SAVANNAH, January 11.

Arrived schooner Joseph, capt. Conn, Cape-Francois, via New-Providence, 4 days from the latter. Capt. Conn was taken by 3 English men of war, and carried into New-Providence; after a detention of 15 days, was permitted to depart, on paying 700 dollars cost of court.

Capt. Conn corroborates the account under the Nassau head—he says that he saw at Nassau, captain Riley, direct from Teneriffe, which place he left about the 7th December, who informed him that the Rochefort squadron, under the command of Mons. Le Almane, consisting of 5 sail of the line, 2 frigates, a brig and a cutter, had put into Santa Cruiz, in said Island to water, several days prior to his sailing, bringing with them the Calcutta English 50 gun ship, and 6 English India merchant ships, taken on their homeward bound passage—an embargo was immediately laid. On the 5th. the squadron again put to sea—on the 7th, the day which capt. Riley sailed, he fell in with the squadron then in sight of Teneriffe, and saw them capturing the outward-bound Cork fleet, consisting of about 40 sail, one of which being a fast sailer, escaped, spoke capt. R. and informed him that it was probable the most of them would fall into the hands of the French.

The following information is copied from a Nassau Royal Gazette Extra, received by capt. Conn.

NASSAU, (N. P.) January 1.

Capture of the English ship Calcutta, of 50 guns, and six merchant ships from India.

Extract from the journal kept by captain Rilley, of the brig Eliza and Mary.

Sailed from New-York the 16th of September, and arrived at Teneriffe the 5th Nov. where we learnt the following intelligence. That the Rochefort squadron, consisting of 5 sail of the line, 3 frigates and 2 brigs of war, with the Calcutta English 50 gun ship and 6 English merchant ships, prizes to the squadron had arrived at Santa Cruz on the 3d ult. which caused an embargo to be laid on all vessels directly, which was to continue while the squadron was in port: They had sunk several English ships that had very valuable cargoes, on account of their bad sailing, not being able to keep up with the squadron—that they had uniformly sunk or burnt all neutral vessels they fell in with at sea, that were either bound to or along the coasts of Europe, to prevent intelligence getting to the English fleets—that they had taken out their crews, and told them they must go with them to France, and should be paid by the government, the full amount with damages, &c.—that among the neutrals were the following American vessels, viz. brig Minerva, Salter, of New-York; brig Two-Friends, Fenwick, of Charleston—with valuable cargoes, were both burnt; schooner ——, Tucker, of Boston; schr. ——, Sargeant, of ditto. The number of neutral vessels taken and destroyed by the squadron, amounted to 26, the captains of which, during the day, were allowed the liberty of going on shore, but the same privilege was not extended to their officers or crew. The commander in chief, Mons. Le Almane, had taken all their papers, and given to each a certificate, stating he had destroyed their vessels and cargoes, and that they must apply to the minister at Paris for a remuneration.

Spoke January 10, in lat. 33, 40, long. 74, *schr. Eliza, Thomas, from Baltimore, bound to Charleston, out 10 days, had carried away his jib-stay and flying jib-boom.*

Also, sch's Three-Friends, Haws; and Three-Sisters, Spears, 5 days from New-York.

Also, sloop Juliana, Stowe, 16 days from Bermuda. Left there, schr. Maryland-Mary, Drysdale, to sail in a few days for this port.

BY THIS DAY's MAILS.

BOSTON, January 20.

The severity of the weather for a few days past has caused our harbor to be nearly full of ice. It is impossible for outward-bound vessels to sail until the ice is broken up, and the weather moderates. There has been but one arrival since Thursday, viz.—(This day) arrived brig Short Staple, Hodgkins, from Savannah. Left the Vineyard on Friday evening last, in company with schr. Federal George, Field, of Boston—and left the fleet there. Capt. H. says a brig belonging to Newburyport, is on shore at Wood's Hole, with a cargo of sugar and coffee.

SLATE.—It is but a few years since the discovery of this article in our state was first made; and now we are informed of no less than six quaries which have been discovered in the vicinity of Hudson's river, viz. two in Dutchess, two in Columbia, one in Rensselaer, and one in Ulster county. The quality is said to be equal to the Welch slate, and the quantity adequate to every demand. We believe none of the quaries have been much worked, except those of Dutchess & Rensselaer. We have seen school slate, manufactured from the last mentioned quary, much superior to those which are imported, and sold at a lower price.

RICHMOND, January 28.

It is with much regret that we announce the unfortunate accident which happened on last Monday, to William B. Giles, esq. our worthy senator in the congress of the United States. About 12 miles from this city, on the road leading to it from his house in Amelia, his gig overset, he himself was thrown out, and his right leg was broken by the violence of the fall. He was immediately conveyed to a public house on the road; the fractured leg was replaced, and we hope that no serious danger is likely to ensue. Mr. Giles was on his way to Washington, to take his seat in the senate.

FEDERAL GAZETTE.

MONDAY, *JANUARY* 27.

Died on Saturday morning last, the 25th instant, in the 45th year of her age, after a few weeks illness, which she bore with Christian fortitude and resignation, Mrs. *Mary Riddell*, consort of Mr. Robert Riddell, of this city—Long will her loss be felt and her memory revered by her numerous acquaintance, who knew her worth.

We understand, says the Maryland Gazette, that GABRIEL DUVALL, esquire, declines his appointment, either as judge or chancellor.

