#### To Rent,

The HOUSE and LOT, at present occupied by the subscriber, and situated in the western precincts, near the apper end of Prat-street. It is an excellent two-story brick building; and the lot is also improved, with a garden and frame stable, which will render it a comfortable residence. It will either be rented for the summer season, or for a longer time. Possession may be had imme-A. GROVERMAN. June 5.

Two hundred Dollars reward WILL be paid for apprehending and securing in any jail, so that I may get them again, Negroes JONAH and NAT, who went off from my farm, near Havre de-Grace, on the 17th of last Jonah is a dark mulatto, about 6 feet in when spoken to. Nat is a handsome bright mulatto, about 27 years of age, and 6 feet also in height; broad across the shoulders, but his person He is a shoemaker, and will probably pursue that trade: be is also well acquainted with the business of a farm. They took with them a variety of clothes; among others, Jonah wore a mixed colored cloth coat and a blue cloth surfout. and Nat wore a blue cloth coat and a large beaver coating greatcoat, of a drab color It is supposed

they have gone into Pennsylvania.
PACA SMITH. Havre-de-Grace, June 10.

Twenty Dollars Reward. RAN away from Doughoragen Manor, Elkridge, (the summer residence of Charles Carroll, of Carrollton, Esq.) on the 19th instant, a Negro Man, named WILLIAM; about 30 years of age, 5 feet 8 or 9 inches high; of a pleasing countenance; wears his wool platted on the locks and hehind, and turned up with a comb. His clothing that can be recollected is, humbered on deck; therefore captain Bunker a long blue cloth coat, London brown pantaloons, black ditto, new shoes with one row of hob nails round the soles and heels. He was lately purchased of judge Chase, of the city of Balimore Whoever will deliver the above Negro to the subscriber, at the manor on Elk-rilge, shall receive Twenty Dollars; or, if secured in Baltimore jail, Fifteen Dollars, including what the law allows.

ABIJAH FENN.

Twenty Dollars Reward, Will be given for apprehending an apprentice Boy, named WILLIAM ARMOR, who has been absent from the service of his masters, since the 3d May instant, at which time he obtained leave of absence to go for one week to see his friends in Adams County, when he took the opportunity of going to Baltimore, from whence he wrote to his father and others in Carlisle, that he was determined not to come back to serve out his time, which is nearly two years. It is very probable that he will endeavor to get work in Baltimore either as a Printer or Taylor, as he has served about a year at both occupations. The following is as near a description of him as can be recollected—He is 19 years of age, about 5 feet 10 or 11 inches high, slim made, oarries himself erect, has fair hair, and of a ruddy complexion, unassuming in his manners, and especially amongst strangers rather bashful, he is possessed of some vices, & the most distinguishing one amongst them is the sin of laziness, which at every op-pertunity he was guitty of. Master Printers, or master Taylors, wherever he may apply for work, are requested to secure said apprentice, and lodge him in jail, for which

Sloop Experiment, For Passengers Only.

ELIHU S. BUNKER, Be sleave to inform his friends and the public that he will, on the first of July, commended mning a SLOOP, of about one hundred & en tons Burthen, between the cities of New-Tore and Hudson, for the purpose of carrying

Passengers. Few people who have had occasion to take passage up or down the North River, but have experienced the inconvenience and risque of going on board vessels deeply lo ded and lumbered on dack; therefor captain Bunker the Experiment, which will remedy that innvenience and entirely do away the risque.

The owners of this vessel, being desirous to render the passage as short, convenient & agreeable as possible, have not only taken care to furnish her with the best Buds, Bedding, Liquors, Provisions, &c. but they have been at a very great expence and trouble in procuring materials and building her on the best construction for sailing and for the accommodation of Ladies and Gentlemen tra-

velling on business or for peasure

The Experiment will leave New York every Wednesday evening precisely at six clock, and Hudson every Sunday Morning

at 8 o'clock, throughout the season.

Captain Bunker having been several years engaged in the freighting business between New York and Hudson, has become well acquainted with every part of the river; and he hopes, by attention and punctuality to merit the patronage of Ladies and Gentlemen from the Southward, who may visit the celebrated Ballston, Saratoga, & Lebanon Springs, or Travellers who may have occasion to tra vel through the Northern States .- The shortness of the passage to Hudson when compared with that to Albany or any place above Hudson, (where the river is impeded by bars, islands and overslaws that render it impossible for fast sailing vessels to pass) Le thinks will induce most people who are ac-quainted with the difference, to take pass-age to Hudson, where Carriages or Boats can at all times be had, at a oderste ex-pence, to convey them to Albert Frey, Lansingburgh, or the Lebanon-Springs, which are about 30 miles distance.

