MONDAY, *SEPTEMBER* 9.

State of Maryland,

CITY OF BALTIMORE, ss.

BY THOROWGOOD SMITH,

Mayor of the City of Baltimore,

A PROCLAMATION.

WHEREAS it has been represented to me by the Commissioners of Health, that they entertain a well-founded apprehension that the malignant disease with which the city of New-York is at this time unhappily afflicted, may be introduced amongst us, unless the usual intercourse be interdicted:

I have therefore, in pursuance of the advice of the said Commissioners of Health, issued this PROCLAMATION; hereby prohibiting the entrance into the city of Baltimore, or within three miles thereof, of all persons whomsoever, as well as all baggage or other goods, which have come from the said city of New-York, until they shall have been at least fifteen days absent therefrom, excepting only the public mail & such persons or things as the Commissioners of health may admit by a special licence, in consequence of no circumstance appearing to them whereby the health of the city may be endangered. And in addition to the prohibitions contained in a proclamation, issued by me on the sixth day of September, inst. interdicting the usual intercourse with the city of Philadelphia the inhabitants of this city, and the precincts thereof are hereby expressly enjoined not to entertain, receive, or admit, any person or persons in their houses, who may have arrived here from either the city of Philadelphia or New-York, unless he, she or they shall have previously obtained a special license as aforesaid.

This Proclamation to remain in force until publicly revoked by me, of which all persons concerned are to take notice and govern themselves accordingly, under the penalty of Three Hundred Dollars for every offence, one half to the informer, and the other half for the use of the city.

Given under my hand and the corporate seal of the city of Baltimore, this ninth day of September, in the year of our lord one thousand eight hundred and five.

(L. S. C.)

THOROWGOOD SMITH,

Mayor of the city of Baltimore.

September 9.

—

Private letters brought the unwelcome tidings of the appearance of the yellow fever in New-York, some days ago; but on its existence there as well as in Philadelphia, we were determined to remain scrupulously silent until we should see the report of their Board of Health, believing that to be the best ground to be relied upon. Yesterday's mail has furnished an official statement of the health of that city, which has rendered it incumbent on our Mayor to take the same measure with respect to it that had been adopted towards Philadelphia, and this evening's Gazette contains his proclamation to that effect. We know, for we have experienced what this fatal calamity is; & whilst we cordially felicitate ourselves on our escape thus far this season, and fervently hope for a total exemption from it, we can at the same time as sincerely sympathise with our lass fortunate neighbors for their heavy misfortunes.

—

Impressments.—The brig Elizabeth, from Newry, was brought to yesterday morning at 4 o'clock by the frigate Cambrian, and detained 6 hours. Nine passengers and 5 seamen were impressed. Some of the passengers had endeavored to secret themselves under the coals in the hold, but the lieutenant and his gang were too *keen* to be thus duped, and actually *pricked* them out with the *points* of their swords.

—

Extract of a letter from a Merchant in the Isle of France, to his correspondent in Philadelphia, dated 28th April, 1805.

"You may easily judge of the glut of this Market, when we inform you that there are at this moment, upwards of 18,000 hhd. of wine here for sale, and other articles in proportion."

—

Extract of a letter from a respectable Merchant of Philadelphia now in London, received by the William Murdock, dated 14th July.

"The Spaniards are taking our vessels in these seas, as in the West-Indies, and the British will not, it seems, permit the same ship to bring on a cargo from the settlement of an enemy, though landed and duty paid in America. This is a dangerous business, and its consequence I fear will hurt our offices very much.—Insurance from America is now at 10 *a* 15 per cent. The Two Friends, M'Neil, taken off Charleston, & several other captures here, have completely destroyed the neutral character of the shipping, and as we are unprepared for resistance, though apparently at war with Spain, the British risks are preferred."

—

Mr. Robert Riddell, merchant, of this city, having had some time, a suspicion that his store was opened and plundered by means of a false key—his young man, and a friend of his, determined on Saturday night last, to secrete themselves in the store to discover, if possible, the perpetrator. To effect this they pretended a journey to the country, and at an early hour entered the store unperceived. About ten o'clock the door was unlocked by a negro man belonging to Mr. Riddell, who was proceding to rifle the drawer of its contents, when they seized, and, with much difficulty, secured him. We understand he has been lodged in gaol. [*Telegraphe.*]

—

Mr. Bowdoin.—The paragraph respecting Mr. Bowdoin in the Boston Gazette of yesterday, though not absolutely incorrect, may perhaps make a wrong impression. We have obtained correct information on the subject. Mr. Bowdoin arrived at Corunna in 33 days. He received his passports in due time, but was seized with a serious indisposition, and remained very ill 8 or 10 days. After a consultation of phycisians, it was determined, that considering the state of the roads, and the duties which would devolve on him, it would be very imprudent to proceed to Madrid. On account of his bad health, a trip to England was recommended; and having obtained every becoming civility, Mr. Bowdoin received passports for that country. No mention is made of any probable rupture between the United States and Spain.

