**AIKIN'S GEOGRAPHY.**  
JUST PUBLISHED,  
And for sale by M. & J. CONRAD & CO.  
(Price Two Dollars)  
Geographical Delineations;  
Or, A Compendious View of the Natural and Po-  
litical State of  
ALL PARTS OF THE WORLD.  
By J. AIKIN, M. D.  
Author of many valuable Works.  
The precise object aimed at in this work,  
(says Dr. Aikin,) is to afford, in a moderate  
compass, and under an agreeable form, such a  
view of every thing most important relative to  
the natural and political state of the world, as  
may dwell upon the mind in vivid colors, and  
durably impress it with just and instructive  
notions.  
No particular class or age of readers has  
been in my view in this performance. If it  
proves agreeable to my intentions, young per-  
sons of both sexes, at the period of finishing  
their education, may peruse it with advantage,  
as a summary of what is most important to be  
remembered relative to the topics treated of;  
and it may afford compendious information to  
those of maturer years, who are destitute of  
time and opportunity for copious research.  
The work possesses many geographi-  
cal views, so fit for the purposes of instruction  
and general reading.  
Extract from the Annual Review, vol. 4.  
"The happy application of clear and precise  
description, judicious selection, and graceful  
plainness of style, to the illustration of geogra-  
phy, has already been felt and approved by the  
public, in Dr. Aikin's England Delineated.  
Nor will these Geographical Delineations,  
which at present demand our attention, be  
found in any respect unworthy of their author.  
Differing materially as to its object, both from  
the elementary treatises, and the more com-  
plete systems of this important and interesting  
branch of general science, this work may be  
considered as occupying a newly discovered  
station, whence young persons of both sexes  
may review with pleasure and advantage the  
real extent & bearings of their former studies.  
"The principal materials of this work are  
necessarily compiled from other books; but a  
very pleasing part of it, the delineation of na-  
tional characters, is original, and the strong  
tincture of liberal moderation diffused through  
the whole, together with the uniform good  
taste and simplicity of the style, give to it a cer-  
tain charm that is easier felt than described."
