Easton Star.

EASTON, MD.

Tuesday Morning, June 1, 1875.

T. K. ROBSON, Editor.

Hon. Wm. T. Hamilton, Governor Groome, and Hon. John Lee Carroll, candidates for the gubernatorial nomination, each gave a reception last week at Barnum's hotel in Baltimore, and were called upon by a multitude of friends. The races last week at Pimlico called together at Baltimore a great number of State politicians, and doubtless the canvass for the nominations will hereafter be lively.

The Centreville *Record* suggests Lloyd Tilghman Esq., of Queen Anne's county, as a good and available candidate for State Comptroller, to succeed Col. Levin Woolford.—The *Record* compliments Col. Woolford as an able and efficient Comptroller but thinks he is ruled out from being a candidate by his letter accepting his last nomination. There is no question that Mr. Tilghman would make a popular canvass and first rate Comptroller.

Hon. Joshua Vansant, Chairman of the Democratic State Central Committee, has issued a notice to the members of that body, asking them to attend a meeting, to be held at the Maryland Institute, on Thursday, June 10th, at 10 o'clock A. M. This meeting will fix the time for the holding of primary elections and conventions for the nomination of the State officers, to be voted for at the November election.

It is a good sign that the independent voters throughout the country are beginning to demand that abler and better men shall be elected to public office than the people have been accustomed to elect for sometime past. Most of our financial difficulties are directly traceable to the incompetency of our governors and legislators. Men have been elected because they were popular and not because they were competent. The consequence is that statesmanship is at a discount and the country has gone to ruin. It is about time to stop this losing game. There are plenty of able men to fill all positions if the people will only hunt them up. They are generally too modest to press themselves forward. Here in Maryland we will have to elect a State ticket the coming November. It is important to the interests of the State that we should elevate to the Executive chair of the State the ablest and purest man we can secure. Family, wealth, a name, should count nothing, if the aspirant does not possess the other indispensable qualifications in a pre-eminent degree. The people will soon be called upon to select between aspirants; they should be satisfied with nothing short of eminent abilities and unexceptionable character, tested by long experience. If the democracy will insist that the nominees shall possess these essential qualifications, the Democratic candidate will be elected, and the interests of the State, in all its departments will be protected, for they will not be likely to insist on these qualifications in the Governor and overlook them in the Comptroller. It is not less important that a higher standard of qualifications should be insisted upon in delegates to the legislature, senators, and other officers. There is a strong, dissatisfied, independent element in the State, which can only be conciliated by able and good nominations. It is believed that this voting element is heavy enough at this time to control the election. Proper nominations by the Democratic party will attach it to our banner, whilst bad nominations will drive it from us. Hence the importance at this time of exercising the wisest discretion in making nominations. No ring or clique can force a bad nomination on the party and then command its support. The honest and true masses must be consulted in the nominations; men after their own hearts must be nominated; then we shall be able to bid defiance to all opposition, and triumphantly elect our ticket, whoever may be our standard bearer, or the candidate of the opposition.

COMMUNICATED.

Mr. Editor:

Permit me through your columns to say a word respecting the report of the Grand Jury. It declares that it is the "custom" of some of the Justices of the Peace and Constables of the county to charge "illegal fees," and warns them of the consequences. As the guilty parties, if there are any, are not named, the report implicates every Justice of the Peace and constable in the county, as no one, on reading the report, can discriminate between the guilty, if any are guilty, and the innocent. With all due reference to the grand jury, I think this unjust to the Justices of the Peace and Constables of the County who do not charge "illegal fees." And I take the liberty to say that, if any are guilty as charged, and the evidence of the fact was before the grand jury, it should have presented the guilty parties, and not passed them by, and then proceed in their report to criminate those not guilty. This charge has been made before, and the grand jury has several times investigated it, and every time it has turned out to be unfounded; and it is quite likely it will be found groundless again whenever the grand jury will take the trouble to investigate it. I speak of the alleged "custom." Mistakes might occur in isolated cases, but such cannot properly be dignified as a "custom." I do not believe the magistrates of the county have any misconception of the law, which is plain enough; and as for constables, there appears to be no law regulating their fees, it having some time ago expired by limitation, and left them at liberty to charge whatever their services are worth, custom only regulating their charges. We have in this county among our justices of the Peace and constables some as good and conscientious men as are in the county, and we enter this our protest against their being aspersed by the grand jury in their report to the Court—without cause or justification.

JUSTICE.

MURDER IN A CHURCH.

