An Open Letter to the Farmers of Queen Anne's County

You handle all your own business and there's a lot of detail in running a farm. You must direct it all yourself.

Naturally you want any help you can get. A telephone is an efficient assistant. It will save your time, your energy and your money. A telephone will make you money—far more than the few cents a day that it costs.

It will keep you in touch with markets—getting the best prices.

It will summon help in emergencies such as fire and illness.

It provides social contacts.

Farming is a business. Every business needs a telephone. The cost? Very low, only a few cents a day.
