Inventions and Improvements.

A MACHINE has been erected in the city of Baltimore for the purpose of COLORING HATS, by the operation of which is saved half the time, half the fuel, one-third of the die stuff, and nine-tenths of the labour, with a number of other advantages, all of which, the subscriber pledges himself to make appear on investigation. As this machine has been a matter of investigation, and by impartial judges declared to be effectual, he feels himself bound to make every effort to prove its efficacy to all those who may still have any doubts. It must be to the interest of the hatters in the United States, to adopt this mode of colouring, which will do away the most disagreeable part of that branch of business.

Doctor Dastuge,

(Lately arrived in this place)

East-street, No. 3, near the public Library,

OFFERS his ſervices to thoſe ladies and gentlemen who may have occaſion to employ him: Having paſſed the beſt part of his time, ſince his ſtudy, at the principal ſchools in Montpelier and Paris, particularly in the *Charity and Hotel Dieu Hospitals*, he flatters himſelf he has acquired ſufficient knowledge of phyſic and ſurgery to recommend him to the confidence of the inhabitants of this city.

The Doctor has a PREVENTIVE, that any perſon having ſuſpicion of being infected, by application in the ſpace of three days after connexion, he will engage to cure radically in a few days. Gentlemen, particularly, who by imprudence, may be under ſome disagreeable apprehenſion, ſhould not heſitate a moment in making an early application, by which they will ſecure their health and peace of mind.

Swellings and inflammations from freſh infections, either venereal, gout, rheumatiſm, or ſcorbutic, reduced in a ſhort time, without cutting or pain.

The Doctor cures particularly the *rheumatism* and a *certain diſorder*, without *mercury*, and in ſo ſhort a time as will aſtoniſh the patient.

Numerous are the unhappy people, as well in the country as in this great city, who unfortunately labor under the above deſtructive diſorders for months and years, ſuffer their conſtitutions to be entirely ruined, rather than to apply for proper aſſiſtance, and give themſelves up for loſt.

Let none of either ſex deſpair, in the worſt caſes, and of ever ſo long ſtanding; if curable, the doctor will engage to perform a complete cure in the ſpace of ſix weeks or two months—the patient conforming to the doctor's directions.

Gleets and ſeminal weakneſſes effectually cured.

The doctor likewiſe makes artificial teeth, and truſſes or bandages for all kinds of ruptures, and *pieces* proper to repair defects of the human body, ſome of which decency will not permit him to explain. The ſecret on his part was always ſacred, as thoſe who have had occaſion have experienced.

He has had alſo great ſucceſs in performing an operation on the teeth, which takes off the tartar, cleanſes and makes them white in an eaſy manner, no ways painful, and without doing the leaſt injury to the enamel; which operation, together with an opiate dentifrice and elixir he compoſes, cleanſes and faſtens the teeth, and is a perfect cure for the ſcurvy, which ſo frequently relaxes the gums.

☞ Advice and attendance, *gratis*, to poor and diſtreſſed families: The Doctor will only requeſt a certificate of their ſituations from the miniſters of their reſpective pariſhes.