PROPOSALS. By EZRA SARGEANT, No. 39, Wall-street, New York,
For publishing by subscription,
A NEW CYCLOPEDIA,

OR, Dictionary of Arts & Sciences.

BY G. GREGORY, D. D.

Author of Essa's Historical and Moral, the

Economy of Nature, &c. &c.

To be completed in twelve months from the time it is put to press. In Twelve Parts.
Price two dollars and seventy-five cents

Tau literary Quackery which prompts the publisher of every new work to endeavor to magnify the merits of his own intended publication by depreciating the merit of all other similar productions, is, at once, both useless and despicable; because nothing luman can rise into esteem and honor, merely, upon the ruins of another's reputation, without some intrinsic excellence of its own. The Publisher of Gregory's Cyclopedia, therefore, will leave it to others to discover and declare, that the generality of Books called Encyclopedias are, in their very constitution and form, too expensive and two cumb reone, to be either expensive and two cumbersome, to be either extensively circulated, or generally useful; and will content himself with briefly stating the claims and pretensions of the Book which he hereby proposes to offer to the public. First, It comprises the most valuable information in all the important departments of Know-ledge, collected and arranged by some of the best scholars, and the most comprehensively scientific men, this day existing in Britain. Secondly. This information is comprised in a small compass, and conveyed in language at once perspicuous and elegant; so that the reader may, in a short space of time, with ease and pleasure to himself, obtain that real acquaintance with the moral, literary, political, and philosophical world, which otherwise could not be acquired from the larges works in which the sources of these streams of knowledge are contained, but by a whole

ine devoted to severe and unremitted labour.

In order to render the work worthy of the patronage of the American public, the Pubisher has engaged all the best American Artists to engrave the Copper-Plates, of which 138 will be given in the course of the work; and has also secured the assistance of Edi-

It is with the blended emotions of confidence and delight, that the Publisher announces his intention of offering to his numerous patrons and supporters, a work which combines eloquence with economy, and

practicable utility with splendor. That the Patrons and Subscribers of this intended Publication, may be thoroughly assured of not having their patronage and protection abused by any defect in the execution of the work itself, or any want of punctuality in its appearance, at the stated and appointed times, the page given as a specimen of the style in which the publisher solemnly pledges himself the whole shall be executed, may be

seen at the office of the Federal Gazette.
On account of the great abundance of matter and the number of Engravings which the work will contain, and in consequence of the vast expence necessarily attending the prosecution of such a plan, the publisher is com-pelled to solicit the aid of a sufficient number of subscribers, to enable him to carry his pur-pose into full effect, before he puts any part of the intended Publication into the hands of

the Engraver or the Printer.

The acknowledged and intrinsic merits of the work are such as to ensure it a very general and extensive circulation: wherefore it only remains to the Publisher to ensure to his subscribers that the whole of the execution, as to the accuracy and elegance of the engravings, paper, and type, shall be such, as in every respect to correspond with the high value of the work. As to the engravings, as yet no specimen can be given; but the Publisher pledges himself that they shall be at least equal, and many superior to those in the London edition

That there may be no possibility of disappointment to the patrons of literature as to this work, the subscriptions are proposed to be received on the following CONDITIONS:

1st. The whole shall be comprised in Twelve parts, one of which shall be published month-Each part shall contain about 150 quarto pages, neatly done up in colored paper, at the price of Two Dollars and Seventy five Cents, which is to be paid for on the delivery of each part—the whole twelve parts when completed will make two volumes in quarto, containing 238 Copper-Plate Engravings, which alone are worth the price of the whole work. It will contain more than double the matter of any similar work that has ever been published in this country.

2dly. One Dollar shall be paid at the time of subscribing, and to be deducted on the delivery or the twelfth part.

Sdly. If the work be not executed in every respect equal to the engagement hereby made the subscribers shall, on returning the volumes, receive back the amount of their subscription money which has been ad anced. If required, the publisher will give a Cerus ficate, pledging himself to that effect, to each

subscriber, at the time of subscribing.

4thly. The price of each part will e raised to Three Dollars, the moment that the work is put to press; and even then, the whole expense of a work which contains the substance of all that is known on every subect, literary and scientific, will be only 36
