A BEAUTIFUL PICTURE.

BY EDWARD EVERETT.

As a work of art, I know few things more pleasing to the eye, or more capable of affording scope and gratification to a taste for the beautiful, than a well situated, well cultivated farm. The man of refinement will hang with never-wearied gaze on a landscape by Claude or Salvator; the price of a section of the most fertile land in the West would not purchase a few square feet of the canvass on which these great artists have depicted a rural scene. But nature has forms and proportions beyond the painter's skill; her divine pencil touches the landscape with living lights and shadows, never mingled on his pallet. What is there on earth which can more entirely charm the eye, or gratify the taste, than a noble farm? It stands upon the southern slope, gradually arising with variegated ascent from the plain, sheltered from the north-western winds by woody heights, broken here and there with moss-covered boulders, which impart variety and strength to the outline.

The native forest has been cleared from the greater part of the farm, but a suitable portion, carefully tended, remains in wood for economical purposes, and to give a picturesque effect to the landscape. The eye ranges round three-fourths of the horison over a fertile expanse,—bright with the cheerful waters of a rippling stream, a generous river, or a gleaming lake;—dotted with hamlets, each with its modest spire;—and, if the farm lies in the vicinity of the coast, a distant glimpse from the high grounds, of the mysterious, everlasting sea, completes the prospect. It is situated off the high road, but near enough to the village to be easily accessible to the church, the school-house, the post-office, the railroad, a social neighbor, or a traveling friend. It consists in due proportion of pasture and tillage, meadow and woodland, field and garden. A substantial dwelling, with everything for convenience and nothing for ambition—with the fitting appendages for stable, and barn, and corn-barn, and other farm buildings, not forgetting a spring-house with a living fountain of water—occupies upon a gravelly knoll, a position well chosen to command the whole estate. A few acres on the front, and on the sides of the dwelling, set apart to gratify the eye with the choicer forms of rural beauty, are adorned with a stately avenue, with noble solitary trees, with graceful clumps, shady walks, a velvet lawn, a brook murmuring over a pebbly bed, here and there a grand rock, whose cool shadow at sunset streams across the field;—all displaying in the red loveliness of nature, the original of those landscapes of which art in its perfection strives to give us the counterfeit presentment. Animals of select breed, such as Poul Potter, and Moreland, and Landseer, and Rosa Bonheur, never painted, roam the pastures, or fill the hurdles and the stalls; the plough walks in rustic majesty across the plain, and opens the genial bosom of the earth to the sun and air; nature's holy sacrament of seed-time is solemnized beneath the vaulted cathedral sky; silent dews, and gentle showers, and kindly sunshine, shed their sweet influence on the teeming soil; springing verdure clothes the plain; golden wavelets, driven by the west wind, run over the joyous wheat field; the tall maize flaunts in her crispy leaves and nodding tassels, while we labor and while we rest; while we wake and while we sleep, God's chemistry, which we cannot see, goes on beneath the clods; myriads and myriads of vital cells ferment with elemental life; germ and stalk, and leaf and flower, and silk and tassel, and grain and fruit, grow up from the common earth;—the mowing machine and the reaper—mute rivals of human industry, perform their gladsome task; the well-piled wagon brings home the ripened treasures of the year; the bow of promise fulfilled spans the foreground of the picture, and the gracious convenant redeemed: that while the earth remaineth, summer and winter, heat and cold, and day and night, and seed-time and harvest, shall not fail.

KEEP THE CATTLE GROWING.

The most successful breeders of horses, cattle, sheep or swine, know from experience that although they may possess the best breeding animals, they will not be successful in producing superior stock if a continual growth of young animals is not kept up.—In order to begin in time at this indispensable preparation for success, the brood mares, cows ewes and sows are most carefully and suitably fed while with young, and as soon as the young animals make their appearance, they are taken the greatest care of, the dams being suitably fed while suckling, and when the young ones are weaned, they are not supposed to want for food or drink a single hour. By this means a continuous or rapid growth is kept up, and the animals attain a large size and heavy weight at an early age.—When breeding animals are not properly fed and comfortably sheltered in winter, the bad effect of such treatment is not confined to their own want of condition—it is shared by their progeny, and can never be remediated. When young stock are not fed well and comfortably sheltered in winter, their growth becomes stunted, and no subsequent amount of good treatment can repair the damage.—Young animals may suffer for want of proper provender in summer and autumn, as well as in winter, and when this happens it stops continuous growth and prevents ultimate success in the objects of the breeders.

LUCRATIVE EMPLOYMENT.

