A SONG IN NOVEMBER.

Oh, hear ye not a voice that comes a-singing through the trees,
Across the mead and down the dell, along the dying breeze?
And hear ye not the burden of its melancholy song,
Upon the lingering winds of autumn sadly borne along?
"Home, shepherds; home, sheep; winter cometh near.
Wither, flowers; fall, leaves; days will soon be drear."

And hear ye not another voice a-singing o'er the main,
Across the surf, along the beach, a monody of pain?
Oh, tremble while ye listen to its melancholy song,
Upon the lingering winds of autumn sadly borne along;
"Part, lovers; part, maids; winter cometh near;
Sleep, kisses; die, love; life will soon be drear."

Agricultural.

WINTER DAIRYING.

It is most profitable to be doing business when other people are idle. This applies especially to dairying. So few dairymen can make first-class butter, and so few can, or will take the pains to pack it perfectly, that the demand for fine butter during the winter is greater than can be supplied. The winter dairyman is now about beginning business. His cows have been resting during the hot weather, in the shade of a wood-lot, while he has been busy with his crops, and now that he has these all secured, his late fodder and roots prepared, and his fall pastures in the finest order, he is ready to begin butter making, with every advantage in his favor. The summer dairyman has been worrying through the heat, consuming ice at great cost, and has succeeded only in getting a second quality of butter, which will sell twenty-five to fifty per cent. less than that fresh-made in winter. The necessities for winter dairying are few, and are easily provided. They are: fresh cows, coming in about September; plenty of good hay and fodder, with roots and supplementary food, which is cheaper now than at any other time, because it is in season, and is abundant; an airy dairy house, warmed to an even temperature by a stove, avoids every difficulty, and the dairyman is in full control of everything needed for the best management of his business, instead of fighting flies, torrid heats, dry weather, and every other difficulty, as in summer.

Orchard Notes.

The experience of all fruit growers is that it pays to cultivate young orchards. The trees become thriftier, bear sooner, and of course better fruit. The philosophy of this is simple: During that period when the young trees are growing, like everything else supported by the soil, they need and must have proper nourishment. After they have in a measure attained their growth the cultivation should cease, in order that they may ripen their wood. It has been observed that more trees die each winter in hard, uncultivated soil, than in one which has been cultivated.

The Gardener's Monthly says: Lots of trees with good roots and properly planted, die after removal, simply from a weakened constitution brought about by poor living. It has always been understood in this country that a transplanted tree is safer for being pruned, but the pruning generally consisted of shortening in all the branches, strong as well as weak. But it is now found that the tree should not be shortened in, but merely thinned out. All the weaker branches should be cut out, and the strong ones left. It is not possible to pound the earth too tight about a transplanted tree It is not possible to avoid all risks in transplanting. The art will never be so perfected that some will not die.''

Those who have young orchards should always carry a good pruning knife with them. They will find plenty of use for it when visiting their trees. Here and there are shoots putting out that may as well be dispensed with—too many branches are forming to make the future head of the tree; water sprouts, the effect of too much pruning, are pushing out in all directions, which should be remedied, it being far better to remove them in their tender days than to wait until they have become tough and well established. We do not believe in severe pruning, and all the pruning necessary should be done with the knife. Have one with you, then, and you will always find occasion to use it.

Fall Feeding of Cows.

Cows are usually in calf at this season, and therefore require careful feeding. The course of nature at such a period is, for the cow to dry up and become fat. This is not to the interest of the dairyman, who wishes to prolong the period of milking as much as possible, and to avoid having the cows in too high a condition. High condition encourages milk fever, and many cows are lost by this frequent disease, from too liberal or rich feeding, at an early stage of pregnancy. Besides, a high condition retards the development of the foetus, which is starved by the diversion of the nutriment taken by the dam, towards the production of fat in her tissues. The food given should be of a kind that will produce flesh, and not fat; for the young calf is never fat, and consists of lean muscle and bone, with scarcely any fat. The food should be laxative, nutritious, easy of digestion; and not bulky. Bran is the best of all foods for this condition of the cow, and cotton-seed meal is the worst. A small quantity of new process linseed meal, which is nearly devoid of fat, is excellent, and a daily ration of roots should always be provided. All hard, indigestible, bulky, fermented, sour, moldy, smutty, or otherwise unwholesome food, should be avoided, not only for the sake of the cow, but for the welfare of the calf, which may inherit a tendency to any disorder from which the dam may suffer at this period, especially a tendency to milk fever.

If there is no one growing small fruits for market in your place, why don't you do it? It is a paying business, and clean and healthful.

No youth should be permitted to have, own or drive a horse for pleasure until he understands how to care for it properly, and does so.

About 100 bushels of wood ashes per acre is a fair proportion to apply on light soils.

Only Temperance Bitters Known.

VINEGAR BITTERS
DR. J. WALKER'S CALIFORNIA VINEGAR BITTERS
PURELY VEGETABLE, FREE FROM ALCOHOL

[illegible] the blood of [illegible] disease [illegible] Millions bear testimony to its wonderful curative effects.
It is a purely Vegetable Preparation, made from the native herbs and roots of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.
It removes the cause of disease, and the patient recovers his health.
It is the great Blood Purifier and Life-giving Principle; a Gentle Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the power of VINEGAR BITTERS in healing the sick of every disease man is heir to.
The Alterative, Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Sedative, Counter-Irritant, Sudorific, Anti-Bilious, Solvent, Diuretic and Tonic properties of VINEGAR BITTERS exceed those of any other medicine in the world.
No person can take the Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
Bilious, Remittent, Intermittent and Malarial Fevers are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autumn, especially during seasons of unusual heat and dryness.
These Fevers are invariably accompanied by extensive derangements of the stomach, liver and bowels. In their treatment, a purgative, exerting a powerful influence upon these organs, is absolutely necessary.
There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as it will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus forearmed.
It invigorates the Stomach and stimulates the torpid Liver and Bowels, cleansing the blood of all impurities, imparting life and vigor to the frame, and carrying off without the aid of Calomel, or other minerals, all poisonous matter from the system. It is easy of administration, prompt in action, and certain in its results.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Pneumonia, Dizziness, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, and a hundred other painful symptoms, are at once relieved by VINEGAR BITTERS.
For Inflammatory and Chronic Rheumatism, Gout, Neuralgia, Diseases of the Blood, Liver, Kidneys and Bladder, the Bitters have no equal. In these, as in all constitutional Diseases, WALKER'S VINEGAR BITTERS has shown its great curative powers in the most obstinate and intractable cases.
Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to Paralysis of the Bowels. To guard against this, take occasional doses of VINEGAR BITTERS.
Skin Diseases, Scrofula, Salt Rheum, Ulcers, Swellings, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations, Humors and diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of the Bitters.
Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like VINEGAR BITTERS.
Measles, Scarlet Fever, Mumps, Whooping Cough, and all children's diseases may be made less severe by keeping the bowels open with mild doses of the Bitters.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, this Bitters has no equal.
Cleanse the Vitiated Blood when its impurities burst through the skin in Eruptions or Sores; cleanse it when obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when, and the health of the system will follow.
In conclusion: Give the Bitters a trial. It will speak for itself. One bottle is a better guarantee of its merits than a lengthy advertisement.
Around each bottle are full directions printed in different languages.

Rupture Instantly Relieved by using the celebrated Fry Truss.
We take pleasure in calling your attention to an entirely new principle in the way of a Truss, (Fry's patent). We have at last succeeded in getting an Upward and Inward pressure at the same time, which has never been accomplished by any other Truss before. *We also do entirely away with any pressure on the small of the back.* The hoop being plastic can be bent to fit the exact shape of the body, and, as we get all the pressure from the spring on the end of the hoop, it is not necessary to have it fit any closer than is needed to steady it on the body. You can regulate the pressure—making it light or heavy as the patient may require to retain the rupture—by turning the screw at the end of the spring For sale by J. C. A CARD.

To my Old Patrons and Friends on Miles, Choptank and Wye Rivers.

For the past 30 years I have diligently and faithfully, to the best of my ability endeavored to serve my customers to their entire satisfaction, and this is to inform them and the public generally, that notwithstanding the untrue report that I have sold out and quit, I am still in the boating business and expect to remain in it, as long as the public sustains me. The

Schooner DEXTER,

is in complete order, and I am prepared to freight the grain of my customers on Miles river, Wye river, or Choptank, as usual, and respectfully solicit a continuance of their business, ever grateful for past favors. Freights handled carefully and at prices as low as others. All orders promptly attended to.
The Public's Obedient Servant,
GREENBURY MARSHALL.

Livery & Exchange.

FRANKLIN G. WRIGHT, next door to the Easton Star office, informs the public that he now has the Brick Hotel Stables, near his office, and continues to give strict attention to feeding and grooming horses. He has several teams for hire and every facility for transporting travelers to any section of this or adjoining counties. He hopes by strict attention to business, and good care of horses to merit a continuance of the public patronage.

STEAM
BRICK AND TILE YARD
EASTON, MD.

The Largest Business of its Kind on the Shore.

The Easton Brick and Tile Yard is now fitted up with all the modern and most approved appliances for the manufacture of Brick and Tile. It has capacity to fill promptly and satisfactorily the largest and heaviest orders, whether from home or abroad. The products of this yard have now been in the market for years, and the constantly increasing demand for them throughout Talbot and adjacent counties, and the fact that a customer made is a customer kept, is proof of their superior quality.

DRAIN TILE OF ALL SIZES,

From two to seven inches vent, offered to farmers from 20 to 30 per cent. less than they can be procured anywhere else. Terms will be accommodating, so that no farmer need fail to put his land in order. Call and examine the Drain Tile Stock.

BRICKS, BRICKS, BRICKS.

A large assortment
COMMON AND FRONT BRICKS,
of the best quality, constantly kept on hand, and will be sold at lower prices than can be obtained elsewhere. Orders for any number of bricks, from one to five thousand and will be promptly filled and satisfaction guaranteed.
