Commiss's. Sale.

THE Commissioners of Talbot county will offer at public sale, in front of the Court House, in Easton, on

Tuesday, the 27th day of October next,

to the lowest responsible bidder, the contract for making the piece of new road in Oxford Neck, Trappe District, running from the main road near the old Methodist Church to Dr. Wm. G. G. Willson's gate, as recently laid down by A. C. Mullikin, Samuel Emerson and John T. Stevenson, Esqs., commissioners, and Samuel Chamberlaine, Esq., surveyor. The new road is mainly upon the old private road, with slight variations The report of the Commissioners appointed to lay down said road, states

"That portion of the road running not far from where Dr. Willson's gate now stands, but from a point this side, at the corner of his wood field, near Jesse Delehay's turn off, to Nathaniel Leonard's road or turn off, we found in good condition, and thirty feet wide, as required by law, and perfectly straight; requiring nothing more to make it a first rate road than the cleaning out of the old ditches, the dirt to be spread in the road. But that portion of the road from Nathaniel Leonard's turn off, to the point on the public road leading from Hole-in-the-Wall to Oxford, we found in bad condition, and not thirty feet wide as required by law, and having one or two turns or bends in it," which the commissioners deemed it advisable to straighten, as will be seen by the plat which will be exhibited on the day of sale.

The contractor will be required to make the said road thirty feet wide, as surveyed, and clear it of all trees, stumps and other obstructions, and to ditch and bridge the same wherever necessary—the bridges so be of white Oak plank, not less than two inches thick; and will be required to complete the said road in six months from the day of sale, and to enter into bond with the County Commissioners for the faithful fulfilment of the contract within the time specified. By order of the commissioners for Talbot county.

FARRELS & HERRING, Makers, 34 WALNUT ST., BELOW SECOND, PHILA

THE great interest manifested by the public to procure more certain security from fire for valuable papers, such as BONDS, MORTGAGES, DEEDS, NOTES and BOOKS of ACCOUNTS, than the ordinary SAFES heretofore in use afforded, induced the Patentees to devote a large portion of their time for the last fourteen years, in making discoveries and improvements for this object, the result of which is the unrivalled
