HYSON,

YOUNG HYSON, HYSON SKIN & SOUCHONG. N. B. A liberal credit will be given to

purchasers. ANDREW BAYARD, Auct'r.

Philadelphia, June 3. [] 5.] Twenty Dollars Reward,

Will be given for apprehending an appren-tice Boy, named WILLIAM ARMOR, who has been absent from the service of his masters, since the 3d May instant, at which time he obtained leave of absence to go for one week to see his friends in Adams County, when he took the opportunity of going to Baltimore, from whence he wrote to his fa-ther and others in Carlisle, that he was determined not to come back to serve out his time, which is nearly two years. It is very probable that he will endeavor to get work in Baltimore either as a Printer or Taylor, as he has served about a year at both occu-pations. The following is as near a description of him as one he recollected - He is 19 years of him as can be recollected-He is 19 years of age, about 5 feet 10 or 11 inches high, slim made, carries himself erect, has fair hair, and of a ruddy complexion, unassuming in This manners, and especially amongst strang-ers rather bashful, he is possessed of some vices, & the most distinguishing one amongst them is the sin of laziness, which at every op-pertunity he was guilty of. Master Printers, or master Taylors, wherever he may apply for work, are requested to secure said ap-prentice, and lodge him in jail, for which they will be paid Ten Dollars, or Twenty Dollars, and all reasonable expences if brought hom ALEXANDER & PHILIPS, Printers. Carlisle, May 23, 1807. N. B Masters of vessels, and others are

PROPOSALS, By EZRA SARGEAN'T, No. 39, Wall-street, New-York, For publishing by subscription, A NEW CYCLOPEDIA,

. OR, Dictionary of Arts & Sciences.

BY G. GREGORY, D. D. Author of Essays Historical and Moral, the Economy of Nature, Sc. Sc.

To be completed in twelve months from the time it is put to press. In Twelve Parts. Price two dollars and seventy-five cents

THE literary Quackery which prompts the publisher of every new work to endeavor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both uscless and despicable; because nothing human can rise into esteem and honor, merely, upon the ruins of another's reputation, without intrinsic excellence of its own. The Publish-er of Gregory's Cyclopedia, therefore, will leave it to others to discover and declare, that the generality of Books called *Encyclopadias* are, in their very constitution and form, too expensive and two cumb-roome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public. First, It comprises the most valuable informa-tion in all the important departments of Know-ledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain Secondly. This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literary, politi-cal, and philosophical world, which other wise could not be acquired from the larger works in which the sources of these streams of the back of the sources of these streams of knowledge are contained, but by a whole life devoted to severe and unremitted labour.

In order to render the work worthy of the patronage of the American public, the Pub-lisher has engaged all the best American Artists to engrave the Copper-Plates, of which 138 will be given in the course of the work ; and has also secured the assistance of Editors of acknowledged talents and information. It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his nu-

nounces his intention of offering to his nu-merous patrons and supporters, a work which combines cloquence with economy, and practicable utility with spleador. That the Parrons and Jubscribers of this intended Publication, may be thoroughly as-sured of not having their patronage and pro-tection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be seen at the office of the Federal Gazette. seen at the office of the Federal Gazette On account of the great abundance of mat-ter and the number of Engravings which the work will contain, and in consequence of the vast expense necessarily attending the prose-cution of such a plan, the publisher is com-pelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his purpose into full effect, before he puts any part of the intended Publication into the hands of the Engraver or the Printer. The acknowledged and intrinsic merits of the work are such as to ensure it a very genoral and extensive circulation : wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the exe cution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravings, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition. That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the following CONDITIONS : 1st. The whole shall be comprised in Twelve parts, one of which shall be published monthly. Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy five Cents, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country. 2dly. One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery of the twelfth part. Sdiy. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the vo-lumes, receive back the amount of their subscription money which has been advanced. If required, the publisher will give a Certi-ficate, pledging himself to that effect, to each subscriber, at the time of subscribing. 4thly. The price of each part will e rais-ed to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subject, literary and scientific, will be only 36 Dollars.

A. and R. Boughan, No. 99, BOWLY'S WHARF,
