existing political issues, will meet at the usual places of meeting in the several Election districts of Talbot county, on Saturday, 29th day of August to elect 10 Delegates for each district, to meet on Tuesday, the 1st day of September, to nominate a ticket for County officers to be supported by the anti-know nothings at the ensuing November election.

DISTRICT OFFICERS.—Saturday, the 26th inst., being the *last* Saturday in September, is the day appointed to nominate the Democratic candidates for District Officers, for Easton District. The district officers will consist of *one* Road Supervisor, *three* Magistrates, and *two* Constables.

IN NEED OF MONEY.—We again remind our delinquent patrons that we are in great want of money, (in fact we cannot do without it much longer) and we would be greatly obliged if they would help us to the extent of their several bills. We are positively unable to collect even market money, and have important pecuniary engagements to meet, without the least prospect at present of doing so. Will our friends come to our aid in the present emergency:

THE MIDDLETOWN ACADEMY.—We invite attention to the prospectus of this fine institution, which will be found in another column of to-days "Star." It is located at Middletown, New Castle county, Delaware, and is under the control of Mr. Jas. B. McDowell, Principal, a gentleman possessing fine scholastic acquirements, and eminently fitted otherwise for the head of an academy.

THE COUNTY CONVENTION.—We have been requested to say that, the Democratic County Convention will meet this morning at half-past 10 o'clock, in the Court room—It will devolve upon the Convention to nominate *two* candidates for the House of Delegates; Clerk of the Circuit Court; Register of Wills; Sheriff; *three* County Commissioners, and a County Surveyor. We hope the proceedings of the Convention will be conducted in moderation and fairness, and that when the ticket is announced, the friends of all the candidates will acquiesce in the action of the Convention, and give the nominees a cordial support. By so doing we can easily elect them—but not otherwise. Where there is so many candidates, and such conflicting interests, it will be impossible to please all, but we believe the Convention will do the best it can, and having this confidence in its integrity, we shall cheerfully support the nominees, whoever they may be, and we hope that every Democrat will do likewise.

A KNOW NOTHINGS SHERIFF IN LIMBO. John J. R. Poole the Sheriff of Cecil County, and another man named Beatty, have been arrrested and imprisoned for Kidnapping and selling South a free negro boy. The boy will be restored to freedom and Poole and Beatty, we trust, will be sent to the penitentiary, for their nefarious conduct.

GOV. OF MISSOURI.—Stewart, democrat, is certainly elected Governor of Missouri, and the fact is now conceded by the K. N. and abolition papers which supported Rollins.

THE DEMOCRATIC CONGRESSIONAL CONVENTION,

This body met in Cambridge, on Friday, the 28th ult., and was organized, we learn, by appointing M. O. Colston Esq; of Talbot chairman, and Thos. S. Keating Esq., of Queen Annes, secretary On the first ballot, Hon. James A. Stewart, of Dorchester, received the nomination for Congress; Talbot, Dorset, Caroline and Queen Annes voting for Mr. Stewart, Somerset for Dr. C. Humphreys, and Worcester for Mr, Dirickson. We have not yet received the official proceedings of the convention, but learn that the utmost harmony and good feelings prevailed.—The nomination of Judge Stewart is received here with extreme satisfaction and we pledge Talbot to give him a large majority. The ability with which Judge Stewart represented this District in the last Congress—the sound national views expressed in his great speech on the "*status of Slavery in the United States*"—his strict attention to his duties as a Representative, and his uniform politeness while in Washington to all of his constituents who visited the capitol on business or pleasure, has endeared him to the people of the District, and we believe they will signify their appreciation, of a faithful representative by triumphantly electing him to a seat in the next Congress. We place his name at the head of our columns this morning with great pleasure, and shall use all honorable means in our power to secure his election.

In his opponent, Mr. Townsend, we recognize none of the essential qualifications that a representative in Congress should possess. He is neither qualified by education or training for the office, and it is presumption in him to aspire to the place. This is no time for the South to trifle with her most important interests, by sending small men to Congress who possess not the ability to defend her institutions, which are being malignantly assailed in Congress by the first talent of the North. It is only by electing to Congress our *very ablest men*— men capable of meeting and refuting the plausible sophistries of the abolitionists—that the South can preserve a wholesome public sentiment, which is the bulwark of her institutions. By uniformly sending her ablest men to Congress, the South have controlled the policy of the Government. It is *Southern talent* that has preserved the checks and balances of the Constitution, and made this a great and prosperous country. Let the South once lose sight of this important fact, and content herself with sending to Congress her "small potato politicians," and as certain as night follows the day, so certain will the Union perish, and the Constitution fail of its great purposes.