Adam Grim, of Jefferson, Wis., who is a most successful apiarist, commenced the season last spring with two hundred and eighty-five swarms of bees, and increased the number by swarming to six hundred and forty-six. These swarms produced within a fraction of twenty-one thousand pounds of honey, which sold, strained, for four thousand one hundred dollars. The Jefferson County Union says: "We often hear women say that there is no remunerative employment for them. As an answer to this, we would state that Mr. Grim has two daughters, who have each taken separate charge of an important part of the apiary. Miss Kate Grim has by her skill and attention the past summer earned one thousand two hundred dollars net, and Miss Margaret Grim has earned one thousand dollars net."

CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills,* and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion, Listlessness, Languor, and Loss of Appetite,** they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Billous Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Billous Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

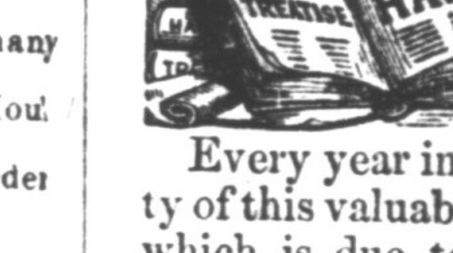

For **Dropsy** and **Dropsical Swellings,** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression,** a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

HALL'S
VEGETABLE SICILIAN
HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray or Faded Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the Best Preparation for its intended purposes."

It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

COMPOUND MEDICATED INHALATIONS, CONCENTRATED FOOD, AND COUGH SYRUP.

During the past ten years Dr. Carpenter has treated and cured thousands of cases of the above named diseases, and has now in his possession certificates of cures from every part of the country. The Inhalation is breathed directly into the lungs, soothing and healing over all inflamed surfaces, entering into the blood, it imparts vitality as it permeates to every part of the system.—The sensation is not unpleasant, and the first inhalation often gives very decided relief, particularly when there is much difficulty of breathing. Under the influence of my remedies, the cough soon grows easier, the hectic flush vanishes, and with improving digestion the patient rapidly gains strength, and health is again within his grasp.

The Concentrated Food rapidly builds up the most debilitated patient, presenting to the stomach food all ready to be assimilated and made into good, rich, healthy blood.

The Cough Syrup is to be taken at night to alleviate the cough and enable the patient to obtain sleep. *Full directions accompany, each box of my remedies, which consists of One Inhaler; One Bottle of Alterative Inhalant; One Bottle of Soothing Febrifuge Inhalant; One Bottle of Anti-Hæmorrhagic Inhalant; One Bottle Concentrated Food; One Bottle of Cough Syrup.*

Dr. E. F. GARVIN'S
SOLUTION AND COMPOUND ELIXIR
OF
TAR

FIRST AND ONLY SOLUTION ever made in one mixture of ALL THE TWELVE valuable active principles of the well known curative agent,

PINE TREE TAR.

SPECIFIC FOR CONSUMPTION!

This all-powerful vegetable preparation expels from the lungs and air passages the mucus and muco-pus produced by pulmonary inflammation, heals the irritated membranes, and renovates every organ which utilizes the breath of life. It contains no stupefying poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

ANNIHILATES A COUGH

is astonishing. Its effects go deeper than the mere symptoms of pulmonary disease and discharge the cause from the system. It relieves the lungs, chest and throat from the burdens which oppress them, thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer

BATTLING FOR LIFE

with the most terrible scourge of our climate will find DR. GARVIN'S TAR REMEDY a potent ally, and will assuredly win the fight by adhering strictly to this balsamic medicine. By its VITALIZING, PURIFYING and STIMULATING effects upon the general system, it is remarkably efficacious in all

DISEASES OF THE BLOOD,

Including Scrofula and Eruptions of the Skin, Dyspepsia, Diseases of the Liver and Kidneys, Heart Disease, and General Debility. The

CASES NOW ON RECORD

in which it has been administered with entire success as a remedy for every variety of maladies which affect the respiratory functions, amount to

THOUSANDS

at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Expectorants introduced is that they are simply expulsory. Hence they are useless; for, unless the causes of the acrid secretions which are coughed up are removed, and the ruptured, inflamed or materated surfaces healed and restored to their natural tone, a cure is impossible.

DR. GARVIN'S
TAR REMEDIES,

accomplish these objects. The mucus and muco-pus which are the consequences of Lung Diseases, are thrown off by them, while at the same time they soothe and invigorate the weakened tissues. As

STERLING REMEDIES

for coughs, colds, influenza, bronchial difficulties, catarrh, asthma, diseases of the heart, liver, stomach and bowels, all female weaknesses, diseases of the skin, inflammation of the lungs, and all disorders of a pulmonary nature, they have never been equalled.