A Little Girl Brutally Murdered in a Boston Church—The Sexton Arrested.

BOSTON, May 28.—A horrible murder was perpetrated in this city this afternoon. A bright little girl, five years of age, was murdered in a church, and the bruised and mutilated body carried up in the tower and thrown upon the floor of the loft, for years the abode of hundreds of doves and pigeons. The victim of this cruel tragedy was Mabel H. Young, who, with her widowed mother, resided with her grandfather at 50 East Chester Park. The latter, Mr. James Hobbs, is a well-known and highly respected merchant, senior of the firm of Hobbs, Pope & Co. This afternoon little Mabel in company with an aunt attended Sunday school anniversary exercises at the Warren Avenue Baptist Church. On coming out of school at 3.30 o'clock the aunt remained in the vestibule about ten minutes conversing with some friends, and on starting home missed the child, who a few minutes before was at her side. At first it was supposed she had gone back into the church, but when she was not found inside, and persons outside declared that she had not come out, the aunt became alarmed, and search was instituted in every direction. About 4 o'clock some ladies at an open window across the street, heard faint cries of a child, apparently from the church tower, and noticed an unusual commotion among the doves that fluttered in and out of the window. Some young men who had joined the search, started at once to ascend the tower. They found the door leading up from the organ loft locked, and, on forcing it open, were startled to see fresh blood upon the floor and steps leading up to the next landing. They soon found a strip of board covered with blood at one end, and heard low moanings from above. Ascending a long, steep flight of stairs and entering the [illegible] they found the mangled body of the child lying near the edge of the [illegible] [illegible] down [illegible] where a large number of persons had congregated, and into the presence of her agonized friends. From the top of her head, which was broken in, blood and brains were slowly oozing, while the bone was crushed so that the little terribly mangled. She was carried to her grandfather's residence and surgeons at once summoned, who pronounced the case hopeless and her death a question of but a few hours at the furthermost. Thomas Piper, who has been sexton of the church for about a year, was soon after arrested, and is now confined at the Chief's office. He was engaged at work about the church, but his suspicious manner and his denial that he had the keys, when the two keys fitting the doors to the tower were taken from his person, point strongly to him as the guilty party. He is a dark, heavy set man about twenty-six years old, and has once before been under suspicion of murder, but was discharged for want of sufficient evidence. Many of the police still believe him guilty of the murder of a young girl in Dorchester District fifteen months since.

Scarcely three-quarters of an hour elapsed from the time the child came out of the vestibule of the church until she was found in a dying condition. How she was enticed away and for what purpose is not known.

An Appalling Disaster.

Burning of a Church—Sixty-Six Persons Perished in the Flames.

SPRINGFIELD, Mass., May 27.—The most terrible disaster in the history of Holyoke, Mass., occurred to-night in the burning of the French Catholic Church at the South Holyoke during the evening service, involving the loss of sixty-six men, women and children.

The exercises had nearly closed, and a vesper service was being sung, when the draperies on the altar caught fire from a candle, and the wall being low and the flames streaming up the building was set on fire. The audience numbered about seven hundred.

The people in the body of the church escaped, but on the stairway leading from the gallery human beings were packed in a dense mass struggling to escape as the flames rushed toward them. Many leaped to the floor beneath and were trampled to death. The gallery skirted both sides of the building, with only one entrance from the front. The scene was fearful in the extreme during the little while it lasted.

The exercises had already closed when the fire broke out. Immediately a panic ensued and the people rushed for the doors. The gallery had but one entrance from the front. On the stairway leading from the gallery the people were struggling to clear themselves as the flames rushed towards them.

The passage soon became blocked rendering exit impossible. Many jumped over the sides of the galleries on the crowd beneath, and a number were trampled on and killed. Many escaped through a door back of the altar leading to the priests. The priest's exertions to keep order were fruitless.

The screams of the living and the moans of the dying made a deafening tumult above the orders of the pastor, who worked most heroically, and was personally instrumental in saving many lives.

Frank Mezick, a pauper in the Wicomico almshouse, is a practical glutton. Whilst in Salisbury last week he ate 40 large ginger cakes in 36 minutes, on a wager. The next day, after eating a hearty breakfast, he put down three quarts of ice cream at one sitting, because a man agreed to pay for all he could eat. The *Eastern Shoreman* says: Six men with Frank's eating capacity would break any county poor house in the State, or breed a famine in *Caroline* county.