In selecting Judge Stewart as the Democratic Congressional standard bearer in the present contest, the Cambridge Convention has recognized the importance of the great fact we have briefly indicated—Having measured lances with, and vanquished, the most powerful champions of abolition in the last Congress, he will have nothing to fear from the ablest adversaries in the next House of Representatives. In such a representive Maryland can safely trust her interest, and only in the hands of such are the institutions of the South secure, while the North remains mad on the subject of slavery.

Now, with all candor, how is it with Mr. Teagle Townsend; the Know Nothing nominee? Does he come up to the standard demanded by the times? Is he equal to a defence of the South and her institutions? Is he able to protect the interest of Maryland in a House insane with the dogmas of the abolitionist? What could *he say* if Maryland was misrepresented and assailed by such powerful antagonists as Banks, Washburn, or Lewis D. Campbell? Would he not be forced to remain as dumb as a sheep before its shearers, or what is worse, damage a good cause by attempting a poor defence of it? There is no use in disguising the fact that the Know Nothing nominee is wholly unfit for a Representative in the present crisis, and the interest and credit of the state, can only be preserved by the election of James A. Stewart.

DEMOCRATIC MEETING IN EASTON.

Pursuant to public notice, the Democracy of Talbot county, Md. assembled in County Meeting, on Tuesday, the 25th of August, to appoint three delegates, to represent said county, in the Congressional Convention, which assembled in Cambridge, on the 28th ultimo.

On motion, Morris O, Colston Esq. was called to the chair, and Edwin F. Jump, appointed Secretary.

The object of the meeting having been stated by the chair, the following delegates were appointed; Capt. Jacob Wright, Daniel Lloyd, and Charles P. Craig Esquires. Alternates, Morris O. Colston, Thomas Hughlett and William P. Leaverton, Esqrs.

On motion, a committee, consisting of H. H. Goldsborough I. C. W. Powell and Thos. Hughlett, Esqrs., was appointed, to report resolutions for the action of the meeting. The committee retired, and after a short absence reported the following resolutions, which were unanimously adopted;

Whereas, we deem the present a proper occasion to congratulate our fellow citizens upon the election to the Presidency of the U. S., of that able, faithful and distinguished Democrat, James Buchanan, and to express our determination to support and maintain the principles upon which he was elected, and our warm approval of the patriotic sentiments contained in his inaugural address, therefore

Resolved, that in his election to the Presidency of the U. S. we recognize the abiding attachment of the people to the Federal Union, to the constitution, and to the sacred principles of civil and religious liberty.

Resolved, that we will cordially support the present administration of the general government in fully & fairly executing and enforcing the principles of the Kansas-Nebraska bill, and regard the appointment of that distinguished statesman, Robert J. Walker, as Governor of Kansas, as an assurance to the South, that the administration will be faithful to all its pledges in regard to Kansas, and that we have seen nothing, either on the part of the administration or in the action of Governor Walker, to weaken our confidence in the purpose of the administration to execute the Kansas-Nebraska bill according to its plain intent and meaning.

Resolved, That it is of the greatest importance to the administration and the country, that the measures which will necessarily arise out of the application of Kansas for admission as a State into the union should be sustained in Congress, and in view of the present state of parties, that the voters of the first Congressional District of Maryland should elect an able and tried Representative to the next Congress.

Resolved, That we cordially endorse the votes of our present able Representative in Congress Hon. Jas. A Stewart, and especially the sentiments expressed in his speech in defence of Southern Institutions and States rights, as reflecting credit upon the State which he represents, and strongly recommending him to the continued confidence of his constituents as pre-eminently fitted to represent their interests in the next Congress.

Resolved, That we respond with pleasure to the action of the the State convention of the Democratic party in declaring Col. John C. Groome their unanimous choice and in recommending him to the support of the people of Maryland as a gentleman in every respect qualified and worthy to fill the executive chair of the State, and that in adopting him as our standard bearer in the Gubernatorial contest, we have full confidence in his elevated character, his sound conservative views upon the political issues of the present day, and his unalterable devotion to the best interests of our gallant State. We therefore cheerfully commended him to the voters of our county.

The proceedings were ordered to be published in the *Easton Star*, after which the meeting adjourned *sine die*.

CHAPEL, Aug. 29, 1857.

