Town Clock Lottery.

THE MANAGERS of the City Clock and Alarm Bell Lottery have deemed it adviseable to postpone the further drawing of said lottery until the *first* Monday in September. It is the fervent and honest wish of the managers to prosecute their *trust*, not only in such a manner as to obtain the great object in view, but to afford complete satisfaction to those spirited citizens who have become adventurers to aid in its accomplishment. Influenced by such feelings, they pledge their honor, that an unnecessary delay of a single moment shall not take place. But, as returns, in a few instances, have not been made of some tickets in several parts of the country (particularly the Eastern Shore,) and as under such circumstances, it would in some measure, be putting to *hazard* the interest of said object, to prosecute the further drawing before such returns are made—they therefore, find themselves impelled, by duty, to take this prudential step.

As the proceeds of this lottery is intended to embellish the city, and establish a desirable *public good*, it is hoped that citizens who take a laudable pride in facilitating the means of adding to the *beauty* and *convenience* of Baltimore, will come forward with alacrity and purchase the remaining tickets.

Patent Horizontal Wind-Mill.

THE subscriber offers to the gentlemen farmers and others of Maryland, and the other states, an invention, which for utility has not been exceeded by any piece of mechanism which this or perhaps the last century can boast of. It is a peculiarly, though simply, constructed *horizontal* Wind-Mill, adapted to the grinding of all sorts of grain, and at the same time threshing out wheat and rice, fanning them and pounding the latter, powdering plaster of Paris, cutting tobacco, &c. &c. Its aptitude to all those various and useful purposes, will be more easily and justly estimated by a view of the machine itself, than from any description that can be given here. —A model of this wind-mill can be viewed on Federal Hill, where it is kept for the convenience of shewing it in operation, by applying to Mr. Marche, No. 4, south Gay-street, by whom also the terms will be made known for the model only to erect a mill by, or for the patent right for a whole state; or by