THE INFERNAL BUG.—Groans come up from various sections of the Peninsula, over the advent of the ten-lined bug, and his voracious assault on the potato-vines. About Dover, are his ravages reported; in Wicomico county, the Salisbury papers say he is sweeping away the vines as fast as they rise above the ground; and the lament of the Georgetown *Journal* is piteous to hear, the editor being moved to speak of the homely esculent upon which this monster prefers to prey as "this delicious vegetable!"

But one report comes from the peach region—that the prospect for a crop remains good. Adolphus Brown, the General Agent of the Junction & Breakwater lines, says everything looks favorable for the largest yield of fruit ever gathered on the Peninsula.

VIRGINIA ELECTIONS—NORFOLK., May 27.—The conservatives carried their ticket to-day in Portsmouth electing all but two councilmen.

The conservatives also elected their ticket in Norfolk.

ALEXANDRIA (VA.) ELECTION—ALEXANDRIA, VA., May 27.—The regular city election occurred here to-day. K. Kemper was chosen mayor and John W. Campbell, city sergeant. The conservatives elected a large majority of their candidates for the city council.

A CARD.

IT having come to my knowledge that some evil-disposed person had circulated a report to the effect that I had not served an apprenticeship to the watch making business in Great Britain, but had only taken it up after I came to America, I hereby pronounce the report false. I served six years at the business, four with Mr. John Cottier, in the Isle of Man, and two years with Mr. Joseph Sewell, in Liverpool. Mr. Sewell was watch maker to the Queen of Spain, and ranked as high as any in the business. Mr. Cottier emigrated to the United States about 1845, settled in New York, and now resides there, and carries on the silver smith's business in a large way. His character is equal to the best in New York. I have my indenture papers, both to Mr. Cottier and Mr. Sewell, which I will be pleased to show to any person who desires to satisfy himself on the subject. If this is not satisfactory, I refer to Mr. Cottier, No. 16 Maiden Lane, New York, for confirmation of what I say. I hope this will be sufficient to correct this injurious report. I claim to understand the watch making business thoroughly, learned it as a trade, have worked for the past forty years on fine watches and guarantee to give satisfaction. The public's obedient servant,

HENRY MYERS.

Road Notice.

NOTICE is hereby given that the following petition will be presented to the County Commissioners:

To the Honorable
The Commissioners of Talbot county—
Gentlemen: The undersigned, citizens of Talbot county, respectfully represent, that it is very desirable to a large portion of the citizens living in the district or neck of country known as Bambury, to have a new road laid down and built; said road to be a continuation of the new road lately built in said Neck by your Honorable Board, so as to connect with the road leading from Lloyd's Landing. Your petitioners are advised and believe that the cost of such a road would not be great, as the road will not be more than two or three miles in length, while it would be of great advantage to the citizens of Bambury, bringing that section six or seven miles nearer Easton than they are at present, and thereby shortening the route of travel from said Neck to the county town fully one-third.

And in duty, &c.

You are invited to an inspection of my assortment of

Agricultural Machinery,

now daily arriving. The

REAPER

is the first that claims attention, and for that I offer the Long Tried,
Thoroughly Tested,
Never Failing,
Always Reliable

"Buckeye."

First and Last.

That is to say, First in Popular Favor and the Last That Will Lose it.

I refer you to every one of the large number of farmers in this county who have purchased them, as to their

SUPERIORITY

over any other Reaper and Mower made. To some who have used them five, eight and as much as fifteen years, I *particularly* refer. These machines are

GUARANTEED.

and to make that guarantee GOOD, you go no further than my establishment. There was

OVER 25,000

Buckeye Mowers and Reapers sold during the year 1874.

THERE ARE ABOUT

200,000 BUCKEYES

now in use in the United States alone. What a wonderful testimonial of the merits of a Machine do these figures present!

As has hitherto been remarked, the Buckeye was the first two wheel reaper and mower ever manufactured, and so unquestionably was demonstrated the correct principle of construction that straightway all other reaper and mower men threw aside their worthless one wheeled things, and copied, as near as they dared, after the Buckeye. While other machines have been

CONSTANTLY CHANGED

as to principles of construction, the Buckeye is essentially the same as when nineteen years ago it drove all the one wheeled machines helter-skelter from the market; its simple mechanism, absence of intricate complications, and great durability, having continued it throughout all these long years the machine *par excellence*. As a matter of course, there have been many new and very valuable improvements made to it since its first introduction, the Buckeye people being far removed from that class of slow-going old fellows who don't take stock in the progress of the age. While such improvements have been made, the Buckeye has, as of old, no bolts nor bows in its frame and supports, all of which are of iron; has no cogs in its driving wheels to catch sand and mud; no solid boxes, but each box made so that any lost motion, after years of running, can be taken up.