The Democracy of "the old Chapel" met and organized by calling Cornelius Sherwood to the Chair and appointing Tilghman N. Chance, Sec'y. The following gentlemen were then selected Delegates to meet in Easton on Tuesday next to nominate candidates for county officers, viz:—Richard Arringdale, Edwin F. Jump, C. M. Jump, James A. Roe, John C. Wooters, T. N. Chance, Robert H. Jump, Isaac Stevens, John Reese, Robert D. Johnson. The meeting decided to nominate district candidates, and the following were nominated for the respective offices: Magistrates—Edward Y. Davis, Robert Cooley.—Constables—Samuel Sparklin, George W. Merrick. Supervisor—Jno. Christian, Jr.

CORNELIUS SHERWOOD, Ch'n.

The following are the delegates reported to have been elected by St. Michaels district:—Joseph H. Harrison, A Harrison, George H. Graham, John H. Weeden, Wm. Weeden, Thomas W. Blades, James E. Denny, James Cox, James Lawrence Jones and John K. Skinner.

HOW IS IT?—How is it there is a distinction made between the American and Democratic parties in granting permission to hold political meetings in the Court House? We thought when the Court House was repaired the Commissioners determined not to let political or any other kind of meetings be held as there is a good hall in town for such purposes. At any rate the American party was refused the privileges some time since; at the same time being informed that the Commissioners did not intend to allow meetings to be held there; but on Tuesday last, if we mistake not, the Democracy held their meeting there.—Why is this unfairness? Has one party a better right than the other!—*Gazette of Saturday.*

In answer to the query contained in the last sentence of the above paragraph, we answer No. Neither was it ever contemplated by the County Commissioners to exclude either party from holding *political meetings* in the Court House, and if the Court room was ever denied to either party, it arose from a misapprehension of the action of the Commissioners on the part of the Keeper. That misapprehension, however, has been corrected, and the Court room hereafter will be open to both parties for political purposes.—The action of the Commissioners was intended to operate only, against the use of the Court House as a lecture room for private purposes, and was not intended to exclude the tax payers of the County from its use for legitimate public meetings.

GREAT KNOW NOTHING DEMONSTRATION IN CAMBRIDGE.—

—VISIT OF 1,000 BALTIMORE PLUG UGLIES TO THOMAS HOLLIDAY HICKS—*Interesting proceedings—the Cambridge Jail broken open—the Sheriff and his Deputy—knocked down and beaten, and a free fight on the wharf.*

We copy the following interesting particulars of the Plug pow wow at Cambridge on the 25th of August from the Baltimore Sun of Thursday.

On Tuesday morning the steamers St. Nicholas and Georgia went down to Cambridge, both pretty well laden with passengers to attend a political meeting.—The meeting took place on the courthouse green, after which dinner was served in Spring Glen, a valley near the courthouse. Things looked ominous for a difficulties from the fact that a number of young men showed their pistol and threatened destruction to any who might interfere with them. One of the party fired his pistol, when the sheriff of the county, Robert Bell, ordered his arrest and committal to jail. Soon after he was put in jail a number of his friends demanded his liberation, which the sheriff refused to accede to, and repaired to protect it. The friends of the party incarcerated then added to their number and expressed redetermination. if their demand was not at once complied with to break open the jail and rescue him. Being again refused they made an assault and were not long in forcing the doors, until they reachgd the cell where the party was confined, and set him at liberty. The Sheriff and his deputy resisted the rescue, but both were severely beaten. The rescued man was then borne off in triumph towards the wharf where the steamers were lying.

On the wharf a difficulty occurred between a young man named John Landon and Sergeant Rosenbury, of the southern district police, in which the latter was pretty severely handled. They belong to rival clubs. That affray caused difficulties between others, and for a time there was a general fight on the wharf, in which slung shots were used with uncomfortable freedom. The fight continued until the bells of the boats too, Deputy Sheriff Bell interfered to restore order, when he was again assaulted and compelled to seek safety in flight. At half past five o'clock in the afternoon the steamers got off, and as the opposing clubs were on the same boat no further difficulty of a serious nature occurred. About midnight, when a short distance below the Lazaretto, Landon, the party who had had the difficulty with Rosenbury, fell overboard from the Georgia, and drowned before any assistance could be rendered him. A number of life preservers and stools were thrown overboard, but he failed to get hold of any of them. Several were yesterday morning picked up by vessels coming up the river. Landon was a married man, with two or three children. The number on the excursion from this city was variously estimated at from six hundred to one thousand persons. Those present; and who did not participate in the affray, and from whom we obtain our information, represent it as most exciting, and creating the utmost alarm among the citizens of that usually quiet town.

ARRIVAL OF STEAMER AMERICA. THREE DAYS LATER NEWS.

HALIFAX, August 26.—The steamer America from Liverpool, with dates to the 15th; has arrived.

The Indian mail has arrived. Delhi had not fallen on the 7th of June. A further mutiny had occurred among the troops of the Bengal army. It was believed, however, that the crisis was past.

The news was favorably received London and caused an advance in Consols.

Their is nothing important from China. Trade at the Northern ports was interrupted.

DISASTERS TO THE ATLANTIC TELEGRAPH.

The unwelcome tiding has been received that the Atlantic Telegraphic cable parted when the fleet was 330 miles from shore on the morning of the 11th, and the vessels were returning to England. Notwithstanding this discouraging circumstances the Directors are still sanguine of the ultimate success of the enterprise. A conference is being held at London to day to determine whether to go on again at present or postpone the second effort until next summer.

Special Notices.

HOLLOWAY'S OINTMENT AND PILLS.—Mortification may always be prevented, by the timely use of Holloway's Ointment, and lockjaw has never been known to supervene in any case of external injury where it is used as a dressing. Its healing properties are proverbial in all parts of the world, and it is used in all the great surgical institutions of Continental Europe, as the only reliable and unfailing specific for wounds, ulcers, dropsical swellings, cancer, tumors, and eruptive maladies. The pills are prescribed by eminent medical practitioners as the most efficacious remedy for indigestion, liver complaint and disorders of the bowels.

PERSONAL BEAUTY.—It will be generally conceded that there is no feature of the face which adds more to its attractiveness than the teeth, when they are even, white and healthy; or which on the other hand, distracts more seriously from its beauty when they are not sound and in good order. Even if all the other features of the face are faultless, and the teeth are discolored or unclean, how unpardonably negligent and even repulsive the possessor appears to all refined and discerning people. And the remark is often made, that there are many, even plain faces, to be met with every day, which are rendered very attractive and charming by the beauty and cleanliness of the teeth alone. And nothing adds so much to the freshness and juvenality of appearance as the preservation of this beautiful feature.

Among the best articles offered to the public for the care and preservation of the teeth, is unquestionably the Oriental Tooth Wash, prepared by Messrs. Joseph Burnett & Co., Tremont Street. This unique preparation contains new and important properties, and since its introduction into use it has received the sanction and secured the patronage of many distinguished physicians and dentists. In addition to its efficacy in cleansing and arresting decay of the teeth, and promoting a healthy condition of the gums, it has the recommendation peculiar itself, of being so deliciously aromatic in its odor; and so agreeable to the taste, that one sometimes finds it hard to refrain from drinking it whenever it is opened for use. It fills the palate with a sensation the most novel and pleasing, and imparts to the breath, particularly after smoking, a most delightful fragrance.

Burnett's Oriental Tooth Wash, is in fact, a new revelation in the dental art; and we risk little in saying that it will eventually find a place on the toilet stand of every lady and gentleman who knows how to appreciate the skill and research which have been bestowed in order to bring it to perfection.—*Boston Journal.*

GOLD, GOLD, GOLD.

THE greatest offer in gold pens, gold pencils, gold chains, and gold watches, ever made. Read the following:

A splendid gold premium worth from five to one hundred dollars, positively given to any person who can spare one day in a week, or one hour in a day, getting up clubs of subscribers in his own and adjoining neighborhoods, for the best and most popular Family Newspaper now published. No expense, no outlay, no capital required of agents. An entire new plan proposed by which any person can succeed in making it a paying business, who will undertake the agency. A private circular, for the inspection of agents only, with full list of premiums, will be sent to any one who desires it, on receipt of a stamp to pay return postage. Some agents have earned a hundred dollar gold watch in one week.

Every family family should read at least one Newspaper from New York City, without interfering with their Local papers, which of course cannot and should not be dispensed with. But New York being the great commercial and business centre of this Continent, no farmer, mechanic, professional man, or merchant, is properly prepared for the emergencies of his calling, unless he is in communication with New York City, by means of one its first class newspaper medium. Such as medium is our "Ledger," neutral in politics, but giving all the facts, items of news, and thrilling incidents worth knowing throughout the country.

A VALUABLE GIFT.

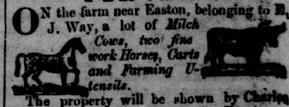

Each new subscriber will receive with the first No. of his or her paper one of the new and beautiful glass pointed indellible Pencils,* just imported from Europe and for which we have obtained the exclusive agency for this Country. This is the most ingenious and useful little improvement of the present age, and is the only pencil ever made that will write with ink, making it both a pen and pencil of the finest quality at the same time. It will last for years, and for practical use is worth more than any gold pen in the market.

For list of premiums and full particulars, address HALL & WEST, Publishers,
New York city.
