The landing of the Pilgrims made history in 1620 American Oil Company Again makes Gas History with

Circates AMOCO-GAS

The history of America is the story of achievement. The story of men who dreamed great dreams . . . and then made these dreams come true.

This American Spirit, which made the U.S. the greatest nation in the world, has been one of the major factors in the success of the American Oil Company. This company revolutionized the automotive industry - made possible today's high compression motor - by introducing Amoco-Gas, the first and original special motor fuel.

Amoco-Gas, for years, has held more world's records than any other motor fuel. But science dreamed of an even greater Amoco-Gas. So we spent millions of dollars . . . new processes were invented and patented . . . new equipment perfected . . . the greatest and most modern refining unit in the world was made even more modern.

Result: the new Amoco-Gas is the greatest in our history! Literally, better than the world's best! Try it! You'll get a new driving thrill -- and real economy!

Greates AMOCO-GAS Now on Sale at "The Sign of Greater Values"