[*Boston Repertory.*]

—

It has been reported that the Spanish court refused to accredit Mr. Bowdoin, as the minister of the U. States; but it appears that his credentials were never offered to his Catholic majesty; if they had been, there is no doubt they would have been accepted; for the Spanish government have no cause of complaint against the government of the United States; and if we are disposed to abandon or suspend our demands, they can have no objection! It is probable, that Mr. B. found, on his arrival in Spain, the posture of affairs such as to induce him to defer presenting his credentials till further instructed. Mr. Pinckney and Mr. Munroe had determined that it was unbecoming the dignity of the American government to have a minister at Madrid under existing circumstances. [*N. E. Palladium.*]

—

Letters have been received from the hon. Mr. Bowdoin, dated at St. Andero, where he arrived after a passage of 33 days. The usual quarantine restrictions were dispensed with in his favor, and he was permitted to land soon after his arrival, and met a very polite reception from the brother of the Prince of Peace, who had the command there. Soon after his debarkation, Mr. B. became ill, and as Madrid is considered an unhealthy place, he had concluded not to repair thither till the approach of cool weather, and to pass the intermediate time in London, for which place he had procured a passage. [*Ibid.*]

Mr. Watson, in Clarke county, Kentucky, between 10 and 11 miles from Lexington, in digging for salt water struck upon a vein of water, which is supposed to possess great medical virtue—It is strongly impregnated with sulphur, and a little salt. It operates as a cathartic and diuretic; and four or five pints may be drank at a time without any oppression being felt therefrom. The editor of the Kentutky Gazette has visited the place, where he found upwards of 100 people, and was told that about the same number used the water every morning, and that such as ware afflicted with complaints have generally received great advantages by its use.

Aug. 1, in a heavy gale of wind, broached to, and were thrown on our beam ends, by the ballast shifting, were obliged to cut away the mainmast before she righted. August 2, fell in with the ship Independence, Burns, of this port, who very obligingly supplied us with a spar, some sails, rigging &c. without which we never should have got in. 17th, spoke schr. Fanny, Cochrane, from Tortola. 28th, spoke ship Alexander, from Isle of May, for Boston. On the 29th in a gale lost all his masts, and had his deck swept of every thing—was then under jury masts, steering for New-York, or the first port he could make.

Also, schooner Eliza Vickery, Vickery, 17 days from Havana—sugars—G. F. and L. Warfield.

A passenger on board the schooner states, that some time before they sailed, the American consul being applied to by an American captain, who had been plundered and other wise ill treated by a French privateer, which had carried him to some port in Cuba, the consul applied to the governor for redress whose answer was, *he did not recognize him in the character of consul for the United States, that there were tribunals established where the injured might apply to.* In consequence, the consul suspended his functions, and informed the governor he would quit the place.

Also, Bremen ship Weser, Geitjen, 75 days from Varel—linens, &c.—Von Kapff & Brune. Sailed in co. with ship Washington for Baltimore. Left barque Aeolus, Hendrickson, to sail in 3 weeks for Baltimore. Spoke the Washington, 7th of August, in lat. 38, long. 54.

Also, ship Three Sisters, Calvert, from Cadiz, via Norfolk, with salt.

For Sale

On a liberal credit, or will be exchanged for improved property or ground-rents in Alexandria, George-Town or Washington,

One half or the whole of the LONG GLADES, containing one thousand three hundred and fifty acres of Land, situated three miles from the Great Falls of Potomak, in the county of Fairfax, on the post road from Alexandria and the City of Washington, twenty miles from the former and fourteen from the latter.

On this land is the *well-known white house,* half way between Alexandria and Leesburg. The buildings are convenient and good; the situation for a public house is inferior to none. A store might be established here to advantage.

This property can be divided so as to give an equal proportion of woodland to each part.—There is no tract of the same size in the county, that is better watered, that has a larger proportion of valuable meadow, nor none in the state on which Plaister of Paris answers better. Hay meets with as ready sale as at Washington or Alexandria. There are on it two mill seats, a stone quarry, and an excellent situation for a distillery; appearances of copper ore are very strong on part of the land that adjoins the Mine Tract, belonging to lord *Tankerville* and others.

Also,

A Plantation containing four hundred acres of good limestone land, situated within twelve miles of Winchester, seven of Newtown, and seven from the Shenandoah river, which is now opening. One half the tract is in heavy timber, has a good proportion of meadow and is well watered.

Also,

A Tract of Land, containing three hundred and fifty-six acres, in the district of Columbia, on four mile run, between seven and eight miles from Alexandria, and about four from George-Town or Washington.

More than one half of this land is in valuable timber, has a large quarry of building stone, and is well watered, the improvements are indifferent. It has several elegant scites for building, that command a prospect of the city of Washington, and the adjacent country.
