CELEBRATED GOUT DROPS,

A certain cure for the Gout, Rheumatism, Lumbago, weakness of the joints, and all kinds of Sprains—For Gleets, be they of ever so long standing, and for the Stone and Gravel, it is perhaps the most active, penetrating and effectual remedy in the world—In the Cramp and all pains in the head, face and body, it is without an equal.

This medicine which justly claims a pre-eminence over all others, as being decidedly adapted for the speedy removal of those complaints above mentioned, owes its discovery to the celebrated Tissot—a physician of most exalted eminence in his profession, and is chiefly the extract of an herb peculiar to Europe, to whose powerfully healing, restorative and balsamic qualities, this great man by the administering owed much of his fame.

Hydraulic Patent Rams,

OF THE CELEBRATED MONTGOLFIER.

ABOUT 18 months ago, the subscriber contemplated to solicit from the government, a patent of importation, but Mr. Lapoype assured him to have it from the best authority, that such a patent could not be obtained. Mr. Lapoype, (be it said to the praise of his industry) attempted to make a trial of an Hydraulic Ram in Richmond, since which he has advertised another in Baltimore, having previously received from the subscriber, every liberal information, written documents, and even the loan of one of several Rams, Mr. Montgolfier had favored him with a long time before he started for Monticello. Whether Mr. Lapoype understood enough of the mechanism of the machine, to obtain a complete success, the subscriber cannot pretend to ascertain at present; but he feels no small satisfaction in reading in some of the newspapers, that said Mr. Lapoype, has at least obtained the countenance and approbation of Mr. Thomas Jefferson.

The subscriber has just now received an assortment of the above useful machines of different sizes, from the factory of the inventor, and offers to import many more according to commands. These Hydraulic Rams fixed to a little fall of water, will raise it to any height according to their size, and the body of water, which may be reserved on the top of public or private buildings: It may either supply the wants of towns and villages, or be carried up to irrigate any farm, high grounds, and fertilize the most barren spots, &c. &c.

These Rams being made under the care and attention of their inventor in Paris, cannot fail to be more perfect and cheaper than any others, which might be attempted here.

Printed and easy directions will accompany the sale.—Apply to

CLAUDIUS G. FONTAINE, N. York.

N. B Letters must be free of postage.