SO SIMPLE IS IT

in construction that it has but two gears and two pinions, other machines having one-third and one-half more.

I call your particular attention to the new style of RAKE now attached solely to the BUCKEYE, and known as

Miller's Table Rake.

Reel Rakes have served their purpose as best they could, and have easily done the country good service, [illegible] have always been [illegible] [illegible] will soon be numbered, and are [illegible] they will be known only in history [illegible] [illegible] have yielded to [illegible] [illegible] of doing well the work for which it is designed. No people are so exacting as American [illegible]; they demand of the manufacturer that his product be suited to the work, and at fault in [illegible] [illegible] [illegible] [illegible] of Reel Rakes, and in the [illegible] [illegible] their [illegible] [illegible], and still are, endeavoring to produce something better.

Every farmer knows that Reel Rakes waste the grain by cutting off the heads at the inside shoe, that in raking the straw from the platform it becomes mixed, and so crossed as to make the binding troublesome and awkward; that they are difficult to manage, easily broken and short-lived, and, more than all, so sweep their rake arms about the driver's head as to require constant watch and care.

In the Buckeye Table Rake

is found the remedy for all these defects. Three years ago, it entered its first field and already *twelve thousand* farmers attest its merit, and as many more will be added to the list of 1875.

WE DO NOT CLAIM

for the Table-Rake that it is the only machine that will cut your crop, but do claim that it will not head the grain but will cut it clean, whether down or standing, save it all and reel it upon the platform in better shape for binding than any other machine made or known. Now read the testimony of the farmers and binders, and see if our statements are not sustained.

Remember that the

Miller's Table Rake

is an attachment belonging exclusively to the simple, durable and easily managed Front-Cut Buckeye Mower.

THE BUCKEYE

HAS ALWAYS BEEN

IN THE WAY

of other Reapers at public trials. Somehow they always

Carry off the Premiums

and the praises of the assembled multitude, leaving the other competing machines to lament over their useless labor.

We Guarantee the Buckeye to

Do its work well; to
Do its work satisfactorily; to
Stand any ordinary test; to
Be THE Machine wanted.

See me, leave your order, and let me prove to you that I make no empty boast.

Thos. C. Nicols.

Trials, Trials, Trials.

THE BUCKEYE

has taken more *First Premiums* at Township, County, District, State and National Trials, than all other machines put together.

It is a Significant Fact,

That the Buckeye has been awarded the Grand Gold Medal at all the National Trials ever held in America.

In 1857 the Buckeye was awarded the Grand Gold Medal at the National Trial held at Syracuse, N. Y.

In 1866 the Buckeye was awarded the Grand Gold Medal at the National Trial held at Auburn, N. Y.

