Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time threshing out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here. —A model of this wind-mill can be viewed on Federal Hill, where it is kept for the convenience of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by

To be Sold by private Sale,

THE very valuable Estate, adjoining to Queen-Anne, in Prince George's county, called Padsworth, consisting of about 800 acres of Land. It has on it a large and handsome brick Mansion, faithfully and substantially built, with every requisite out office; a good garden; an extensive orchard well stocked with trees of the most choice fruit; a mill seat on a never failing stream, with a dam so nearly formed by the hand of nature, that a very little labor would be sufficient to complete it—there is also on the estate a very good fishery.

This land is situated in the finest tobacco growing country in Maryland, and is certainly at least equal to any even in that much favored district, for richness of soil, producing the largest crops of the finest tobacco, and the greatest quantity of Indian corn, and other grains. The water on it is pure, and the air uncommonly salubrious; there is not perhaps a more healthy spot in America.

Padsworth is adjoining to Queen Anne, a place well known for having tobacco of the finest quality in the state inspected at it; is distant thirteen miles from the city of Annapolis, twenty-three or four from Baltimore, and seventeen from the city of Washington.

The purchaser may, if he should wish it, be accommodated with the hands, live stock, farming utensils, grain, &c. belonging to the plantation.

Every information respecting price, conditions of sale, extent of credit, (which will be liberal) may be had by application to doctor CLEMENT SMITH, of Poplar Ridge, near Queen Anne, Prince George county.

The above lottery is intended to realize the desirable object of a *Town Clock* and *Alarm Bell*, which the citizens have for some years endeavored to obtain, but as yet their efforts have proved ineffectual. As they will be both useful and ornamental to the city, the managers flatter themselves, that the advantages resulting from them to the community at large, will at once strike the attention of a discerning public, especially in a city whose commerce and population is exceeded by few in the United States. The advantages of the scheme itself, (the number of blanks being less than two to a prize) and the expectation of the drawing being completed as soon as any now offered to the public, will, they hope, ensure the tickets a ready sale. All prizes in the above lottery will be paid, *without deduction*, within thirty days after the drawing is completed—those prizes not demanded within twelve months after the drawing, will be considered as relinquished for the benefit of the undertaking.

Tickets to be had of the following managers:
