Sloop Experiment,

For Passengers Only.

ELIUS S. BUNKER, Begs leave to inform his friends and the public that he will, on the first of July, commence and run a SLOOP, of about one hundred & twenty tons Burthen, between the cities of New-York and Hudson, for the purpose of carrying Passengers. Few people who have had occasion to take passage up or down the North River, but have experienced the inconvenience and risk of going on board vessels deeply loaded and lumbered on deck; therefore Captain Bunker has determined to take no Freight on board the Experiment, which will remedy that inconvenience and entirely do away the risk. The owners of this vessel, being desirous to render the passage as short, convenient & agreeable as possible, have not only taken care to furnish her with the best Beds, Bedding, Liqueurs, Provisions, &c. but they have been at a very great expense and trouble in procuring materials and building her on the best construction for sailing and for the accommodation of Ladies and Gentlemen travelling on business or for pleasure. The Experiment will leave New-York every Wednesday evening precisely at six o'clock, and Hudson every Sunday Morning at 8 o'clock, throughout the season. Captain Bunker having been several years engaged in the freighting business between New-York and Hudson, has become well acquainted with every part of the river; and he hopes, by attention and punctuality to merit the patronage of Ladies and Gentlemen from the Southward, who may visit the celebrated Ballston, Saratoga, & Lebanon Springs, or Travellers who may have occasion to travel through the Northern States.—The shortness of the passage to Hudson when compared with that to Albany or any place above Hudson, (where the river is impeded by bars, islands and overfalls that render it impossible for fast-sailing vessels to pass) he thinks will induce most people who are acquainted with the difference, to take passage to Hudson, where Carriages or Boats can at all times be had, at a moderate expense, to convey them to Albany, Troy, Lansingburgh, or the Lebanon Springs, which are about 30 miles distance. Hudson, May, 1867. d June 2. 2aw6w

For Amsterdam,

The Ship ELIZA, J. Huntington, master; She is in complete order and will be dispatched soon. For freight or passage apply to THOMAS TENANT, or JOSEPH STERETT. e6t May 30.

The improvements are, a small Farm Dwelling House, a Kitchen adjoining, Barn and Stables, a small Spring House, a good Apple Orchard, a Meadow very rich, about 6 acres cleared, & from 20 to 25 more may be easily made, as the place is well watered. There is a sufficient quantity of timber for the use of the farm.—The terms of sale may be known by applying to Abraham Jepsen, in Howard-street, or to JOHN MERRYMAN, of Sam'l. Near Hookstown. 2aw May 18.

To Lease, on ground-rent,

SIX LOTS on Franklin-street, south side, opposite to the water company's reservoir, 20 feet front & 90 feet deep; beginning for No. 1 at the distance of about 304 feet from the intersection of Franklin and Calvert-streets, and running eastwardly for breadth, adjoining each other, and bounding on Franklin-street. Also, six other LOTS on Gravel-alley, the north side, 20 feet front and 50 feet deep. Gravel-alley runs parallel with Franklin-street, and is 20 feet wide. The Lots on it run back to those on Franklin-street. Persons who take Lots on Franklin-street, will therefore have an opportunity of making them 140 feet deep, to run back to the alley. Persons who wish to take lots of this depth, may, if they choose, have a greater front. Those who prefer purchasing in lots simple, may have a credit of 12 months, on approved notes with endorsers, and a clear tide when the money is paid. A plat may be seen, and terms known, by application to the subscriber, or to James Baker, surveyor, Oldtown, near the foot-bridge, who will show the lots. ROBT. G. HARPER. d June 1. 2aw

PROPOSALS,

By EZRA SARGEANT, No. 39, Wall-street, New-York. For publishing by subscription, A NEW CYCLOPEDIA, OR, Dictionary of Arts & Sciences.

BY G. GREGORY, D. D. Author of Essays Historical and Moral, the Economy of Nature, &c. &c.

To be completed in twelve months from the time it is put to press. In Twelve Parts. Price two dollars and seventy-five cents each.

This literary Quæry which prompts the publisher of every new work to endeavor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing human can rise into esteem and honor, merely upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopaedia, therefore, will leave it to others to discover and declare, that the generality of Books called Encyclopaedias are, in their very constitution and form, too expensive and too cumbersome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public. First, It comprises the most valuable information in all the important departments of Knowledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain Secondly, This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literary, political, and philosophical world, which otherwise could not be acquired from the larger works in which the sources of these streams of knowledge are contained, but by a whole life devoted to severe and unremitting labour. In order to render the work worthy of the patronage of the American public, the Publisher has engaged all the best American Artists to engrave the Copper-Plates, of which 138 will be given in the course of the work; and has also secured the assistance of Editors of acknowledged talents and information. It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his numerous patrons and supporters, a work which combines eloquence with economy, and practicable utility with splendor. That the Patrons and Subscribers of this intended Publication, may be thoroughly assured of not having their patronage and protection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times; the pages given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Gazette. On account of the great abundance of matter and the number of Engravings which the work will contain, and in consequence of the vast expense necessarily attending the prosecution of such a plan, the publisher is compelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer. The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation; wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravings, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition. That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the following CONDITIONS: 1st. The whole shall be comprised in Twelve parts, one of which shall be published monthly. Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy-five Cents, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country. 2dly. One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery of the twelfth part. 3dly. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the volumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certificate, pledging himself to that effect, to each subscriber, at the time of subscribing. The price of each part will be raised to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36 Dollars. New-York, May, 1867. d June 1.