According to order, the house of delegates of this state, proceeded, on Tuesday last, to the second reading of the report of the committee of conference, and after amending the same, and investing in the Bank of Baltimore 60'300 dollars, in the Union Bank of Maryland 124,300 dollars, and in the Farmers Bank of Maryland 126,700 dollars, Ordered, that Mr. Bruce, Mr. Stephen, Mr. Montgomery, Mr. Ellicott and Mr. Hyland, be a committee to prepare and bring in a bill agreeably thereto.

The supplement to the act to authorise the levy court of Baltimore county to establish two additional warehouses in the city of Baltimore, for the inspection of Tobacco, was read the second time, passed and sent to the senate.

HORRIBLE MURDER.

Extract of a letter to a gentleman in Richmond, dated Halifax, January 10.

"There happened in this country a few days since, the most brutal murder ever known. The murderer is in the hands of the law, and is to undergo an examination this day. It is in proof that Wills Williams, a young man late of Kentucky, in character of a *horse trader*, did in open day with a pole-ax beat out the brains of a young man named John Dixon, the store keeper of Lipscomb, Ragland and Co. in the store-house of the same; after which he robbed the trunks, &c. of the house and took out of them money and bank notes to the ammount of 1500 or 2000 dollars, after which the rascal locked the door, leaving the dead body alone in the house, threw away or secreted the key, concealed the ax in the neighboring woods and concealed the silver to the amount of one hundred dollars, together with the merchant's private papers in a hollow tree, all of which were found."

KINE POCK.

Since the establishment of the vaccine institution of New-York, 910 poor persons have been inoculated for the kine pock—and have since been tested by inoculations for the small pox, and by being exposed to take it the natural way. The Jannerian discovery maintains its first character.

GREAT FAILURE.

Captain Meek, lately arrived at Marblehead from Bilboa, reports that the great French banker, Recamier, had failed for an hundred millions of livres. This man was not more famed for his extensive banking concerns, than for being the husband of the most beautiful woman of the age.—Carr, in his very entertaining work, "The Stranger in France," gives some curious & interesting particulars relative to this inchanting woman.

On Tuesday last, Isaac Weaver, Jun. esq. was re-elected treasurer of this commonwealth for the ensuing year.

In our last we mentioned the injury done to trees by the weight of ice on the branches. We were then ignorant that on Sunday the 15th inst. a cake of ice fell from the steeple of the Catholic parish church, of this city, and made its way through the roof, notwithstanding the roof's being covered with tin. [*Quebeck paper.*]

The committee of finance, appointed by the house of delegates, have submitted their report and estimates; by which it appears that the expences of the government, from the 1st of October, 1805, to the 30th September, 1806, will amount to 331,716 dollars; and that the revenue of the commonwealth to meet these expences, will amount to 290,131 dollars 8 cents—the expenditures exceeding the resources by the sum of 41,584 dollars and 92 cents!—The committee in their report, recommend that the additional two and half per cent. allowed sheriffs for collecting taxes on the lots in town, should no longer be allowed; that serjeants of corporations should be compelled to give security for the collection and payment of taxes, and in case of failure be liable to the same process with sheriffs in similar cases.—The committee conclude with suggesting to the house the necessity of preparing some resources to meet the excess of expenditures—either by an increase of taxes generally, or a tax on some particular objects, such as toll-bridges, mills, wharves and race-fields.

MECHANICS, THE FAVORITES OF FORTUNE.

The following five instances of rare good fortune have occurred within the short space of two years:

In the second Literature Lottery, the prize of 25,000 dollars was drawn by a Blacksmith in the city of New-York. In the third Lottery, the 25,000 dollars came up the property of a Tailor in Baltimore; and the 10,000 dollars to a Tailor in NewYork. A Shoemaker in New-York has the 20,000 dollars in the Road Lottery, drawing in this city; and a Bookbinder in Philadelphia has the 10,000 dollars in the Delaware Bridge Lottery, also now drawing.

[*New-York paper.*]

Capt. Lamson, who arrived at Boston on Tuesday from Gibraltar, confirms the account, that thirteen of the British line of battle ships engaged off Cadiz, were at Gibraltar, totally dismasted; and that four of lord Nelson's prizes were also there. He adds, that two of the Spanish prizes got into Malaga after the action.

On Monday the hon. Court of Oyer and Terminer, for the city and county of New-York closed its session. We cannot at this time particularize the various crimes, of which it has taken cognizance, and the different criminals whom it has doomed to punishment. Francisco Son, the Portuguese, convicted of murder, yesterday received his sentence. It was delivered by Judge Tompkins, in a manner which does honor to his head and heart, as a judge, a man, and a christian. It was emphatically impressive and pathetic. During the time employed in pronouncing the sentence, the prisoner stood in silence, the tears streaming down his face, and his eyes frequently elevated to heaven. When the sentence was explained to him by the Portuguese consul, Mr. Monteiro, he uttered a cry of agony, and fell motionless and senseless on the floor. He was conveyed away by the attending officers. The concourse of spectators was immense, and the whole scene strikingly solemn and affecting.

The dangers of Drunkenness

This scene is imitated from the celebrated Garrick. A man during the absence of his wife, takes his infant to play with, at a window of an upper apartment, and drinks till he gets intoxicated---lets it slip out of his arms into the street.---Here the professor displays the degrees of pleasure and fury.

IT having been observed to the professor, that the imitation which he advertised in the second part of his exhibition, called Mass with Music, might be thought a burlesque on religion—he has withdrawn it, and begs leave to assure the public, that impressed with the greatest respect for all sacred ceremonies, he had no other intention but that of giving them the pleasure of hearing the performance of a celebrated author.
