The "New Process" (?) known to Dentist (who has been in practice over six months), as Dental Application, was introduced in this county by T. J. Smithers in 1878.

Articles invented by Traveling Dentists are not generally used by other dentists, nor by themselves except on paper, the only place where some dentists opera e skillfully.

Skilful dentists never have to travel, beg, steal, lie or resort to catch-penny advertising for practice.

T. J. Smithers is the only dentist in this or adjoining counties, who has a license to use or make Rubber Plates, which is not only the best plate, but the only plate that ought to be used. Cost T. J. Smithers $300 for License.

Tax-payers whose tax accounts for 1879 are in arrears are earnestly requested to pay their taxes immediately

The County Commissioners, the School Commissioners and the Comptroller are all in need of funds, and are requiring of the Collector the amounts in his hands for collection. This being the case the Collector must either press collection at once, or he will himself be charged with delinquency. I have been using John Lucas & Co.'s Celebrated Enameled Ready-Mixed Paint, very extensively for the last two years and have tested it very thoroughly, and after using from eight hundred to one thousand gallons in 1879 alone, I have no hesitation in pronouncing it the best paint in the market. The following qualities make it superior to any I have ever used:

1st. It has no water in it, and can therefore be used in the *coldest* as well as the warmest weather

2d. *Two* coats of this paint will give as much satisfaction as most other paints with three coats.

3d. One of its most desirable qualities is its *uniform thickness*; it is not so thin in warm weather as to be fit only for priming, nor so thick in cold weather as to not spread easily and evenly.

I have the exclusive sale of it in this county.

I have obtained the signatures of the following persons upon whose houses I have used this paint during the years 1877-78-79 (all of these houses were new and most of them finished with only two coats) and they recommend it as entirely satisfactory in *solidity, brightness and durability.*

BEGS to announce that he has received another invoice of the celebrated Waltham Watches, all sizes and grades. These watches are now used on the principal railroads in England in preference to any other make, being more reliable time keepers. They are the most popular watch in the market. Two years guaranty with each watch. Patronize home and purchase; they are both better and cheaper than foreign make. may31,tf
