The Famous FARMALLS Come in THREE SIZES

ANY good things come in threes and among the IVI very best from the farm point of view is FARM-ALL power—in THREE sizes—F-30, F-20, and F-12. Each of them is ready not only to plow but to plant, cultivate, run belt machines, and handle all row-crop and general-purpose work.

All of them have these exclusive patented Farmall features—quick-dodging ability, forward location of gangs, and braking either rear wheel through the steering gear for square turns.

Call us and we will come out and demonstrate any or all of the Farmalls.

Don't Play Blind Man's Bluff...

When you buy a fur coat you buy a coat with a label bearing the name of a well-known store or manufacturer. Why? . . . because a fur coat is a costly investment, and you take every precaution to protect this investment by making the "right" purchase. You can't become a fur expert overnight. It takes more than a casual glance to distinguish fine dyeing from cheap dyeing, or unmatched from prime matched peltries. Memorials like furs must be bought on faith from an expert, and when such a high standard of quality memorials as "Guardian" and "Rock of Ages" are assigned to us exclusively in this territory . . . we may rightly call ourselves memorial experts.
