A CARD.

H. O. HEBERT (from Philadelphia) solicits the attention of the citizens of Baltimore in general, and invalids in particular, to his "*Air Pump Vapor Bath*," a machine constructed on true philosophical principles, the efficacy of which in gout, rheumatism, palsy, contractions and enlargements of joints, withered and enlarged limbs, cutaneous and many other diseases, both chronic and acute, can be testified by many respectable persons who have had recourse to it.

This machine comprehends and combines the application of fermentation and the cupping glass, two of the most powerful external applications for the removal of disease, and that on a plan more extensive than was ever before known.

As many persons who have never seen the apparatus might be deterred from using it, either from the reports of prejudiced persons, or fear, they are respectfully assured that its application is not attended with either pain or inconvenience—it possesses all the good effects of warm bathing, without its attendant consequences, debility and relaxation; on the contrary, it invigorates and strengthens the whole system, but particularly the part to which the machine is applied. Persons desirous of further information respecting the nature and effects of this machine, will please to apply to the proprietor, at Bryden's hotel.

N. B. "The Air Pump Vapor Bath" is particularly adapted for the removal of all obstructions occasioned by violent colds, which are the forerunners of consumptions, &c.

Complaints peculiarly incident to females, which too generally baffle the remedies hitherto applied, and to which they frequently fall victims in the prime of life, are readily and effectually removed by the application of this machine.

The above lottery is intended to realize the desirable object of a *Town Clock* and *Alarm Bell*, which the citizens have for some years endeavored to obtain, but as yet their efforts have proved ineffectual. As they will be both useful and ornamental to the city, the managers flatter themselves, that the advantages resulting from them to the community at large, will at once strike the attention of a discerning public, especially in a city whose commerce and population is exceeded by few in the United States. The advantages of the scheme itself, (the number of blanks being less than two to a prize) and the expectation of the drawing being completed as soon as any now offered to the public, will, they hope, ensure the tickets a ready sale. All prizes in the above lottery will be paid, *without deduction*, within thirty days after the drawing is completed—those prizes not demanded within twelve months after the drawing, will be considered as relinquished for the benefit of the undertaking.

Tickets to be had of the following managers:
