## LOCAL MATTER.

### MARKETS.

BALTIMORE AND PHILADELPHIA.
Corrected from the Baltimore Daily Sun, and Philadelphia Public Record.

BALTIMORE—*Saturday*, May. 31.—Wheat Prime Maryland red $2 00 Pennsylvania red $1 95 White $1.75. Corn Market—White 72 cents; yellow 63 cents. Oats 52 cents. Seeds—Clover, $6.40 per bushel. Timothy, $4.00 per bushel.

PHILADELPHIA—*Friday*, May. 30.—Wheat Indiana white $2.10; prime Pennsylvania, $2.10; Delaware red, $1.85. Corn—Yellow, choice 65; Oats, choice, 52c. Rye—Western 80.

### Local Record.

Court adjourned on Thursday evening, after a ten days' session.

Strawberries first made their appearance in this market last Wednesday.

Capt. Geo. Thomas, an old citizen of St. Michaels, died on the 24th ult., after a long illness.

The Odd Fellows of St. Michaels are putting a third story on their Hall.

This section was visited with a fine shower of rain on Friday night.

The ladies connected with the M. E. Church of St. Michaels will hold a Strawberry Festival in St. Michaels on Tuesday next.

The wheat is generally headed out, and the crop promises to be a fair one, should no disaster overtake it.

Corn has come up very well in this county, and though backward for the season, it is growing finely.

Robert H. Plummer, of this town, tried in court last week, on the charge of stealing $65 from Miss Waddell, was acquitted.

Whiteley Johnson, of Chapel, was tried and committed on the charge of stealing blade fodder from Capt. Wm. E. Turner.

Some hail fell in the upper part of the county one day last week. It did no damage to crops, but it was calm when the cloud passed over.

Mr. William P. Wright, in Landing Neck, has recently put his grist and saw mill in first rate repair, and is now doing excellent work.

The public roads in this county have recently been put in good condition, and it is now a satisfaction to drive over them.

Henry & Goldsborough have their soda water fountain in operation, and are now ready to dispense the cool, sparkling beverage. They also have very fine strawberries for sale.

The ladies of the M E Church, South, at Royal Oak, will hold a Strawberry Festival next week for the benefit of the Sabbath School connected with their church.

Mr. George H. Dawson has his Ice Cream Saloon nicely fitted up, and is now furnishing his customers with delicious Ices. Go and get refreshed.

The Quarterly Conference of the M. E. Church of Talbot Circuit have decided to hold a Camp-meeting in Broad Creek Neck, commencing on the 9th of August.

Mr. Robert H. Kemp, druggist, Trappe, Talbot county, Md., will accept our thanks for a bottle of fine Black Ink. The superiority and cheapness of this Ink have been tested by our county school authorities, who use it in the schools in preference to all other inks in the market.

A suit, involving the question, as to whether school informers against oyster dredgers are entitled to half the fine, under the 10th article of the code, was tried at the late term of our Court. The Judges held the case under curia, but will render their decision shortly. It will be noticed that this point was not submitted to the Attorney General at the time he gave his opinion.

The Sunday School Convention convened in Easton last week. There were plenty of speakers from Baltimore, but an exceedingly slim audience, whether from inability or indisposition to attend, we know not. Rev. E. B. Newnam was chosen President, and Rev. J. E. Read, Secretary. Various subjects pertaining to Sunday School instruction were discussed, which would have been of benefit to the Sunday School workers of the county, had they been present.

THE GRAND JURY AND THE COMMANDER OF THE OYSTER POLICE FORCE.—It was stated in the Court proceedings last week that the Grand Jury had presented Capt. William E. Timmons, Commander of the State Oyster Police Force. The following is the full report of the Grand Jury on the subject:

To the Honorable—The Board of Commissioners of the State Fishery Police Force:

We, the undersigned, constituting the Grand Jury of the State of Maryland in and for the body of Talbot county at the May term of the Circuit Court of the said county, in the year of our Lord one hundred and seventy three, do respectfully represent to your Honorable Board:—

That we verily believe William E. Timmons, the commander or chief of the State Fishery Police Force is an unfit person to hold and occupy the post to which he has been appointed.

That we have good ground to suspect, if we have not sufficient reason to believe, from evidence had before this body, that the said William E. Timmons is in criminal collusion with the violators of the Law, commonly known as the "Oyster Law."

That we have reason to believe he has wilfully and repeatedly neglected to execute certain provisions of the law, by refusing to serve writs of attachment upon offenders, and by refusing to bring such offenders before the proper magistrates, after information has been lodged by creditable witnesses.

That we have reason to believe he has used his official influence to shield offenders against the law from the punishment they had rendered themselves liable, when they had been arraigned, that he has, actually and in fact, employed officials and their crews under his command, to warn violators of the law to escape from the officers to which they are exposed.

