RAN away from the subscribers, on the 28th April last, two negro men, DICK & JAMES Dick, is a black fellow, about 40 years of age, and about 5 feet, 10 or 11 inches high, has a very thin beard, and is very fond of the pipe, he has a remarkable scar almost around the thick part of the thumb on the left hand, occasioned by an edged tool, which had like to have severed his whole thumb from the hand; his cloathing when he went off was, a white kersey coat and overalls, osnaburg shirt, his other cloathing is not recollected, and it is probable he may change the whole of them.

James, is a dark fellow, about 28 years of age, and 5 feet, 9 or 10 inches high; has a noted scar on the inside of the left wrist, occasioned by the cut of an axe; we deem it needless to mention his cloathing as it is probable he may change them; he is a little acquainted with the carpenter's business, and probably may make it his profession: we apprehend they will endeavor to pass for free men. Any person apprehending said negroes, and delivering them to us, or securing them in any jail, so that we get them again, shall receive the above reward, and all reasonable charges paid.

The Subscriber

HAVING returned from Europe, takes the liberty of informing his former friends, and the inhabitants in general, that he will resume his former occupation, on Monday the 2d of June next, in the same house, no. 15, George-street, Fell's Point. He pledges himself that no labor shall be spared, or attention wanting, to facilitate the improvement and to expand the minds of pupils committed to his care. It may be proper to inform those unacquainted with the former plan of his academy, that he teaches Reading, Writing, Arithmetic, English Grammar, Geometry, Trigonometry, Altimetry, Surveying, Mensuration, Geography, the Use of the Globes, Navigation and Practical Astronomy. Those who may favor him with their attendance, in studying the important methods of ascertaining the Longitude by observation, are informed, that it (the longitude) can and is determined to 20 miles; and if they do not find ample demonstration given of its certainty, by a variety of observations, he will not charge one single cent for his trouble.

N. B. Gentlemen of erudition, it is hoped, will not think the above assertion a pedantic flourish, as it is inserted in order to stimulate the minds of those unacquainted with the beauty and utility of this most valuable branch of nautical knowledge.