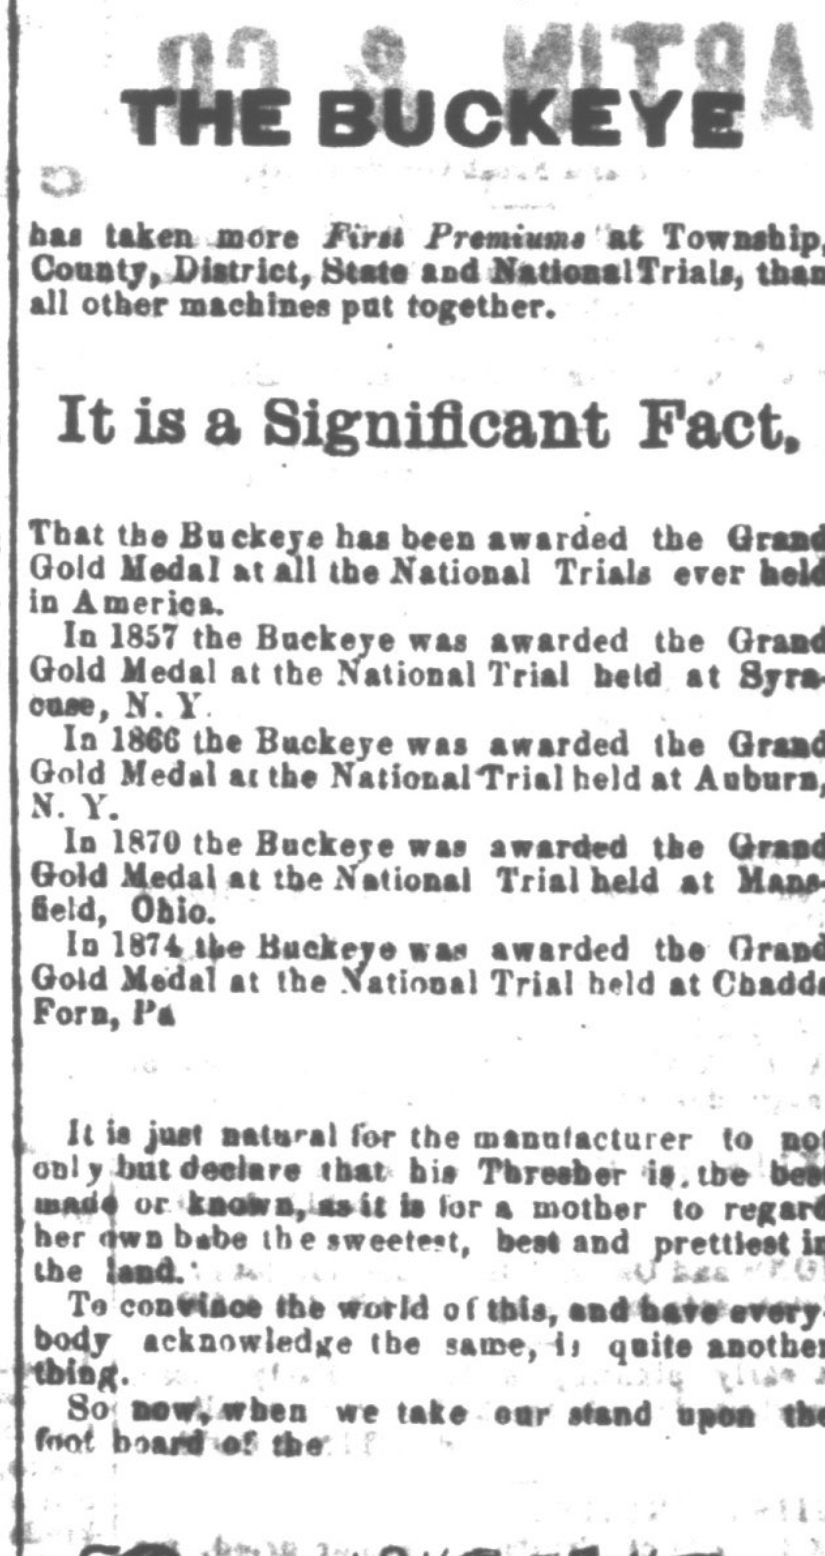
In 1870 the Buckeye was awarded the Grand Gold Medal at the National Trial held at Mansfield, Ohio.

In 1874 the Buckeye was awarded the Grand Gold Medal at the National Trial held at Chadds Ford, Pa

It is just natural for the manufacturer to not only but declare that his Thresher is the best made or known, as it is for a mother to regard her own babe the sweetest, best and prettiest in the land.

To convince the world of this, and have everybody acknowledge the same, is quite another thing.

So now, when we take our stand upon the foot board of the



THE OLD RELIABLE SWEEPSTAKES
AND CAREY HORSE POWER MADE BY
C. AULTMAN & CO. CANTON, O.

and declare it the LEADING and BEST

THRESHER

IN THE MARKET, it becomes us to give a good reason for the faith that is within us and wherefore we make so broad and bold a declaration.

Reasons Why the Old Reliable Sweepstakes are the Best and Leading Threshers upon the Market.

FIRST.

The highest mechanical skill is employed in their construction, and finest inventive genius and the best of threshermen are active in the watch for improvement.

SECOND.

No expense or labor is spared in making them substantial, durable and highly finished.

THIRD.

They are not only capable of threshing and cleaning all kinds of grain, such as wheat, rye, oats, barley and buckwheat, but are adapted to threshing flax, clover, timothy, millet, Hungarian seed, etc., etc.

FOURTH.

They will thresh and clean all for market more grain, and do it better and with less power than any other.

FIFTH.

They are the only machine that will successfully thresh wet and tangled grain without wrapping the cylinder.

SIXTH.

They are the only machine that will thoroughly thresh [illegible] [illegible] [illegible] get it all out of the straw [illegible] under enabling them to do this with ease.

For the foregoing [illegible] as well as other that will be called to your attention another time. [illegible] no longer persisting.

Terms easier than ever.

THOS. C. NICOLS.

May 25th, 1875.