That we have reason to believe that so far from aiding the other officers of the State within this county in securing due observance of the law, and enforcing its execution, he has thrown impediments and hindrances in the way of such officers by giving advice and counsel to alleged violations of the law, and by openly showing his enmity with them when brought to trial.

For these reasons and others that might be adduced, the Grand Jury of Talbot county would respectfully ask and petition that your Honorable Board would remove the said William E. Timmons from the command of the State Fishery Force, and that you would appoint some one more fit person who shall and will better discharge the duties of that command, and secure a faithful and proper observance of the laws, more necessarily those for the protection of the Oyster Interests of the State.

W. GOLDSBOROUGH,
Foreman.

MUSICAL CONTEST.—Some little excitement was created here on Friday afternoon among musical critics, growing out of a trial between the Estey and Wood organs, at the Methodist Protestant Church. The performance took place at 5 P. M. Professor Sutro represented the Wood instrument, and Mr. Harry Sanders the Estey. We have not sufficient knowledge of music to give a critical decision between either the instruments or the organs, and can give but the opinion produced on our own uneducated ear. Both players performs finely, but we do not think that Professor Sutro; and as Mr. Sanders is a pupil of Sutro; and as Mr. Sanders has had not the same opportunity to become familiar with his instrument as the Professor had, the second appeared to have more power, while the Estey has decidedly clearer and sweeter tone. And if we are not very much mistaken, the Estey will prove the more durable of the two; for both instruments are very fine, and the Methodist Protestant Sunday School, which is about erecting an organ, will not be at fault in either case. There are a number of the Estey organs in this county, and they have given great satisfaction. The durability of the Wood instrument has yet to be proved, as there are none in use.

EXCURSION TO HOLLY GROVE.—Don't forget the Grand Excursion to Holly Grove, on the Steamer Champion, given by the Methodist Protestant Sunday School, to come off on the 11th of June—Wednesday week—leaving Easton Point at 6 o'clock in the morning, touching at the beautiful town of Cambridge and intermediate landings. The grounds at Holly Grove have been greatly improved, and the season will be opened on the 9th inst., with increased attractions. Let all go who can, and enjoy a day of recreation. The Committee will furnish breakfast, dinner and supper on the ground, with an abundance of cake and ice cream may be had at all time. The return by moonlight will be delightful.

ANOTHER CHURCH FESTIVAL AT TRAPPE.—When a pious fit attacks the good people of Trappe, they at once resolve to give expression to their feelings by getting up a Religious Festival, preparing stores of the good things with which Providence has blessed them, and go out into the "high ways and hedges" and invite all to come up to the feast, and partake of the good things prepared for them. The Trappe people are at this time enjoying one of their seasons of religious exaltation, and have announced a great feast and festival, to come off at the Methodist Episcopal Church, South, commencing at four o'clock, P. M., on Monday the 9th inst., and to continue the balance of the week. One night there will be a supper prepared, consisting of oysters, terrapins, fried chicken, strawberries and cream, hot biscuit and coffee, &c. It must be glorious to be a citizen of Trappe! Talk about your "Excursions;" they are nothing to a Trappe supper, gotten up by the ladies of the church, in a fit of religious enthusiasm! Nothing will be spared to render the coming festival equal to the very best that was ever seen in that town.

A FRAGRANT BREATH AND PEARLY TEETH are easily attained, and those who fail to avail themselves of the means, should not complain when accused of gross neglect. The SOZODONT will speedily eradicate the cause of a foul breath, beautifying and preserving the teeth to the oldest age.

Spalding's Glue is useful in every house.

MILL NOTICE.

THE subscriber having just gotten through putting his Mill in complete order—such as new conveyancer in his bolting chest, for thorough mixing and putting flour in bags and barrels, and other improvements. This is a great convenience over the old plan of taking up flour by the hand. I have also put in new pinions for my corn and wheat burrs, which will give me greater facilities for fast grinding. My diamond for dressing French burrs is worthy of especial notice. It is superior to any mode ever invented for the dressing of burrs. It does not cut the face, and will cause them to make from three to four lbs. more, and better quality flour, than can be made from any dressing now known to Millers. It has been demonstrated by some of the best Millers in the country. It also saves much time, as one pair of burrs can be dressed in two and a half hours. I have used mine for the last four years, and would not be without it under any consideration, and to any Miller desirous of using one of these diamond dressers, I will give full particulars.

From twenty years of experience—part of the time in some of the finest Mills in the country, having the capacity of turning out 600 bbls. of flour per day,—I flatter myself that I have some knowledge of the business, and having placed new water gates in my race, and erected a Tumbling Dam, entire satisfaction shall be given. The cost of the last improvement is not very great, but it is very convenient, as I can repair it at any time when the water is low. I attend to all grinding in person, and can see how things are moving. Those wishing their grist the same day, should bring their grain in the morning. I have a comfortable place for teams, so they will not be exposed to the weather. I will guarantee a good yield, for

I will tell you what is a positive fact,
I never take all nor swear to the sack.
