Aikin's Geography.
JUST PUBLISHED,
And for sale by M. & J. CONRAD & CO.
(Price Two Dollars)
Geographical Delineations;
Or, A Compendious View of the Natural and Po-
litical State of
ALL PARTS OF THE WORLD.
By J. Aikin, M.D.
Author of many valuable Works.
"The precise object aimed at in this work,
(says Dr. Aikin) is to afford, in a moderate
compass, and under an agreeable form, such a
view of every thing most important relative to
the natural and political state of the world, as
may dwell upon the mind in vivid colors, and
durably impress it with just and instructive
notions."
"No particular class or age of readers has
been in my view in this performance. If it
prove answerable to my intentions, young per-
sons of both sexes, at the period of finishing
their education, may peruse it with advantage,
as a summary of what is most important to be
remembered relative to the topics treated of;
and it may afford compendious information to
those of maturer years, who are destitute of
time and opportunity for copious research."
"Tho' we possess many geographical works,
yet it is presumed that the publication of Ai-
kin's Geographical Delineations needs no apolo-
gy. Many competent judges in Philadel-
phia, New-York and Boston, have examined
this work, and unanimously agree that it is
neat, perspicuous and useful; well adapted to
the instruction of youth, and the information of
persons of mature age. Perhaps it is no exag-
gerated praise of this work to assert, that no
system of geography of equal size, in all re-
pects, so fit for the purposes of instruction and
general reading."
"Extract from the Annual Review, vol. 4.
"The happy application of clear and precise
description, judicious selection, and graceful
plausibility of style, to the illustration of geogra-
phy, has already been felt and approved by the
public, in Dr. Aikin's England Delineated.
Nor will these Geographical Delineations,
which at present demand our attention, be
found in any respect unworthy of their author.
Differing materially as to its object, but in
the elementary sciences, and the more com-
plete systems of this important and interesting
branch of general science, this work may be
considered as occupying a newly discovered
station, whence young persons of both sexes
may review with pleasure and advantage the
real extent & bearings of their former studies."
"The principal material of this work are
necessarily compiled from other books; but a
very pleasing part of it, the delineation of na-
tional characters, is original, and the strong
tincture of liberal moderation diffused through-
out the whole, together with the uniform good
taste and simplicity of the style, give to it a cer-
tain charm that is easier felt than described."

Valuable Lands &c. for Sale,
On the 19th June next.
In compliance with the will of Engelhard Teiser,
Esq. lately deceased, will be sold at public auc-
tion, on the premises, at 12 o'clock, on the 19th
June next,
All that valuable PLANTATION whereon
the deceased lately resided, containing about
331 1/2 acres, distant about 4 1/2 miles from
the city of Baltimore, and adjoining the lands
of Gen. Smith Daniel Bowly, esq. and others.
On this land are erected, a comfortable Dwell-
ing-House; a convenient stone Barn, 33 feet in
width and 75 feet long; a Still-House, with
2 Stills; and a Spring-House, the lower part
stone, the upper part brick; exclusive of sev-
eral other tenements, and every other neces-
sary out-house; good Apple and Peach Or-
chards, of excellent fruit; also, good kitchen
gardens. About half the land is clear, the
other half is young thriving wood; a consid-
erable quantity of meadow, a constant stream
of water running through it. The upland is
land for all sorts of grain. This property is a
healthy, handsome, and pleasant situation.
Also, at the same time and place will be sold at
auction, as aforesaid,
All that well-known valuable FARM, late
the property of the deceased, called Grace's
Quarter; situated in Middle-river Neck, at the
conflux of Gunpowder river and Saltpetre
creek, by which two waters it is almost sur-
rounded. It contains about 425 acres of arable
soil and meadow land. For fertility of soil,
this place is equalled by few. To point out
the number of natural advantages attending it,
would far exceed the bounds of an advertise-
ment. There is on it a good comfortable
House, almost new, with Kitchen, Negro
Quarter, Spring-House, with necessary out-
houses, and a large frame Barn (erected in the
summer of 1864) with stables, cow-houses, &c.
underneath it. Likewise, two apple-orchards,
two peach ditto, of the best of fruit, with
cherry and plum-trees, and about 20 remark-
ably fine pear-trees, from the fruit of which
alone considerable sums have been made. In
fact, no place in the country can be better
situated, either for the grazier or planter, for
nearly the whole of the farm can be put into
meadow at a small expense. The fishery on
this place, in the season, is extremely profit-
able; and the shores are lined with wild fowl
of all kinds. It has the advantage of an ele-
gant prospect of the river and adjacent coun-
try, and good water. The distance to Balti-
more by land is 16 miles, and by water 4 or 5
hours sail.
Persons disposed to purchase, are invited
to view the above property.
Both the said farms will be laid off and di-
vided into smaller farms, to suit purchasers.
Plats of the same will in a few days be left at
the auction-room of Mr. Thomas Chase.

ELASTIC THREE RING METALLIC PEN
which has been pronounced, by many of the
most eminent penmen, to be far superior to
any metallic Pen that has ever been made
heretofore, either in Europe or America; it is
well known that all the Pens upon the for-
mer principle have been wanting in that pli-
ability which all Pens should have in order to
write with smoothness and rapidity, which in
this is happily effected by the two additional
side slits.
Also, Perpetual Almanac Cases with Pens
or Pencils or both, the novelty and utility of
which will render it far preferable to any com-
mon pencil case, the difference in the price
being insignificant, may be had of the above,
